ALFAJR Classic Digital Watch WJ-44SS User Manual

Model: WJ-44SS

[Setup](#) [Operation](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty and Support](#)

INTRODUCTION

This manual provides detailed instructions for the ALFAJR Classic Digital Watch WJ-44SS. Please read this manual carefully before using your watch to ensure proper operation and to fully utilize its features, including prayer times, Qibla compass, and dual calendar system.

Figure 1: Front view of the ALFAJR Classic Digital Watch WJ-44SS. This image shows the watch face displaying time, date, and prayer indicators.

SETUP

1. Initial Power On and Time Setting

Upon first use or after a battery replacement, the watch will require initial setup. Press and hold the **MODE** button (usually bottom left) for 3 seconds to enter the setting mode. Use the **ADJUST** button (usually top right) to cycle through settings and the **SET** button (usually bottom right) to confirm selections.

2. Setting Date and Language

In setting mode, navigate to the date setting. Adjust the year, month, and day using the **ADJUST** button. Proceed to language selection (Arabic/English) and confirm. The watch supports both Hijri and Gregorian calendars; ensure the correct calendar system is selected.

3. Prayer Time Configuration

The watch features worldwide prayer times. To set this up:

1. Enter prayer time setting mode.

2. Select your current city or a major city nearby from the pre-programmed list.
3. Confirm the selected city. The watch will automatically calculate prayer times based on your location.
4. Adjust prayer time calculation methods if necessary, according to your local religious authority.

Figure 2: Back view of the ALFAJR Classic Digital Watch WJ-44SS. This image displays the engraved details on the stainless steel case back, including model number and water resistance information.

OPERATION

1. Display Modes

Press the **MODE** button to cycle through different display modes: Time, Date, Prayer Times, Stopwatch, Alarm, and Qibla Compass.

2. Prayer Time Display and Alarms

In the Prayer Time mode, the watch displays the current prayer time and the next upcoming prayer time. Daily alarms and prayer-specific alarms can be set and activated through the alarm settings. An audible alert will sound at the designated prayer times.

3. Qibla Compass

To use the Qibla compass:

1. Enter Qibla Compass mode.
2. Hold the watch flat and rotate it slowly until the Qibla indicator points towards the correct direction.
3. Ensure you are away from strong magnetic fields that could interfere with the compass accuracy.

4. Dual Calendar (Hijri and Gregorian)

The watch automatically displays both Hijri and Gregorian dates. You can switch between these displays or view both simultaneously depending on the selected display format in the settings.

MAINTENANCE

1. Cleaning

Wipe the watch case and band with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid using chemical cleaners, solvents, or abrasive materials.

2. Water Resistance

The ALFAJR WJ-44SS is water-resistant. This means it can withstand splashes, rain, and brief immersion in water. However, it is not suitable for swimming, diving, or hot water activities (e.g., showers, saunas) as steam and temperature changes can compromise the seals. Do not operate buttons while the watch is wet.

3. Battery Replacement

When the battery is low, the display may dim or certain functions may cease. Battery replacement should be performed by a qualified watch technician to ensure water resistance is maintained. Refer to the specifications for battery type.

4. Storage

Store the watch in a cool, dry place away from direct sunlight, extreme temperatures, and strong magnetic fields when not in use for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Display is blank or dim.	Low battery.	Replace the battery.
Prayer times are incorrect.	Incorrect city/location setting or calculation method.	Re-enter your city and verify the prayer time calculation method in the settings.
Qibla compass is inaccurate.	Interference from magnetic fields; watch not held flat.	Move away from electronic devices or metal objects. Hold the watch flat and recalibrate if necessary.
Buttons are unresponsive.	Watch may be in a locked mode or experiencing a temporary software glitch.	Try pressing all buttons to unlock. If unresponsive, a soft reset (refer to advanced manual or contact support) may be required.

SPECIFICATIONS

Model: WJ-44SS

Case Material: Stainless Steel

Band Material: Stainless Steel

Case Dimensions: 42 mm (width) x 42 mm (length) x 11.2 mm (thickness)

Band Width: 22 mm

Display Type: FSTN LCD

Movement Type: Digital
