### 3. SETUP AND ASSEMBLY

Assembly of the U-MAX shed is required. A detailed instruction manual is included with your product to guide you through each step. For a smoother assembly process, it is recommended to have at least two people for installation.

#### Preparation

- Choose a level and stable location for your shed.
- Clear the area of any debris or obstacles.
- Unpack all components and organize them according to the parts list.
- Gather necessary tools (e.g., screwdriver, wrench, measuring tape).

#### Assembly Steps

Follow the step-by-step instructions provided in the separate assembly manual. The process typically involves:

1. Assembling the base frame.

2. Attaching the wall panels.
3. Installing the roof structure and panels.
4. Mounting the sliding doors.
5. Securing all connections and ensuring structural integrity.

For additional guidance, U-MAX offers step-by-step video tutorials and remote assistance from their technical team. Contact customer support for access to these resources if needed.

## 4. OPERATING INSTRUCTIONS

The U-MAX storage shed features a sliding door design for efficient space utilization and easy access.

### Sliding Door Operation

- To open the door, gently push the door panel along its track.
- To close the door, pull the door panel back until it is fully closed.

- Ensure the tracks are kept clear of debris to allow smooth operation.
- The sliding door design eliminates the need for extra space to open traditional doors, making it ideal for crowded environments.

## 5. MAINTENANCE

Regular maintenance will extend the lifespan of your U-MAX storage shed and ensure its continued performance.

- **Cleaning:** Periodically clean the exterior of the shed with mild soap and water. Avoid abrasive cleaners that could damage the metal finish.
- **Inspection:** Regularly inspect the shed for any signs of rust, loose fasteners, or damage. Address any issues promptly to prevent further deterioration.
- **Door Tracks:** Keep the sliding door tracks free of dirt, leaves, and other debris to ensure smooth operation. Lubricate if necessary.
- **Drainage:** Ensure that water drains away from the shed's base to prevent moisture buildup and potential

corrosion. The shed is designed to be waterproof.

- **Snow Load:** In areas with heavy snowfall, periodically remove accumulated snow from the roof to prevent excessive weight.
