› BrickBling LED Lighting Kit Instruction Manual for Lego Bugatti Chiron Pur Sport Hypercar 42222

## BrickBling DE02-42222-P105901

# BrickBling LED Lighting Kit Instruction Manual

For Lego Bugatti Chiron Pur Sport Hypercar 42222

## 1. INTRODUCTION

---

This instruction manual provides detailed guidance for installing and operating your BrickBling LED Lighting Kit, specifically designed for the Lego Bugatti Chiron Pur Sport Hypercar model 42222. This kit allows you to illuminate your model, enhancing its display and bringing it to life with dynamic lighting effects.

Please read these instructions carefully before installation to ensure a smooth and safe setup process. The Lego model itself is not included with this lighting kit.

## 2. PACKAGE CONTENTS

---

Before you begin, please verify that all components listed below are present in your package. If any parts are missing or damaged, please contact customer support.

# INHALT DES PAKETS

Keine Baukästen

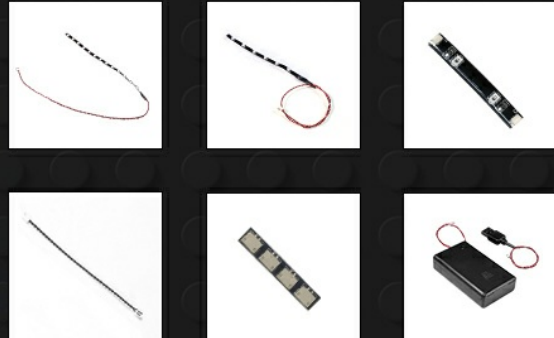

Image: A visual representation of the package contents, illustrating the different types of LED light strips, connecting cables, expansion board, and power cable.

- LED Light Strips (White and Red)
- LED Strip Warm White
- Connecting Cables (various lengths)
- Expansion Board
- Power Cable (USB connector and Battery Compartment)

*Note: The Lego Bugatti Chiron Pur Sport Hypercar model 42222 is not included in this lighting kit and must be purchased separately.*

## 3. SETUP & INSTALLATION

The BrickBling LED Lighting Kit is designed for easy integration with your Lego model. For detailed, step-by-step installation instructions, please refer to our online resources.

## Kein Papier Handbuch

- Loggen Sie sich auf der Website ein, die in der Begleitbroschüre zum Paket abgedruckt ist.
- Geben Sie alle Zeichen des Etiketts auf der Rückseite der Verpackung ein
- Holen Sie sich unsere PDF- und Video-Anleitungen

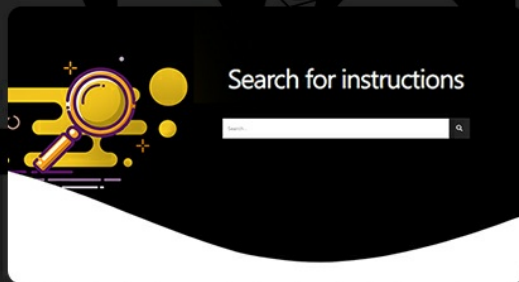

Image: This kit does not include a paper manual. Please visit the manufacturer's website (details on packaging) to access comprehensive PDF and video installation guides.

### Installation Steps Overview:

1. **Access Online Instructions:** Locate the website address provided on your product packaging. Log in or enter the required product code to access the digital PDF and video installation guides.
2. **Prepare Your Model:** Carefully disassemble necessary sections of your Lego Bugatti Chiron Pur Sport Hypercar model as indicated in the online instructions to integrate the lighting components.
3. **Install LED Strips and Cables:** Follow the step-by-step guide to strategically place the LED light strips and route the connecting cables within your model. Ensure all cable connectors fit perfectly and are securely seated.
4. **Connect to Expansion Board:** Attach the connecting cables to the expansion board as directed.
5. **Power Connection:** Connect the main power cable to the expansion board.
6. **Reassemble Model:** Carefully reassemble your Lego model, ensuring no wires are pinched or damaged.

