1. INTRODUCTION

Thank you for choosing the jojofuny Automatic Pet Feeder and Waterer. This multi-functional feeding station is designed to provide a convenient and hygienic solution for feeding and watering your pets, including cats, dogs, and rabbits. It features a dual-use design with stainless steel bowls for food and an automatic water dispenser, ensuring your pet has access to fresh food and water throughout the day. The detachable components make it easy to clean and maintain.

2. IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions carefully before using the product.
- This product is intended for pet use only. Do not use for any other purpose.
- Keep out of reach of children.
- Ensure the feeder is placed on a stable, level surface to prevent tipping.
- Regularly inspect the product for any damage. Discontinue use if damaged.
- Clean all components regularly to maintain hygiene and prevent bacterial growth.
- Use only clean, fresh water in the water dispenser.

3. PACKAGE CONTENTS

Please check the package to ensure all components are present:

- 1 x Feeder Base (Green)
- 2 x Stainless Steel Bowls
- 1 x Water Bottle (approx. 500ml capacity)
- 1 x Water Dispenser Connector

4. SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Clean Components:** Wash the stainless steel bowls, water bottle, and feeder base with mild soap and warm water.

Rinse thoroughly and dry completely before assembly.

3. **Insert Stainless Steel Bowls:** Place the two stainless steel bowls into the designated circular openings on the feeder base. Ensure they are seated securely.
4. **Fill Water Bottle:** Fill the water bottle with clean, fresh water.
5. **Attach Water Bottle:** Invert the filled water bottle and insert its nozzle into the water dispenser connector located in the center of the feeder base. The water will automatically dispense into the small water reservoir until it reaches a certain level, then stop.
6. **Position Feeder:** Place the assembled feeder on a stable, level surface in an area accessible to your pet.

5. OPERATING INSTRUCTIONS

1. **Food Dispensing:** Pour your pet's dry food into one or both of the stainless steel bowls. The bowls are designed to hold a sufficient amount for multiple servings.
2. **Water Dispensing:** The automatic water dispenser will continuously refill the water reservoir as your pet drinks, ensuring a constant supply of fresh water. The design prevents water from overflowing and wetting your pet's fur.
3. **Monitoring:** Regularly check the food levels in the bowls and the water level in the bottle. Refill as needed.

6. CLEANING AND MAINTENANCE

Regular cleaning is essential for your pet's health and the longevity of the feeder.

- **Daily:** Refill food and water. Wipe down any spills.
- **Weekly:**

- a. Remove the stainless steel bowls and water bottle.
 - b. Empty any remaining food or water.
 - c. Wash the bowls, water bottle, and feeder base with warm, soapy water. Use a brush for hard-to-reach areas if necessary.
 - d. Rinse all components thoroughly to remove soap residue.
 - e. Allow all parts to air dry completely or dry with a clean cloth before reassembling.
- **Deep Cleaning:** Periodically, you may use a pet-safe disinfectant after washing to ensure thorough sanitization. Always rinse extensively after using disinfectants.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Water not dispensing or dispensing slowly.	◦ Water bottle not properly seated. ◦ Airlock in the bottle. ◦ Dispenser nozzle clogged. ◦ Bottle is empty.	◦ Remove and re-seat the water bottle firmly. ◦ Gently shake the bottle to release any air bubbles. ◦ Clean the dispenser nozzle and connector. ◦ Refill the water bottle.
Feeder slides on the floor.	◦ Anti-skid pads are dirty or missing. ◦ Surface is too smooth.	◦ Clean the anti-skid pads on the bottom of the feeder. ◦ Place the feeder on a mat or a less slippery surface.
Food bowls are dirty quickly.	◦ Infrequent cleaning. ◦ Pet making a mess.	◦ Increase cleaning frequency of the bowls. ◦ Consider placing a mat under the feeder to catch spills.
