7. TROUBLESHOOTING

If you encounter any issues with your nightstand, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Nightstand is wobbly/unstable.	Uneven floor; loose fasteners.	Adjust the leveling feet at the bottom of the legs. Check and tighten all assembly screws.
Charging station is not working.	Power cord unplugged; wall outlet not active; device cable faulty.	Ensure the nightstand's power cord is securely plugged into a working wall outlet. Test the wall outlet with another device. Try a different charging cable for your device.
Drawers are difficult to open/close.	Drawer not properly aligned; obstruction; overloaded drawer.	Ensure the fabric drawer is correctly seated on the slides. Check for any items obstructing the drawer path. Reduce the weight in the drawer if it exceeds 11 lbs.
Scratches on surface.	Sharp objects; abrasive cleaning.	Use coasters for drinks. Avoid dragging objects across the surface. Clean with a soft, dry cloth only.

If the problem persists after attempting these solutions, please contact VINGLI customer support.
