Speedo USXVANQUISHEROPTICAL2.0A

Speedo Unisex Swim Goggles Optical Vanquisher 3.0 Instruction Manual

Product Overview

The Speedo Optical Vanquisher 3.0 Swim Goggles are designed for performance and training, offering enhanced vision and comfort. This model features optical lenses available in various diopters, a hydrodynamic profile for reduced drag, and advanced lens technologies.

Key features include:

- **Ocular 360 Lens:** Provides a 14% increase in field of view compared to previous models.
- **Hydrodynamic Profile:** Optimized for efficiency and reduced drag in water.
- **Optical Lenses:** Available in diopters from -1.0 to -8.0 for prescription needs.
- **100% UV Protection:** Shields eyes from harmful UVA and UVB rays.
- **Anti-Fog Coating:** Ensures clear underwater vision.
- **Latex & PVC Free:** Suitable for individuals with sensitivities.
- **Adjustable Nose Bridge:** Features a slide-and-lock mechanism for a secure and customized fit.
- **Cushioned-Fit Technology:** Provides comfort for both racing and training.

Setup and Adjustment

Proper adjustment of your Speedo Vanquisher 3.0 goggles is crucial for a comfortable, watertight fit and optimal

performance.

1. **Nose Bridge Adjustment:**

   The goggles come with an adjustable slide-and-lock nose bridge. Gently pull the goggle lenses apart to adjust the nose bridge to a width that comfortably fits your face without pinching or leaving gaps. Ensure both lenses are centered over your eyes.

Image: Illustration of the adjustable nose bridge and interchangeable nose pieces, allowing for a customized fit.

2. **Head Strap Adjustment:**

   Place the goggles over your eyes. Pull the head strap over the back of your head, resting it just above your ears. Adjust the strap tension by pulling the ends through the buckles until the goggles feel secure but not overly tight. The strap should be snug enough to create a seal without causing discomfort or leaving deep marks around your eyes.

3. **Checking the Seal:**

   Press the goggles gently onto your eye sockets. They should create a slight suction and stay in place momentarily without the strap. If they don't, readjust the nose bridge and strap until a comfortable, watertight seal is achieved.

Usage Guidelines

To ensure the best experience and longevity of your Speedo Vanquisher 3.0 goggles, follow these usage recommendations:

- **Wearing:** Always put on and remove goggles carefully. Avoid pulling them off quickly, which can cause discomfort or injury.
- **Anti-Fog Care:** The lenses feature an anti-fog coating. To maintain its effectiveness, avoid touching or rubbing the inside surface of the lenses. If fogging occurs over time, specialized anti-fog solutions can be applied, following their specific instructions.
- **Water Immersion:** Ensure the goggles are properly sealed before entering the water to prevent leakage.

Care and Maintenance

Proper care will extend the life and performance of your goggles:

- **Rinsing:** After each use, rinse your goggles thoroughly with cool, fresh water. Do not use soap or detergents, as these can damage the anti-fog coating.
- **Drying:** Allow the goggles to air dry completely in a cool, shaded area. Avoid direct sunlight or excessive heat, which can degrade materials. Do not wipe the inside of the lenses.
- **Storage:** Store your goggles in a protective pouch or case to prevent scratches and damage to the lenses and frame. Keep them away from sharp objects.
- **Avoid Harsh Chemicals:** Do not expose goggles to harsh chemicals, solvents, or abrasive materials.

Troubleshooting Common Issues

Issue	Possible Cause	Solution
Goggles Fogging Up	Touching the anti-fog coating, natural degradation of coating, temperature difference.	Avoid touching the inside of lenses. Rinse with cool water before use. Apply an approved anti-fog solution if needed.
Goggles Leaking	Improper fit, strap too loose/tight, hair under seal, nose bridge incorrect size.	Adjust nose bridge and head strap for a snug, comfortable fit. Ensure no hair is trapped under the seal. Re-check suction.
Discomfort Around Eyes	Strap too tight, nose bridge too narrow, improper placement.	Loosen the head strap slightly. Adjust the nose bridge. Ensure goggles are centered over your eyes.
Scratched Lenses	Improper storage, contact with abrasive surfaces.	Always store goggles in a protective case or pouch. Avoid placing them lens-down on rough surfaces.

Product Specifications

Feature	Detail
Model Name	Swim Goggles Optical Vanquisher 3.0
Item Model Number	USXVANQUISHEROPTICAL2.0A
Brand	Speedo
Department	Unisex
Optical Diopter Range	-1.0 through -8.0
