2. Initial Setup

2.1 Unboxing and Contents

Carefully unpack your vivo T4 Lite 5G smartphone and verify all contents are present:

- Phone Case
- Power Adapter
- USB Cable
- SIM Tray Ejector
- Quick Start Guide

Image 2.1: vivo T4 Lite 5G with included charger, highlighting the 6000 mAh battery.

2.2 SIM Card Installation

The vivo T4 Lite 5G supports Dual SIM Nano SIM cards.

1. Locate the SIM card tray on the side of the device.
2. Insert the SIM tray ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano SIM card(s) into the designated slots on the tray, ensuring proper orientation.
4. Carefully reinsert the SIM tray into the phone until it clicks into place.

Image 2.2: Side view of the vivo T4 Lite 5G, indicating the SIM card tray location.

2.3 Initial Charging

Before first use, it is recommended to fully charge your device using the provided power adapter and USB cable.

1. Connect the USB cable to the power adapter.
2. Plug the power adapter into a wall outlet.
3. Connect the other end of the USB cable to the charging port at the bottom of your phone.
4. Allow the device to charge until the battery indicator shows 100%.

2.4 Powering On and Initial Configuration

Press and hold the power button until the vivo logo appears. Follow the on-screen instructions to complete the initial setup, including language selection, network connection, and account setup.

3. Operating Your Device

3.1 Power On/Off/Restart

To power on, press and hold the power button. To power off or restart, press and hold the power button, then select the desired option from the menu that appears on the screen.

3.2 Basic Navigation

The vivo T4 Lite 5G features an AMOLED display with touch navigation. Use gestures such as tap, swipe, pinch-to-zoom, and long-press to interact with the interface and applications.

3.3 Calls and Messaging

Access the **Phone** app to make calls. Use the**Messages** app for sending and receiving SMS/MMS. Ensure your SIM card is active and has sufficient balance or plan.

3.4 Network Connectivity

Your device supports 5G cellular networks and Wi-Fi.

- **Wi-Fi:** To connect to Wi-Fi, go to**Settings > Network & internet > Wi-Fi**, select your desired network, and enter the password if required.
- **Mobile Data (5G):** Ensure your SIM card is properly installed and activated for 5G mobile data. You can enable/disable mobile data in **Settings > Network & internet > Mobile network**

3.5 Camera Usage

The vivo T4 Lite 5G is equipped with a 50MP main camera and a 2MP bokeh camera on the rear, and a 5MP front camera.

1. Open the **Camera** app from your home screen or app drawer.
2. Tap the camera icon to switch between front and rear cameras.
3. Select your desired mode (e.g., Photo, Portrait, Video).
4. Tap the shutter button to capture a photo or start/stop recording a video.

3.6 Battery Management

The 6000 mAh battery provides extended usage. To optimize battery life, adjust screen brightness, close unused applications running in the background, and enable power-saving modes available in **Settings > Battery**.

4. Device Maintenance

4.1 Cleaning Your Device

Use a soft, lint-free cloth to gently clean the screen and body of your phone. Avoid using harsh chemicals, abrasive materials, or excessive moisture, as these can damage the device.

4.2 Software Updates

Regularly check for and install software updates to ensure optimal performance, security, and access to new features. You can usually find this option in **Settings > System > System update**

4.3 Battery Care

To prolong battery lifespan, avoid exposing the device to extreme temperatures (hot or cold). Do not frequently allow the battery to fully discharge to 0%. Always use the original or certified charging accessories provided with your device.

4.4 Storage Management

Periodically review and delete unnecessary files, applications, and media to free up internal storage space. The device has 64GB of internal storage. You can manage storage in **Settings > Storage**.

5. Troubleshooting Common Issues

5.1 Device Not Turning On

Ensure the battery is sufficiently charged. Connect the charger and wait a few minutes before attempting to power on again. If the device remains unresponsive, try a forced restart (refer to the Quick Start Guide for specific button combinations for your model).

5.2 Network Connectivity Problems

Check if your SIM card is correctly inserted and activated. Verify that mobile data is enabled in your phone's settings. For Wi-Fi issues, try restarting your Wi-Fi router or forgetting and rejoining the network on your phone.

5.3 Apps Crashing or Freezing

Close and reopen the problematic application. Clear the app's cache (usually found in**Settings > Apps > [App Name] > Storage & cache**). If the issue persists, consider reinstalling the app.

5.4 Slow Performance

Close background applications that are not in use. Clear cache and temporary files regularly. If performance remains consistently slow, a factory reset might be necessary. **Warning:** A factory reset will erase all data on your device. Back up important information before proceeding.

6. Product Specifications
