Image: The remote enables zonal lighting, allowing different parts of the model to be lit independently.

Image: The light kit creates an elegant display effect, making your model shine.

Power Options

The light kit offers flexible power options:

- **USB Power:** Use the included USB cable to connect to any standard 5V USB adapter (not included).
- **Battery Box:** For cord-free operation, insert 3 AA batteries (not included) into the battery box.

MAINTENANCE

To ensure the longevity and optimal performance of your light kit:

- Keep the components clean and free from dust. Use a soft, dry cloth for cleaning.
- Avoid exposing the kit to excessive moisture or extreme temperatures.
- Ensure all connections are secure to prevent flickering or power interruptions.
- When using batteries, replace them promptly when lights dim to maintain consistent brightness.

TROUBLESHOOTING

If you encounter any issues with your light kit, please refer to the following common solutions:

Problem	Possible Solution
Lights do not turn on.	Check power source (USB connection or battery box). Ensure batteries are correctly inserted and not depleted. Verify all connectors are firmly attached.
Lights are dim or flickering.	Replace batteries if using the battery box. Ensure the USB power source provides sufficient and stable power. Check for loose connections.
Remote control is unresponsive.	Ensure the remote's battery is functional. Point the remote directly at the receiver. Remove any obstructions between the remote and the receiver.
Specific light zone not working.	Check the connections for that specific zone. Refer to the digital installation guide to ensure correct wiring for zonal control.

For further assistance, please contact customer support.
