3. SETUP AND ASSEMBLY

Assembly is required for this product. Clear and detailed instructions, along with numbered parts, are included in the packaging to facilitate the process. It is recommended to set aside 3-4 hours for assembly if working alone.

Assembly Tips:

- **Review Instructions:** Carefully study the provided assembly instructions and diagrams before starting.
- **Pilot Holes:** Some pilot holes for smaller wood screws may not be deep. A sharp scratch awl can be used to deepen them slightly for easier screw insertion.
- **Steel Frame Parts (e.g., Part 38):** Pay close attention to the orientation of steel frame components. Some parts may have a specific upside and downside that is not immediately obvious from diagrams. Incorrect orientation can lead to reassembly.
- **Adjustable Feet:** The desk includes adjustable legs to ensure stability on uneven surfaces. Adjust these after the

main assembly is complete.

5. MAINTENANCE

To ensure the longevity and appearance of your SEDETA Executive Desk, follow these simple maintenance guidelines:

- **Cleaning:** Wipe surfaces with a damp cloth for general cleaning. For spills or more stubborn marks, use a dry cloth immediately after wiping with a damp cloth to prevent moisture damage.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Protect Surfaces:** Use coasters for drinks and pads under hot items to prevent stains and heat damage.
- **Regular Inspection:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary.

6. TROUBLESHOOTING

This section addresses common issues you might encounter during assembly or use.

6.1 Assembly Difficulties

- **Missing or Damaged Parts:** If your desk arrives damaged, scratched, or with missing parts, please contact customer service for a free replacement or partial refund.
- **Parts Not Aligning:** Double-check the orientation of all pieces, especially steel frame parts, against the assembly diagrams. Sometimes a slight adjustment or re-orientation is needed.
- **Wobbly Desk:** Ensure all screws are fully tightened. Adjust the leveling feet at the bottom of the desk legs to compensate for uneven flooring.

6.2 Electrical Issues (Charging Station)

- **No Power:** Ensure the desk's power cord is securely plugged into a functional wall outlet and the charging station's on/off switch is in the 'on' position.
- **USB Port Power Draw:** If using multiple USB devices, especially high-power ones, simultaneously, you might experience a slight power draw issue (e.g., flickering lights). This is typically due to the total power demand exceeding the USB port's capacity. Consider using separate wall adapters for high-power devices if this occurs.
