Setup

1. Battery Installation

The device requires 4 AAA batteries for operation. A button battery is also included for backup, preserving settings during AAA battery changes. Ensure batteries are inserted with correct polarity.

2. App Download and Bluetooth Pairing

1. Download the 'Pillcalendar' app from your smartphone's app store.
2. Enable Bluetooth on your smartphone.
3. Open the 'Pillcalendar' app and follow the on-screen instructions to pair with your Betife Automatic Pill Dispenser.

3. Loading Medication

1. Unlock the dispenser using one of the provided keys.
2. Carefully open the transparent lid.
3. Place your medication into the 28 individual compartments. Ensure each compartment corresponds to your desired dosage schedule.
4. Select and place the appropriate dose ring (e.g., 1x per day, 2x per day) onto the dispenser to visually indicate the schedule.
5. Close the lid and secure it with the key.

4. Setting Alarms

Alarms can be set via the 'Pillcalendar' app or directly on the device.

Via App:

- Open the 'Pillcalendar' app.
- Navigate to the alarm settings.
- Set up to 6 daily alarms, customize medication names, and upload pill images for visual reminders.
- The app will send push notifications to your phone at scheduled times.

On-Device:

- Use the physical buttons (+, -, OK) on the device to adjust time, volume, and alarm settings directly on the LCD screen.
- The LCD screen displays 8 intuitive icons for status checks.

Operating Instructions

1. Dispensing Medication

When an alarm sounds and the light flashes:

1. Unlock the pill door using the key or fingerprint (if applicable).
2. Gently tip the unit to dispense the pills from the open compartment.
3. Confirm dosage in the 'Pillcalendar' app to log adherence.

2. Medication Tracking

The 'Pillcalendar' app provides a comprehensive medication log:

- View weekly or monthly statistics on total alarms, doses taken, and missed doses.
- This feature helps monitor adherence and can be shared with healthcare providers.

3. Child Safety Lock

The dispenser features a secure timed lock box to prevent unauthorized access.

- It incorporates advanced fingerprint unlocking technology (if equipped) and a mechanical lock as a backup.
- Always ensure the dispenser is locked after loading or dispensing medication.

Maintenance

1. Cleaning

To clean your pill dispenser, wipe the exterior with a soft, damp cloth. Do not submerge the device in water or use harsh chemical cleaners. Ensure the device is completely dry before reloading medication.

2. Battery Replacement

When the main AAA batteries are low, the device will indicate this on the LCD screen. Replace all 4 AAA batteries simultaneously. The internal button battery will preserve your settings during this process.

Troubleshooting

- **Device not powering on:** Check if the AAA batteries are correctly installed and fully charged. Replace if necessary.
- **Bluetooth connectivity issues:** Ensure Bluetooth is enabled on your phone and the dispenser is within range. Restart both the app and the dispenser if problems persist.
- **Alarms not sounding:** Verify alarm settings in the app or on the device. Check the volume level. Ensure the device is not in silent mode.
- **Pills not dispensing:** Ensure the dispenser is unlocked and the correct compartment is aligned for dispensing. Check for any obstructions.
- **App not tracking doses:** Make sure you confirm each dose in the app after taking medication. Ensure the app is updated to the latest version.

Specifications

Item Model Number	Betife Automatic Pill Dispenser 01