### Power Options:

Your lighting kit offers flexible power options:

- **USB Power:** Use the provided USB cable to connect to a power bank, wall charger, USB socket, laptop, or any other compatible USB device.
- **Battery Power:** Utilize the battery compartment (batteries not included) for portable operation. Ensure correct battery polarity when inserting.

## 4. OPERATING INSTRUCTIONS

Once the lighting kit is fully installed and connected to a power source, your Lego Bugatti Chiron Pur Sport Hypercar model will illuminate.

## VERGLEICH DER LICHTEFFEKTE

## 5. MAINTENANCE

Proper care and maintenance will ensure the longevity and optimal performance of your BrickBling LED Lighting Kit.

- **Cleaning:** Gently wipe LED strips and wires with a dry, soft cloth to remove dust. Avoid using liquids or abrasive cleaners.
- **Handling:** Avoid excessive bending, twisting, or pulling of the wires and LED strips, as this can cause damage to the internal components.
- **Storage:** When not in use for extended periods, store the kit in a dry, cool environment, away from direct sunlight and extreme temperatures.
- **Battery Care:** If using the battery compartment, remove batteries during long periods of inactivity to prevent potential leakage and damage.

Image: Close-up views of the lighting components, emphasizing exceptional light, effortless integration, first-class quality, durability, and high safety standards.

## 6. TROUBLESHOOTING

If you encounter any issues with your lighting kit, please refer to the following troubleshooting tips:

- **Lights Not Working:**
  - Ensure the power source (USB or batteries) is correctly connected and functional.
  - Check all cable connectors to ensure they are firmly seated into the expansion board and LED strips.
  - If using the battery box, verify that batteries are inserted with correct polarity and are not depleted.
- **Lights Are Dim:**
  - If using batteries, replace them with fresh ones.
  - If using USB, ensure your power source (e.g., power bank, wall adapter) provides sufficient power

output.

- **Individual Lights Not Working:**

- Carefully inspect the specific light strip and its connection for any visible damage or loose contact.
- Ensure the wire is not pinched or cut within the Lego model.

For more detailed troubleshooting steps or if the issue persists, please consult the online video or PDF instructions available on the manufacturer's website.

## 7. SAFETY INFORMATION

---

Your safety is important. Please observe the following safety guidelines:

- The lighting kit is constructed with high-quality copper wires, designed for heat and burn resistance, ensuring a safer user experience.
- Ensure all electrical connections are made correctly to avoid short circuits.
- Keep small components of the kit away from young children to prevent choking hazards.
- This product is recommended for individuals aged 15 years and older.
- Do not attempt to modify or alter the components of the lighting kit, as this may void any potential warranty and create safety risks.

## 8. SPECIFICATIONS

---

Feature	Detail
Product Dimensions (L x W x H)	14.5 x 13.9 x 2.7 cm
Weight	173 grams
Manufacturer	BrickBling
Item Model Number	DE02-42222-P105901
Brand	BrickBling
Manufacturer Recommended Minimum Age	15 years (180 months)
Material	Copper (for wires)
Educational Objective	Creative Thinking
Number of Pieces	1 (referring to the kit)
Theme	Car
Special Feature	Easy to store
Power Source	Battery and USB
Battery Type	Not included
Included Components	Instructions (digital)

## 9. WARRANTY & SUPPORT

---

### Warranty Information:

Specific warranty details for the BrickBling LED Lighting Kit are not provided within this manual or the product specifications. For comprehensive warranty information, please refer to the official BrickBling website or contact their customer service directly.

### Customer Support:

For any questions, technical assistance, or further support regarding the installation and operation of your lighting kit, please utilize the following resources:

- **Online Instructions:** Access detailed PDF and video installation guides on the manufacturer's website, as indicated on your product packaging. These resources provide step-by-step visual and textual instructions.
- **Manufacturer Contact:** If you require further assistance, please reach out to BrickBling customer service through their official website.
