Camiysn K1

Camiysn K1 Gaming Keyboard and Mouse Combo Instruction Manual

Model: K1

Introduction

Thank you for choosing the Camiysn K1 Gaming Keyboard and Mouse Combo. This manual provides detailed instructions for setting up, operating, and maintaining your new peripheral set. The K1 combo is designed for an enhanced gaming and typing experience on PC and laptop systems, featuring RGB LED backlighting and an ergonomic design.

Package Contents

- Camiysn K1 Gaming Keyboard
- Camiysn Gaming Mouse
- User Manual (this document)

Setup

The Camiysn K1 Gaming Keyboard and Mouse Combo is designed for plug-and-play functionality, requiring no additional drivers or software for basic operation.

1. Locate an available USB port on your computer (PC or laptop).
2. Connect the USB cable of the Camiysn K1 Keyboard to the USB port.
3. Connect the USB cable of the Camiysn Gaming Mouse to another available USB port.
4. Your operating system should automatically detect and install the necessary generic drivers. The devices are ready for use once detected.

Operating Instructions - Keyboard

Basic Operation

The K1 keyboard features a full-size 104-key layout, including F-keys and a number pad, providing a standard and efficient typing experience. The keycaps are floating and removable.

Figure 3: A close-up view of the Camiysn K1 keyboard's keycaps, illustrating their removable design.

RGB LED Backlight Features

The keyboard is equipped with fantastic RGB backlighting, offering customization options:

- **8 Light Colors:** Cycle through various static colors.
- **5 Light Modes:** Choose from different dynamic lighting effects.
- **Adjustable Brightness and Speed:** Customize the intensity and speed of the lighting effects.

The double-shot injection molding process ensures that keycap legends are durable and have good light transmission, making them visible even in low-light conditions. The backlight can also be turned off if desired.

Multimedia Functions

The keyboard includes dedicated multimedia functions accessible via the **FN** key in combination with the F-keys (F1-F12). Refer to the diagram below for specific functions:

Figure 4: A visual guide to the multimedia functions available on the Camiysn K1 keyboard, activated by pressing the FN key in conjunction with the corresponding F-keys.

Keyboard Multimedia Key Functions

Key Combination	Function
FN + F1	Mute
FN + F2	Volume Down
FN + F3	Volume Up
FN + F4	Player
FN + F5	Play/Pause
FN + F6	Previous Track
FN + F7	Next Track
FN + F8	Email
FN + F9	Web Browser

Key Combination	Function
FN + F10	Calculator
FN + F11	Lock Keyboard
FN + F12	Win Lock (Disable Windows Key)

Operating Instructions - Mouse

DPI Adjustment

The Camiysn gaming mouse offers 6 levels of adjustable DPI (Dots Per Inch) to suit different scenarios, from precise aiming to rapid movements. The DPI settings are: 600, 800, 1200, 1600, 2400, and 3200. Use the DPI button, typically located behind the scroll wheel, to cycle through these settings.

7-Color Breathing LED Backlight

The mouse features a dynamic 7-color breathing LED backlight. To lock the backlight to your preferred color, press the side button (forward or back) simultaneously with the middle button (scroll wheel click).

purple, cyan, red, and white options.

Maintenance

To ensure the longevity and optimal performance of your Camiysn K1 Gaming Keyboard and Mouse Combo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the surfaces of the keyboard and mouse. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the devices.
- **Keycap Cleaning:** The keyboard's floating keycaps are removable. Carefully remove them for deeper cleaning of dust and debris underneath. Reattach them firmly.
- **Avoid Liquids:** Do not immerse the keyboard or mouse in water or other liquids. While the keyboard has some water resistance, excessive liquid exposure can cause damage.
- **Storage:** When not in use for extended periods, store the devices in a clean, dry environment away from direct sunlight and extreme temperatures.

Troubleshooting

If you encounter issues with your Camiysn K1 Gaming Keyboard and Mouse Combo, please refer to the following common solutions:

- **Device Not Recognized:**
  - Ensure the USB cables are securely plugged into your computer's USB ports.
  - Try connecting the devices to different USB ports.
  - Restart your computer.
  - Check your computer's Device Manager (Windows) or System Information (Mac) to see if the devices are listed.
- **Keyboard/Mouse Not Responding:**
  - Verify the USB connection.
  - If only the keyboard is affected, ensure the keyboard lock function (FN + F11) is not active.
  - Test the devices on another computer to rule out a system-specific issue.
- **Backlight Not Working/Incorrect:**
  - For the keyboard, cycle through backlight modes and brightness levels using the dedicated keys or FN combinations.
  - For the mouse, ensure the color lock combination (side button + middle button) was not accidentally pressed.
  - Ensure the devices are receiving sufficient power from the USB port.

If these steps do not resolve your issue, please contact Camiysn customer support for further assistance.
