GarveeLife 8x10 FT Outdoor Storage Shed Instruction Manual

Model: gskGV4THq5FJuPC64fouiW76B

INTRODUCTION

Thank you for choosing the GarveeLife 8x10 FT Outdoor Storage Shed. This manual provides essential information for the safe assembly, proper operation, and effective maintenance of your new storage shed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

Your safety is paramount. Adhere to the following guidelines during assembly and use:

- **Wear Protective Gear:** Always wear the included anti-cut work gloves when handling metal panels and components to prevent scratches or cuts from sharp edges.
- **Protect Against Injury:** After assembly, cover all exposed screw tips with the provided plastic protective caps to avoid accidental injuries.
- **Inspect All Components:** Before and during assembly, carefully check all accessories and parts to ensure they are present and undamaged. Do not proceed with assembly if any critical parts are missing or compromised.
- **Stable Foundation:** Ensure the shed is assembled on a level and stable surface to prevent structural instability.
- **Two-Person Assembly:** Assembly is recommended with at least two adults for safety and ease.
- **Ventilation:** The shed includes a built-in window and peak roof design for natural light and air circulation. Ensure these features are not obstructed to maintain proper ventilation and reduce moisture buildup.

PACKAGE CONTENTS

The GarveeLife 8x10 FT Outdoor Storage Shed is shipped in two separate packages. These packages may arrive on different days. Please ensure both packages have been received and all contents are accounted for before beginning assembly.

Two Box One Family

Sooner to Enjoy the shed

Image: The shed components are delivered in two distinct packages, which might arrive separately. Verify all parts from both packages before starting assembly.

Each package includes thick wooden strips wrapping around the steel panels and surface protective films on the panels to prevent damage during transit. Carefully remove all packaging materials and protective films.

SETUP AND ASSEMBLY

Detailed step-by-step instructions are provided in the separate assembly manual included with your shed. Please refer to that document for specific assembly procedures, diagrams, and hardware identification. The following are general guidelines:

1. **Site Preparation:** Choose a level, solid surface for the shed's foundation. Ensure adequate clearance around the shed for assembly and future access.
2. **Unpack and Organize:** Carefully unpack all components and organize them according to the assembly manual's parts list. This will streamline the assembly process.

3. **Base Assembly:** Construct the base frame first, ensuring it is square and level.
4. **Wall Panel Installation:** Attach the wall panels, paying attention to the correct orientation for the window and door sections.
5. **Roof Assembly:** Install the roof panels, ensuring proper alignment for water drainage. The peak roof design is engineered for natural drainage of rainwater and leaves.
6. **Door and Window Installation:** Mount the lockable doors and secure the window.
7. **Final Checks:** Tighten all fasteners and ensure the shed is stable and secure. Apply plastic protective caps to all exposed screw tips.

OPERATING INSTRUCTIONS

The GarveeLife storage shed is designed for versatile outdoor storage. Here's how to operate its key features:

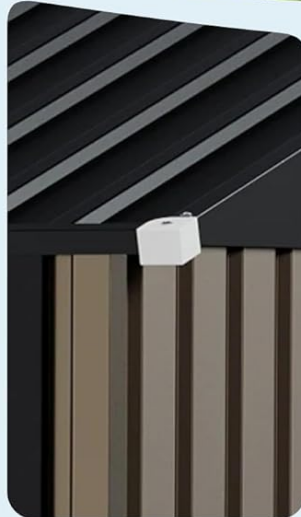

- **Lockable Doors:** The shed features lockable doors with a reinforced steel latch. Use a padlock (not included) to secure your stored items and deter theft.
- **Window Functionality:** The built-in window allows natural light into the interior, reducing the need for artificial lighting during the day. It also aids in air circulation.
- **Ventilation:** The peak roof design and window promote air circulation, which helps reduce moisture buildup inside the shed, keeping stored items dry and fresh.
- **Storage Capacity:** With approximately 450 cubic feet of storage space, the shed can accommodate large items. Consider adding optional wall hooks or shelves (not included) to organize smaller tools and items efficiently.

MAINTENANCE

Regular maintenance will extend the lifespan and preserve the appearance of your GarveeLife storage shed.

- **Cleaning:** Periodically clean the exterior surfaces with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the anti-corrosion paint.
- **Rust Prevention:** The shed is constructed with galvanized steel and treated with electro-galvanizing and anti-corrosion paint for rust resistance. However, inspect for any scratches or damage to the coating and touch up as needed to prevent rust.
- **Drainage:** Ensure the peak roof remains clear of accumulated leaves, snow, or debris to allow for proper water drainage.
- **Door and Hinge Check:** Lubricate door hinges annually if they become stiff. Check that the doors close and latch securely.
- **Fastener Inspection:** Periodically check all screws and bolts for tightness, especially after extreme weather conditions. Tighten any loose fasteners.

TROUBLESHOOTING

If you encounter issues with your shed, refer to the following common solutions:

- **Doors do not close properly:**

- Check if the shed is on a level surface. Uneven ground can cause the frame to twist.
- Inspect hinges for damage or misalignment.
- Ensure all frame bolts are tightened evenly.

- **Water accumulation inside:**

- Verify that the roof panels are correctly overlapped and sealed according to the assembly manual.
- Ensure the shed is on a raised, well-drained foundation.
- Check for any obstructions on the roof preventing proper drainage.

• **Excessive moisture/condensation:**

- Ensure the window and roof vents (if applicable) are clear and allowing air circulation.
- Avoid storing wet items inside the shed.
- Consider using moisture absorbers if the problem persists in humid climates.

For issues not covered here, please contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	GarveeLife
Model Number	gskGV4THq5FJuPC64fouiw76B
Product Dimensions (D x W x H)	118.5" x 93.7" x 76.38" (approx. 10x8 FT)
Storage Capacity	450 Cubic Feet
Item Weight	100 Pounds
Color	Brown
Frame Material	Galvanized Steel
Top Material Type	Metal
Water Resistance Level	Water Resistant
Door Style	Single Hinged, Lockable
Assembly Required	Yes
UPC	820567235079
