## Kozyard KZAHG1014BR

# Kozyard Alexander 10' x 14' Hardtop Gazebo Instruction Manual

**Brand:** Kozyard | **Model:** KZAHG1014BR

## PRODUCT OVERVIEW

The Kozyard Alexander Hardtop Gazebo provides a durable and elegant outdoor living space. It features a robust aluminum frame and a galvanized steel double roof designed to withstand various weather conditions. This 10' x 14' gazebo includes privacy curtains and netting, offering versatility for your patio, backyard, deck, or lawn.

Key features include:

- **Heavy-Duty Frame:** Constructed with 4.7" x 4.7" triangular aluminum poles and 5" x 4" reinforced beams for stability.
- **Galvanized Steel Double Roof:** A 29-gauge galvanized steel roof provides superior durability, heat reduction, and wind resistance.
- **Integrated Gutter System:** Efficiently channels rainwater away from the structure.
- **Curtains & Netting:** Dual-track system with double-layer sidewalls for privacy, ventilation, UV protection, and insect control.
- **Built-In Ceiling Hook:** For hanging outdoor lights or a ceiling fan.

# FULL-FEATURED

Resting, reading, dining, and gathering in nature is a truly enjoyable life.

## SETUP AND ASSEMBLY

Assembly of the Kozyard Alexander Gazebo requires careful attention to detail. It is recommended to have at least two people for installation due to the size and weight of components. Ensure all parts are present before beginning assembly.

### Frame Construction

The gazebo features a thickened aluminum powder-coated frame with reinforced bases and triangular supports for enhanced stability. Proper anchoring is crucial for optimal performance against snow loads and wind speeds up to 60 MPH.

# ALL METAL FRAME

Thickened aluminum powder coated.  
Reinforced base, Triangular support,

## Roof Installation

The galvanized steel double roof is designed for improved airflow and wind resistance. The double-top structure allows heat to escape, contributing to a cooler environment beneath the gazebo.

Image: An illustration of the double-roof design, highlighting its galvanized steel plate construction for waterproofing, rust-proofing, and heat resistance, along with the integrated fly net.

## OPERATING INSTRUCTIONS

### Curtains and Netting

The gazebo includes gray polyester curtains and mesh netting with fully enclosed double-sided zippers and a dual-track system. These can be deployed for privacy, protection from UV rays, rain, and insects, or tied back when not needed.

### Ceiling Hook Usage

A reinforced ceiling hook is provided for hanging outdoor lights, string lights, or a ceiling fan to enhance your outdoor experience. Ensure any electrical installations comply with local safety codes.

## MAINTENANCE

### Gutter System Cleaning

The integrated water-gutter system is designed to efficiently channel rainwater. Regularly inspect and clean the gutters to prevent blockages from leaves and debris, ensuring proper drainage and preventing water accumulation on the roof.

Image: A close-up of the water gutter system, demonstrating its corrugated slope for fast water flow and anti-clogging drainage ditch.

## General Care

Periodically clean the aluminum frame and galvanized steel roof with mild soap and water to maintain its appearance and prevent buildup. Ensure the gazebo is properly anchored, especially in areas prone to strong winds or heavy snow.

## TROUBLESHOOTING

This section provides general guidance for common issues. For specific problems not listed, please contact customer support.

- **Water Leakage:** Check the roof panels for proper seating and ensure all screws are tightened. Inspect the gutter system for blockages.
- **Instability:** Verify that all frame connections are secure and that the gazebo is correctly anchored to a stable foundation.
- **Curtain/Netting Issues:** Ensure tracks are clear of debris and zippers are functioning correctly.

## SPECIFICATIONS

Feature	Detail
Brand	Kozyard
Model Number	KZAHG1014BR
Dimensions	10 ft x 14 ft (Floor Area: 140 Square Feet)
Frame Material	Aluminum
Roof Material	Galvanized Steel
Color	Brown
Water Resistance Level	Waterproof
UV Protection	UV protection (level not specified)
Wind Resistance	Up to 60 MPH (when properly anchored)
Snow Load Capacity	2,500 lbs (when properly anchored)
UPC	810107695746
