## ASSEMBLY INSTRUCTIONS

---

Assembly is required and all necessary tools are included. Minimum door width for entry is 21 inches.

1. **Unpack Components:** Carefully remove all parts from their packaging. Ensure all protective materials are removed.
2. **Assemble Chair Seats:** For each power reclining seat, attach the backrest to the seat base. Align the metal brackets on the backrest with the receivers on the seat base and slide down until they click securely into place.
3. **Attach Armrests:** Secure the armrests to the sides of each assembled chair seat. Ensure they are firmly attached.
4. **Connect Seats:** Position the assembled chair seats next to each other. Use the pre-installed brackets on the sides of the seats to interlock them, forming the loveseat. Push firmly until they connect.
5. **Connect Power Cables:** Locate the pre-installed power cables extending from each reclining unit. Connect these cables to the power adapter, then plug the adapter into a standard electrical outlet.

The fully assembled CHITA Genuine Leather Power Reclining Loveseat.

## OPERATING INSTRUCTIONS

---

### Power Reclining Functions

Your CHITA loveseat features dual motors for independent control of the backrest and footrest, along with an adjustable power headrest. The control buttons are located on the side of each reclining seat.

- **Recline/Upright:** Use the primary buttons to recline the backrest and extend the footrest. Hold the button to adjust to your desired position.
- **Power Headrest:** Use the dedicated headrest button to adjust the angle of the headrest for optimal neck support and viewing comfort.
- **Super Zero-Gravity Mode:** This mode elevates the footrest to approximately 27.6 inches, positioning your feet above your heart to alleviate spinal pressure and promote circulation. Activate this mode by fully reclining to 140 degrees.

**Durable & Certified  
Foam**

**U.S. Environmental  
Protection Agency**

**Fabrics Safe for Skin  
Contact**

The dual motor system allows for multiple recline positions, including the Super Zero-Gravity mode.

## TROUBLESHOOTING

---

If you encounter any issues with your CHITA Power Reclining Loveseat, please review the following common solutions:

- **Recliner Not Operating:** Ensure the power cord is securely plugged into both the recliner and the wall outlet. Check if the wall outlet is functional by plugging in another device.
- **Uneven Recline:** Verify that all assembly connections are secure and that no foreign objects are obstructing the reclining mechanism.
- **Noise During Operation:** A slight operational sound is normal for motorized recliners. If the noise is excessive or unusual, ensure all bolts and connections are tight.

For persistent issues, please contact CHITA customer support.
