MAINTENANCE

Proper care and maintenance will extend the life and appearance of your Shintechi sofa. The sofa is upholstered in a breathable and durable corduroy fabric.

- **Regular Cleaning:** Vacuum the sofa regularly using an upholstery attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for corduroy or upholstered furniture, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sunlight or use curtains/blinds to protect it.
- **Fluff Cushions:** Regularly fluff and rotate seat and back cushions to maintain their shape and even out wear. The back and seat cushions are removable.
- **Avoid Harsh Chemicals:** Do not use harsh detergents, abrasive cleaners, or solvents, as these can damage the fabric and finish.

TROUBLESHOOTING

If you encounter any issues with your sofa, refer to the following common troubleshooting tips:

- **Wobbly Legs:** Ensure all legs are securely tightened. If the floor is uneven, consider using furniture pads or shims to stabilize.
- **Cushions Appear Flat:** Regularly fluff and rotate cushions to restore their loft and shape. Over time, foam may compress slightly, which is normal.
- **Sofa Sections Separating:** Check that the connecting brackets between the sofa sections are fully engaged and locked. Re-align and push together firmly if necessary.
- **Squeaking Noises:** Squeaking can sometimes occur from loose connections. Re-tighten all assembly hardware. If the issue persists, inspect the frame for any loose joints.
