SAFETY GUIDELINES

Your child's safety is paramount. Please adhere to the following guidelines:

- Always ensure all guardrails are securely attached and properly installed before use.
- Never leave a child unattended in the bed, especially during initial use or if they are prone to climbing.
- Regularly inspect all components for tightness and wear. Tighten any loose fasteners immediately.
- Do not use the bed if any parts are missing, damaged, or broken. Contact customer support for replacement parts.
- Keep small parts and assembly hardware out of reach of children during assembly.
- Ensure the bed is placed on a flat, stable surface.

PRODUCT OVERVIEW

The Bellemave Twin Size Kids Montessori Floor Bed is designed for young children transitioning to an independent sleeping environment. Its low profile allows easy access, fostering autonomy. Constructed from solid wood, it features a robust frame and a slatted base for optimal mattress support and airflow.

SETUP

Assembly is required. All necessary accessories and detailed instructions are provided to ensure a straightforward installation process. Please follow the steps below carefully.

Required Tools (Not Included):

- Phillips head screwdriver
- Allen wrench (if not provided with hardware)

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components and hardware. Refer to the parts list in your included instruction booklet to identify each piece. Ensure all parts are present and undamaged.
2. **Assemble Side Rails:** Attach the side rails to the headboard and footboard using the provided bolts and nuts. Ensure all connections are tight and secure.

3. **Install Center Support:** If your model includes a center support beam, install it now according to the instructions, typically connecting the headboard and footboard for added stability.
4. **Place Slats:** Lay the wooden slats across the bed frame. Secure them in place using the provided screws or fasteners. Ensure even spacing for optimal mattress support and airflow.
5. **Attach Guardrails:** Securely attach the safety guardrails to the designated areas of the bed frame. Double-check that they are firmly fastened and cannot be easily dislodged.
6. **Final Inspection:** Once assembled, perform a final check of all bolts, screws, and connections to ensure they are fully tightened. Place the mattress on the bed.

OPERATING YOUR MONTESSORI FLOOR BED

The Montessori floor bed is designed to provide a safe and accessible sleeping environment that encourages a child's independence. Its low height allows children to get in and out of bed freely, promoting self-reliance and a sense of ownership over their sleep space.

- **Independent Access:** The bed's low design enables your child to access their bed without assistance, fostering confidence and autonomy.
- **Safe Sleep Environment:** The integrated guardrails minimize the risk of accidental falls, providing a secure sleeping area.
- **Mattress Placement:** Use a standard twin-size mattress. Ensure the mattress fits snugly within the frame to prevent gaps.

CARE AND MAINTENANCE

Proper care will extend the life and maintain the appearance of your Bellemave floor bed.

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the wood finish.
- **Regular Inspection:** Periodically check all bolts, screws, and connections to ensure they remain tight. Re-tighten as necessary to maintain structural integrity.
- **Avoid Moisture:** Protect the wood from excessive moisture and direct sunlight to prevent warping or fading.
- **Ventilation:** The slatted base promotes mattress airflow. Ensure the area around the bed is well-ventilated to prevent moisture buildup.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Problem	Solution
---------	----------

Problem	Solution
Bed feels wobbly or unstable.	Check all bolts and screws. Tighten any loose fasteners. Ensure the bed is on a level surface.
Squeaking noises.	Re-tighten all hardware. Apply a small amount of wax or lubricant to contact points between wood pieces if necessary.
Slats seem to shift or move.	Ensure all slats are properly seated in their supports and any securing screws are tightened.
Guardrails are loose.	Verify that the guardrail attachment hardware is fully tightened.
