

ONBRILL CC-108

ONBRILL 68" Cat Litter Box Enclosure Cabinet with Power Outlet (Model CC-108)

User Manual

INTRODUCTION

Thank you for choosing the ONBRILL 68" Cat Litter Box Enclosure Cabinet. This multi-functional furniture piece is designed to discreetly house your cat's litter box while providing additional storage and a convenient power outlet. Please read this manual carefully before assembly and use to ensure proper installation and safe operation.

This enclosure features a hidden compartment for a litter box, four tiers of shelving for storage, and an integrated power outlet for pet appliances. Its design aims to blend with your home decor while offering a practical solution for pet care.

General Assembly Steps:

1. Unpack all components and verify against the parts list provided in your package.
2. Follow the clear and simple instructions included with the product.
3. Assemble the base cabinet first, ensuring all connections are secure.
4. Attach the shelving unit to the base, aligning all pre-drilled holes.

5. Install the doors and handles. Ensure doors are properly aligned for smooth operation.
6. Utilize the included wall connection fixer to secure the unit to a wall, preventing tipping and ensuring stability.

Note: Some users have reported that door alignment may require extra attention during assembly. Ensure all screws are tightened appropriately.

OPERATING INSTRUCTIONS

Litter Box Compartment

The lower cabinet serves as a private space for your cat's litter box. Open the cabinet doors to place or remove the litter box. The interior dimensions are designed to accommodate most standard and large litter pans. A cat-friendly hole on the side allows your cat easy access while keeping the litter box out of sight.

Cat Litter Box Cabinet

Cat Rest Area

Image: The versatile lower compartment can be used for a litter box or as a comfortable resting area for your cat.

4-Tier Storage Shelves

The upper section features four shelves for organizing various items. These shelves can hold cat treats, toys, books, plants, or other household clutter, helping to keep your space tidy.

4-Layer Storage Shelves

Image: The four-tier shelving system provides ample space for organizing pet supplies and other household items.

Built-in Power Outlet

A hidden power outlet is integrated into the unit, allowing for convenient connection of pet appliances such as automatic feeders, water fountains, deodorizers, or nightlights. This feature helps maintain a fresh and comfortable environment for your cat.

Odor Control

The enclosure is designed with honeycomb-shaped ventilation holes on the back to promote micro-circulation and help contain odors within the litter box compartment, contributing to a cleaner, smell-free home environment.

MAINTENANCE

Regular maintenance will ensure the longevity and cleanliness of your ONBRILL Cat Litter Box Enclosure.

- **Cleaning:** The surfaces of the cabinet are designed for easy cleaning. Wipe down with a damp cloth and mild detergent as needed. Avoid abrasive cleaners that may damage the finish.
- **Litter Box Area:** Regularly clean the litter box compartment to maintain hygiene and odor control.
- **Ventilation:** Ensure the honeycomb ventilation holes on the back are not obstructed to allow for proper airflow.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain structural integrity.

TROUBLESHOOTING

If you encounter any issues with your ONBRILL Cat Litter Box Enclosure, please refer to the following common solutions:

Problem	Possible Cause	Solution
Unit is wobbly or unstable.	Loose fasteners; uneven floor; unit not secured to wall.	Ensure all screws are fully tightened. Place the unit on a level surface. Use the provided wall connection fixer to secure the unit to a wall stud.
Doors do not align or close properly.	Hinges incorrectly installed or adjusted; cabinet frame not square.	Recheck hinge installation as per assembly instructions. Adjust hinges if they have adjustment screws. Ensure the cabinet is assembled squarely.
Odor is still noticeable.	Infrequent cleaning; ventilation holes blocked; litter box too large.	Increase frequency of litter box cleaning. Ensure ventilation holes are clear. Verify litter box size is appropriate for the compartment. Consider using a deodorizer with the built-in power outlet.
Power outlet not working.	Not plugged into wall; circuit breaker tripped; faulty appliance.	Ensure the unit's power cord is securely plugged into a functional wall outlet. Check your home's circuit breaker. Test the appliance in another outlet to rule out appliance malfunction.
