MEETION K2000

MEETION K2000 Ergonomic Wired RGB Keyboard Instruction Manual

MODEL: K2000

1. PRODUCT OVERVIEW

The MEETION K2000 is a wired ergonomic keyboard designed for comfort and enhanced typing experience. It features a translucent shell, split and curved key layout, integrated wrist rest, and customizable RGB backlighting. It offers broad compatibility with various operating systems via USB-A or USB-C connection.

2. SETUP

2.1 Package Contents

- MEETION K2000 Ergonomic Wired RGB Keyboard
- USB-A to USB-C Adapter
- User Manual

2.2 Connecting the Keyboard

1. Locate an available USB port on your computer (PC, Laptop, Mac).
2. Connect the keyboard's USB-A cable directly to a USB-A port on your computer.
3. If your computer only has USB-C ports, attach the provided USB-A to USB-C adapter to the keyboard's USB-A cable, then plug the adapter into a USB-C port on your computer.
4. The keyboard is plug-and-play; no additional drivers are required for most operating systems.

2.3 Adjusting Keyboard Angle

The keyboard features adjustable flip-out feet at the bottom to customize your typing angle for optimal comfort. You can choose between 2°, 4.07°, or 4.3° incline settings.

Two Light Modes 9-Color Backlighting

Fn +  Shift

Light Brightness Adjustment:
25% → 50% → 75% → 100% → Off

Fn +  Enter

Changing the Backlight Mode:
RGB (Default) → Seven-Color Breathing → Red →
Green → Blue → White → Purple → Cyan → Yellow

3. OPERATING INSTRUCTIONS

3.1 Ergonomic Design and Wrist Rest

The keyboard's split, curved layout and integrated padded wrist rest are designed to promote a natural hand and wrist posture, reducing strain during extended use. The scissor-switch key design offers a quiet and comfortable typing experience.

Transparent Breathing Light Keyboard

Brighter Than Standard Opaque Keyboards At Night

3.2 Backlight Control

The translucent keycaps allow for vibrant backlighting. You can customize the lighting effects and brightness levels:

- **Adjust Brightness:** Press **Fn + Right Shift** repeatedly to cycle through 25%, 50%, 75%, 100% brightness, or turn the backlight off.
- **Change Backlight Mode/Color:** Press **Fn + Right Enter** repeatedly to switch between different modes:
 - RGB Breathing (dynamic color cycling)
 - 7 Static Colors: Red, Green, Blue, White, Purple, Cyan, Yellow

3.3 System Layout Switching

The keyboard supports both Windows and Mac layouts. To switch between systems:

- For **Windows** systems: Press **Fn + Q**
- For **Mac** systems: Press **Fn + W**

Image 3.3: The keyboard supports both Windows and Mac operating systems, with dedicated function keys for switching layouts.

3.4 Emoji Shortcuts

Access emoji shortcuts by pressing the dedicated Emoji key. This feature is compatible with Windows, MacOS, iPad (iPadOS), and Android Samsung devices. Please note that it does not support iPhone (iOS).

4. MAINTENANCE

4.1 Cleaning

- To clean the keyboard, gently wipe the surface with a soft, dry, or slightly damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these may damage the keyboard's finish or keycaps.
- For cleaning between keys, use compressed air to remove dust and debris.

4.2 Keycap Care

- Ensure keycaps are firmly seated. If a keycap feels loose, gently press it down until it clicks into place.
- Avoid excessive force when pressing keys to prevent damage.

5. TROUBLESHOOTING

5.1 Keyboard Not Responding

- Ensure the USB cable is securely plugged into your computer's USB port.
- Try connecting the keyboard to a different USB port on your computer.
- If using the USB-C adapter, ensure it is firmly connected to both the keyboard cable and the computer's USB-C port.
- Test the keyboard on another computer to determine if the issue is with the keyboard or your computer's port/drivers.

5.2 Backlight Issues

- If the backlight is off, press **Fn + Right Shift** to increase brightness.
- If the color is not desired, press **Fn + Right Enter** to cycle through different color modes.
- Ensure the keyboard is properly connected, as power issues can affect backlighting.

5.3 Keys Not Registering

- Gently press down on the affected keycap to ensure it is properly seated.
- Clean any debris or dust from under the keycap using compressed air.
- If the issue persists, try the troubleshooting steps for "Keyboard Not Responding".
