6. MAINTENANCE AND CARE

- **Cleaning:** Wipe the table surface with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Dry immediately with a clean cloth.

- **Spill Management:** Although the surface resists spills, wipe them up promptly to prevent potential staining or water damage.
- **Heat Protection:** Use coasters or placemats for hot dishes to protect the tabletop from heat marks.
- **Regular Inspection:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure to prevent fading or warping of the wood finish.

7. TROUBLESHOOTING

- **Table is wobbly:** Ensure all assembly screws are tightened. Adjust the foot pads on the base to level

the table on uneven surfaces.

- **Tabletop not sliding smoothly:** Check the slide rails for any obstructions or debris. Ensure the rails are clean and free from damage. A small amount of silicone lubricant can be applied to the rails if needed.
- **Extension leaf does not fit:** Verify that the extension leaf is oriented correctly. Ensure the tabletop halves are fully separated before inserting the leaf.
- **Scratches or marks on surface:** For minor scratches, furniture polish or a wood repair kit may be used. For deeper damage, professional repair might be required.
