SETUP

2.4GHz Wireless Mode

1. Locate the USB Nano Receiver, typically stored in a compartment on the underside of the mouse.
2. Plug the Nano Receiver into an available USB port on your computer or laptop.
3. On the rear side of the mouse, slide the mode switch upwards to the '2.4G' position.
4. The red LED light will emit for a few seconds and then turn into rainbow lights once it has successfully connected with the device.

Bluetooth Mode

1. On the rear side of the mouse, slide the mode switch downwards to the 'BT' position to enter Bluetooth mode.
2. Open the Bluetooth menu on your laptop or phone.
3. Search for the device named "ZEB-BLANC" and tap on it to pair your device.
4. The red LED light will emit for a few seconds and then turn into rainbow lights once it has successfully paired with the device.

The following video demonstrates the unboxing and setup process for both 2.4GHz and Bluetooth modes.

OPERATING INSTRUCTIONS

DPI Adjustment

The mouse features a dedicated DPI button to adjust cursor sensitivity. Press this button, located near the scroll wheel, to cycle through available DPI settings (e.g., 800, 1200, 1600 DPI). The LED light may change color to indicate the current DPI setting.

4 Buttons

Silent Operation

The mouse with its four buttons, including the DPI adjustment button.

Charging

To charge the mouse, connect the provided USB Type-C charging cable to the charging port on the front of the mouse and to a USB power source (e.g., computer USB port, wall adapter). The LED indicator will show charging status.

Silent Operation

The Zebronic ZEB Blanc is designed with silent click buttons, ensuring a quiet working environment. This feature is active during normal operation and does not require any special settings.

The following video provides a quick overview of the mouse's features, including its silent operation and LED lights.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the mouse in a cool, dry place. If storing for an extended period, ensure

the mouse is fully charged.

- **Battery Care:** To prolong battery life, avoid fully discharging the mouse frequently. Charge it when the battery indicator suggests low power.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mouse not responding	Low battery, incorrect mode, receiver not connected (2.4GHz), Bluetooth not paired.	Charge the mouse. Ensure the mode switch is in the correct position (2.4G or BT). Re-insert the USB Nano Receiver. Re-pair via Bluetooth.
Cursor movement is erratic	Dirty optical sensor, unsuitable surface, low battery.	Clean the optical sensor. Use on a smooth, non-reflective surface or a mouse pad. Charge the mouse.
LED lights not working	Mouse is off, low battery.	Ensure the mouse is switched on. Charge the mouse.
Cannot connect via Bluetooth	Mouse not in pairing mode, device Bluetooth off, interference.	Ensure mouse is in BT mode and LED is blinking. Turn device Bluetooth off and on. Move closer to the device.
