## LIGE LG89143

# LIGE LG89143 Men's Quartz Analog Watch

## INSTRUCTION MANUAL

Model: LG89143 | Brand: LIGE

### Introduction

Thank you for choosing the LIGE LG89143 Men's Quartz Analog Watch. This timepiece combines classic design with reliable quartz movement, offering both style and functionality. This manual provides essential information for setting up, operating, and maintaining your watch to ensure its longevity and accurate performance.

### Product Overview

The LIGE LG89143 watch features a high-quality Japanese quartz movement for precise timekeeping, a durable stainless steel case, and a comfortable genuine leather strap. It includes a date display and luminous hands for visibility in low-light conditions. The watch is designed for daily wear with practical water and scratch resistance.

### 30M WATERPROOF

### HIGH HARDNESS MINERAL GLASS

### LUMINOUS EFFECT

### DURABLE LEATHER STRAP

**Image:** This image illustrates the key features of the LIGE LG89143 watch, including its 30-meter water resistance, high-hardness mineral glass, luminous hands for night visibility, and the durable genuine leather strap.

## Setup and Operation

Your LIGE LG89143 watch is equipped with a single crown for adjusting both the date and time. Follow these steps to set your watch accurately:

- Setting the Date:** Gently pull the crown out to the **first position**. Rotate the crown either clockwise or counter-clockwise until the correct date appears in the date window.
- Setting the Time:** Pull the crown out further to the **second position**. Rotate the crown to move the hour and minute hands until the correct time is displayed. Ensure you set the correct AM/PM if the watch has a 24-hour indicator or if you are setting the date (the date changes around midnight).
- Finalizing Settings:** Once the date and time are set, push the crown back into its original position against the watch case to engage the movement and start the watch.

# FUNCTION DESCRIPTION

**Image:** This diagram visually explains the two crown positions for adjusting the date and time on your LIGE watch. Position 1 is for date adjustment, and Position 2 is for time adjustment.

## Water Resistance Guidelines

Your LIGE LG89143 watch is rated for 30 meters (3 ATM) of water resistance. This means it is suitable for daily life activities involving minor water exposure. However, it is not designed for prolonged submersion or high-pressure water activities.

- **Suitable for:** Sweat, hand washing, rain.
- **Not suitable for:** Bathing, swimming, diving, hot water exposure, or contact with corrosive liquids.

Always ensure the crown is fully pushed in before any contact with water to maintain water resistance.

## DAILY LIFE WATERPROOF

- |               |            |
|---------------|------------|
| ✓ Sweat-proof | ✗ Bathing  |
| ✓ Hand-wash   | ✗ Swimming |
| ✓ Rain-proof  | ✗ Diving   |

Tips for use:

Prohibit immersion in seawater, contact with corrosive liquids or hot water.

**Image:** This infographic clearly outlines the 'Daily Life Waterproof' features, indicating that the watch is sweat-proof, hand-wash safe, and rain-proof, but not suitable for bathing, swimming, or diving.

## Luminous Feature

The hands and hour markers of your LIGE watch are treated with a luminous material, allowing you to read the time in dark environments. The intensity and duration of the glow depend on the watch's exposure to light. For optimal luminescence, expose the watch to bright light before entering a dark area.

## EASY TO READ TIME IN DARK

Note :It depends on the time the watch exists under the light , and it is more noticeable at night

**Image:** This image shows the watch face in a dark setting, with the hands and hour markers emitting a green glow, illustrating the luminous effect for easy time reading at night.

## Maintenance

Proper care will help maintain the appearance and functionality of your LIGE watch:

- **Cleaning:** Wipe the watch case and strap regularly with a soft, dry cloth. For the leather strap, avoid excessive moisture and harsh chemicals.
- **Avoid Extreme Conditions:** Protect your watch from extreme temperatures, direct sunlight for prolonged periods, and strong magnetic fields.
- **Battery Replacement:** The watch is powered by a nonstandard battery. When the watch stops or runs erratically, it may be time for a battery replacement. It is recommended to have the battery replaced by a professional watch technician to ensure proper sealing and maintain water resistance.
- **Strap Care:** Leather straps can wear over time. Avoid bending or twisting the strap excessively. If the strap becomes stiff or damaged, consider replacing it.

## Troubleshooting

If you encounter any issues with your watch, consider the following common solutions:

- **Watch Not Running:** Check if the crown is fully pushed in. If it is, the battery may need replacement.
- **Incorrect Time/Date:** Refer to the "Setup and Operation" section to re-adjust the time and date.
- **Condensation Inside Dial:** This may indicate a loss of water resistance. Avoid further water exposure and seek professional service immediately.

For persistent issues, please contact customer service.

## Specifications

Feature	Detail
Model Name	LG89143
Brand	LIGE
Movement Type	Quartz
Display Type	Analog
Case Material	Stainless Steel
Case Diameter	4 Centimeters
Case Thickness	1.2 Centimeters
Band Material	Leather
Band Width	2 Centimeters
Band Length	25 Centimeters
Crystal Material	Mineral Glass
Water Resistance Depth	30 Meters (3 ATM)
Special Features	Luminous, Date Display
Item Weight	65 Grams

## Warranty and Support

LIGE watches come with a commitment to customer satisfaction. Your watch is covered by a two-year customer service policy. Additionally, a 60-day return and exchange policy is available from the date of purchase.
