Maestri House MHCS06

Maestri House S1 Air Ultra-Slim Espresso Coffee Scale Instruction Manual

Model: MHCS06

INTRODUCTION

Thank you for choosing the Maestri House S1 Air Ultra-Slim Espresso Coffee Scale. This manual provides detailed instructions for the proper setup, operation, and maintenance of your new coffee scale. Please read this manual thoroughly before use to ensure optimal performance and longevity of the product.

WHAT'S IN THE BOX

Upon unboxing, please verify that all components are present:

- Maestri House S1 Air Coffee Scale (x1)
- Silicone Heat-Insulating Pad (x1)
- USB-C Charging Cable (x1)
- Instruction Manual (x1)

SETUP

Initial Charging

Before first use, fully charge the scale using the provided USB-C cable. Connect the USB-C end to the scale and the other end to a compatible USB power adapter (not included). The built-in 480mAh lithium battery ensures reliable daily performance.

Placement and Silicone Pad

Place the scale on a flat, stable surface. For enhanced stability and heat insulation, position the removable silicone heat-insulating pad on the weighing platform. This pad also protects the scale from heat and spills, making it ideal for use under espresso machines or with pour-over setups.

Lighter. Thinner. More Powerful.

OPERATING INSTRUCTIONS

Power On/Off

Press the power button (usually indicated by a circle with a vertical line) to turn the scale on. Press and hold the power button to turn it off. The scale automatically enters sleep mode after 10 minutes of inactivity to conserve power.

Display Overview

The scale features a dual-zone LED display, showing both time and weight simultaneously for easy reading.

Weighing and Tare Function

The scale provides 0.1g precision for accurate measurements from 0.3g to 2000g. To use the tare function, place an empty container on the scale and press the 'T' (Tare) button. The display will reset to zero, allowing you to measure only the contents.

0.1g High Precision Sensing

Precise timing and weighing, designed to bring you the perfect brewing experience

Brewing Modes

The S1 Air features three intelligent brewing modes for various coffee preparation methods:

- **Espresso Mode:** Features automatic tare and timing for consistent shot control. Place your cup on the scale, and it will auto-tare. Start your espresso shot, and the timer will begin automatically.
- **Pour-Over Mode:** Synchronizes weight and time tracking for bloom accuracy. Place your pour-over setup on the scale, and it will auto-tare. Begin pouring, and the timer will start, allowing you to monitor both weight and time.
- **Manual Mode:** Functions as a standard digital kitchen scale with a manual timer for flexible brewing control. You can manually start and stop the timer and use the tare function as needed.

Mute Function

To mute sound alerts, press and hold the TIMER and ZERO buttons simultaneously for 2 seconds. This is useful for quiet environments or early morning brewing.

MAINTENANCE

Cleaning

The scale is crafted from heat-resistant ABS with a seamless waterproof surface, making it scratch-resistant and easy to clean. Wipe the scale with a soft, damp cloth. Do not immerse the scale in water or use abrasive cleaners. The silicone pad can be removed and washed separately.

Storage

Store the scale in a cool, dry place away from direct sunlight and extreme temperatures. Its ultra-slim and compact design allows for easy storage.

TROUBLESHOOTING

If you encounter any issues with your Maestri House S1 Air Coffee Scale, please refer to the following common solutions:

- **Scale not turning on:** Ensure the scale is fully charged. Connect it to a USB-C power source and allow it to charge for at least 30 minutes before attempting to power it on again.
- **Inaccurate readings:** Ensure the scale is placed on a flat, stable surface. Avoid placing it near vibrating machinery or in drafty areas. Recalibrate if necessary (refer to specific calibration instructions if provided in a separate guide, or contact support).
- **Display not responding:** Try turning the scale off and on again. If the issue persists, ensure it is charged.
- **Timer not starting/stopping automatically:** Verify you are in the correct brewing mode (Espresso or Pour-Over) for automatic functions. In Manual Mode, the timer must be operated manually.

For further assistance, please contact Maestri House customer support.
