Operating Instructions

Converting from Sofa to Sleeper Bed

The JAMFLY sectional features a convenient pull-out mechanism to transform it into a comfortable bed.

1. **Clear Area:** Ensure there is sufficient space in front of the sofa for the bed extension.
2. **Pull Out Bed:** Locate the handle or strap beneath the front edge of the main sofa section. Gently pull it outwards and upwards to extend the sleeper bed mechanism.
3. **Secure Position:** Once fully extended, ensure the bed mechanism is locked into place for stability.

To convert back to a sofa, reverse the steps, pushing the bed mechanism back into the sofa until it is fully retracted.

Image: This image demonstrates the versatility of the sectional. It shows the sofa configured with a left chaise, then with a right chaise, and finally fully extended as a sleeper bed, highlighting its multi-functional design.

Reversing the Chaise Configuration

The chaise lounge can be positioned on either the left or right side to suit your room layout.

1. **Separate Sections:** Disconnect the chaise section from the main sofa section.
2. **Reposition Chaise:** Move the chaise to the desired side (left or right).
3. **Reconnect:** Realign and reconnect the chaise section to the main sofa section using the provided connectors.

Utilizing the Storage Compartment

The chaise section includes a hidden storage compartment for your convenience.

1. **Lift Chaise Seat:** Gently lift the seat cushion of the chaise section. It is designed to hinge upwards.
2. **Access Storage:** Place or retrieve items such as blankets, pillows, or books from the compartment.

3. **Close Compartment:** Carefully lower the chaise seat until it is fully closed and secure.
