6. MAINTENANCE

- **Cleaning:** To clean the blocks, wipe them with a damp cloth. Avoid using harsh chemicals or abrasive cleaners. Ensure blocks are completely dry before storage.
- **Storage:** Store the building blocks in a cool, dry place away from direct sunlight. Keep them in their original box or a designated storage container to prevent loss of pieces.
- **Inspection:** Periodically inspect blocks for any damage or wear. Discard any broken pieces to ensure safety.

7. TROUBLESHOOTING

- **Missing Pieces:** If you believe pieces are missing, double-check the packaging and your workspace. Small pieces can sometimes be overlooked.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly before applying pressure. If a block is particularly stiff, try wiggling it gently while pressing. Avoid excessive force to prevent damage.
- **Model Instability:** Review the building steps in the included instruction manual to ensure all connections are made correctly and securely. Loose connections can lead to unstable models.
