Gitelsnour Litter Box Enclosure GCLB005BK-V2 Instruction Manual

Model: GCLB005BK-V2

1. INTRODUCTION

Thank you for choosing the Gitelsnour Litter Box Enclosure GCLB005BK-V2. This enclosure is designed to discreetly house automatic robot litter boxes or traditional large litter boxes, providing a functional and aesthetically pleasing solution for pet owners. It features a convenient charging station, a pet-access pedal, and a durable construction.

This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure optimal use of your new litter box enclosure.

2. SAFETY INFORMATION

- Ensure all components are securely fastened during assembly to prevent instability.
- Do not overload the top surface of the enclosure.
- Keep electrical connections dry and away from liquids.
- Regularly check the anti-tipping device for secure attachment, especially if the enclosure is placed in an area accessible to children or pets.
- This product is intended for indoor use only.

3. PACKAGE CONTENTS

Please verify that all parts are present before beginning assembly. Refer to the assembly diagram (not included in this text) for a complete list of components and hardware.

- Enclosure panels (top, bottom, sides, back, doors)
- Pet-access pedal
- Hardware kit (screws, dowels, hinges, handles, magnetic catches)
- Anti-tipping device
- Integrated charging station with power cord

4. SETUP AND ASSEMBLY

Follow the step-by-step instructions provided in the separate assembly guide. Ensure you have all necessary tools (e.g., screwdriver) before starting.

4.1. Choosing Entrance Orientation

The enclosure features an interchangeable entrance, allowing you to install the cat entry opening on either the left or right side to best suit your space and cat's preference.

The enclosure's entrance can be configured for left or right side access.

4.2. Installing the Pet-Access Pedal

Attach the pet-access pedal to the designated side of the enclosure. This pedal reduces the height difference, making it easier for cats of all sizes to enter and exit the litter box.

4.3. Securing with Anti-Tipping Device

For enhanced stability and safety, especially in households with active pets or children, secure the enclosure to a wall using the provided anti-tipping device. Follow the instructions for proper installation.

5. OPERATING INSTRUCTIONS

5.1. Using the Charging Station

The enclosure is equipped with a built-in charging station located on the top surface. This station includes two AC outlets and two USB ports, designed to power automatic litter boxes and other devices. The strategically placed round holes on the back panel facilitate wire management and ensure good ventilation, preventing wire tangling and heat buildup.

5.2. General Use

Place your automatic or traditional litter box inside the enclosure. The large internal capacity (31.5"L x 27.6"W x 39"H) accommodates most popular models. The top surface can be utilized as a side table for placing cat toys, cleaning tools, or other household items. The modern-style edge design helps prevent items from falling off.

6. MAINTENANCE

6.1. Cleaning

The enclosure is constructed from high-quality boards with a smooth, scratch-resistant surface, making it easy to clean. Simply wipe the surfaces with a damp cloth as needed. Avoid using abrasive cleaners that may damage the finish.

Open and Close Door Easily

Easy to Clean

Magnetic Suction

Smooth Handles

The smooth surface allows for quick and easy cleaning with a damp cloth.

6.2. Door Operation

The enclosure doors are designed for smooth opening and closing, featuring magnetic catches to keep them securely shut. The handles provide an ergonomic grip.

Magnetic catches ensure doors remain closed, while handles provide easy access.

7. TROUBLESHOOTING

- **Enclosure feels wobbly:** Ensure all screws are tightened. Verify the anti-tipping device is securely installed to a wall stud or appropriate anchor.
- **Doors do not close properly:** Check that hinges are correctly aligned and tightened. Ensure magnetic catches are properly installed and aligned with the door.
- **Electrical outlets not working:** Confirm the power cord is fully plugged into a functional wall outlet. Check if the integrated charging station's power switch (if any) is on.
- **Cat not using the pedal:** Allow your cat time to adjust to the new setup. You may need to gently guide them onto the pedal a few times.

8. SPECIFICATIONS

Model	GCLB005BK-V2
Brand	Gitelsnour
Dimensions (L x W x H)	31.5" x 27.6" x 39"
