Tangkula 3-Tier Solid Wood Shoe Rack

Model: 134GR-JV

Instruction Manual

INTRODUCTION

Thank you for choosing the Tangkula 3-Tier Solid Wood Shoe Rack. This freestanding storage unit is designed to provide an organized solution for your footwear and other items in various spaces such as entryways, closets, or bedrooms. Crafted from high-quality pine wood and reinforced with durable PP connectors, this rack offers stability and a natural aesthetic. This manual provides detailed instructions for assembly, usage, and maintenance to ensure optimal performance and longevity of your product.

SAFETY INFORMATION

- Read all instructions carefully before assembly and use.
- Keep small parts away from children during assembly to prevent choking hazards.
- Ensure all connections are securely fastened before placing items on the rack.
- Do not exceed the maximum weight capacity of 55 lbs per shelf.
- Place the shoe rack on a flat, stable surface to prevent tipping.
- Avoid exposing the product to excessive moisture or direct sunlight for prolonged periods to prevent damage to the wood.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

SETUP AND ASSEMBLY INSTRUCTIONS

This shoe rack features a tool-free assembly design. Follow these steps for quick and easy setup:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
2. **Identify Parts:** Separate the wooden rods and PP connectors. Note that some wooden rods are for the vertical frame and others form the slatted shelves.
3. **Assemble Side Frames:** Take two long vertical wooden rods and two PP connectors. Insert the ends of the rods into the connectors to form one side of the frame. Repeat this for the other side frame.
4. **Attach Shelves:** Begin with the bottom shelf. Insert the ends of the slatted wooden rods into the corresponding holes in the PP connectors of both side frames. Ensure the slats are evenly spaced and fully seated.
5. **Continue with Middle and Top Shelves:** Repeat step 4 for the middle and top shelves, working your way upwards.
6. **Secure All Connections:** Once all shelves are in place, gently press down on each connection point to ensure all rods are firmly seated within the PP connectors. The structure should feel stable.

MAINTENANCE

Proper care will help maintain the appearance and extend the life of your shoe rack.

- **Cleaning:** Wipe the wooden surfaces with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or harsh chemicals.
- **Dusting:** Regularly dust the shelves and frame to prevent buildup.
- **Inspection:** Periodically check all PP connectors to ensure they remain secure. Tighten if necessary.
- **Environment:** Keep the rack in a dry environment. Avoid placing it near heat sources or in areas with extreme temperature fluctuations.

TROUBLESHOOTING

If you encounter any issues with your shoe rack, refer to the following common solutions:

- **Rack is Unstable:**

- Ensure all wooden rods are fully inserted into the PP connectors.
 - Verify the rack is placed on a level surface.
 - Check that no parts are bent or damaged.
- **Missing Parts:**
 - Double-check the packaging and surrounding area for any overlooked components.
 - If parts are genuinely missing, contact customer support for assistance.
- **Difficulty Assembling:**
 - Review the assembly instructions and diagrams carefully.
 - Ensure you are using the correct rods for the frame and shelves.
 - Apply gentle, even pressure when inserting rods into connectors. Do not force components.
