## Polibi Full Size Daybed with 2 Drawers

# Polibi Full Size Daybed with 2 Drawers - Assembly and User Manual

Model: Full Size Daybed with 2 Drawers

## INTRODUCTION

---

Welcome to your new Polibi Full Size Daybed. This manual provides detailed instructions for safe assembly, proper use, and maintenance of your upholstered chaise lounge with integrated storage drawers. Please read all instructions carefully before beginning assembly or use.

## SAFETY INFORMATION

---

- Read all instructions carefully before assembly and use.
- Keep all hardware and packaging materials out of reach of children.
- Assemble the daybed on a soft, clean surface to prevent scratches.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not stand on the daybed frame.
- Use only the mattress size specified for a full-size daybed.

## PACKAGE CONTENTS

---

Before beginning assembly, verify that all parts are present. If any parts are missing or damaged, do not proceed with assembly. Contact customer support for assistance.

- Daybed Frame Components (Headboard, Footboard, Side Rails, Slats)
- Two (2) Under-Bed Storage Drawers

- Hardware Pack (Screws, Bolts, Washers, Allen Wrench)
- Assembly Manual (this document)

## ASSEMBLY INSTRUCTIONS

---

This daybed is designed for easy assembly with pre-drilled holes and clear labeling. We recommend two people for assembly, though it can be completed by one person.

### Step 1: Prepare the Area and Identify Parts

Unpack all components and lay them out on a clean, soft surface. Identify each part using the provided parts list in your physical manual. Ensure all hardware is present.

### Step 2: Assemble the Daybed Frame

Attach the side rails to the headboard and footboard using the provided bolts and an Allen wrench. Ensure all connections are secure but do not fully tighten until the frame is complete.

### Step 3: Install the Bed Slats

Place the wooden slats onto the support rails. Secure each slat with the provided screws. Ensure even spacing and firm attachment for proper mattress support.

#### **Step 4: Assemble the Storage Drawers**

Assemble the two storage drawers according to the instructions in your physical manual. Typically, this involves attaching the side panels to the front and back panels, then inserting the bottom panel and attaching the wheels.

## Step 5: Final Tightening and Placement

Once the main frame and drawers are assembled, go back and fully tighten all bolts and screws on the daybed frame. Place the assembled drawers under the daybed. Your daybed is now ready for use.

## OPERATING INSTRUCTIONS

---

### Using the Storage Drawers

The two integrated drawers are designed for convenient storage. Gently pull the drawers out from under the daybed to access their contents. Push them back in until they are flush with the daybed frame for a tidy appearance.

## Placement and Use

Position the daybed in your desired location. Ensure it is on a level surface. This daybed is designed for sleeping and lounging. Avoid excessive weight or jumping on the bed to prevent damage.

## MAINTENANCE

---

### Cleaning the Upholstery

For general cleaning, gently vacuum the velvet upholstery using a soft brush attachment. For spills, blot immediately with a clean, dry cloth. For stubborn stains, a mild fabric cleaner designed for velvet can be used, following the product's instructions and testing on an inconspicuous area first.

### Frame Care

Wipe the wooden and metal components with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. Periodically check all hardware connections and re-tighten if necessary to maintain stability.

## TROUBLESHOOTING

---

- **Squeaking Noises:** Check all bolts and screws on the frame and slats. Tighten any loose connections. Ensure the mattress is properly seated.
- **Drawers Not Sliding Smoothly:** Check for any obstructions in the drawer tracks or wheels. Ensure the drawers are assembled correctly and the wheels are properly aligned.

- **Instability:** Verify that the daybed is on a level surface. Re-check all assembly connections to ensure they are fully tightened.
