SETUP INSTRUCTIONS

The Trio 3 monitor is designed for quick and effortless setup. Follow these steps to begin using your portable monitor:

1. **Attach the Monitor:** Use the four provided laptop magnets to securely attach the Trio 3 monitor to the back of your laptop screen. Alternatively, utilize the built-in kickstand for a freestanding setup.

OPERATING THE MONITOR

The Trio 3 monitor offers various display modes to suit different work scenarios and enhance your productivity.

Display Modes

- **Landscape Mode:** The standard horizontal display for general tasks, spreadsheets, and multi-window work.
- **Portrait Mode:** Rotate the screens vertically for reading documents, coding, or viewing long web pages.
- **Collaboration Mode:** Flip one or both screens to face colleagues for easy sharing during meetings.
- **Presentation Mode:** Position the monitor to face an audience for presentations.
- **Three Screen Mode:** Utilize both portable monitors alongside your laptop screen for maximum workspace.
- **Eyecare Mode:** Adjust display settings to reduce blue light and eye strain during prolonged use.

Connectivity and Power

The Trio 3 features dual USB-C ports. One port is used for connecting to your laptop for video and power. The second USB-C port supports 65W pass-through charging, allowing you to power your laptop through the monitor, reducing cable clutter. Ensure your laptop's USB-C port supports DisplayPort Alternate Mode for video output.

MAINTENANCE

To ensure the longevity and optimal performance of your Trio 3 monitor, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to gently wipe the screen and exterior surfaces. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Storage:** When not in use, fold the monitors securely and store them in a protective sleeve or bag to prevent scratches and damage.
- **Handling:** Handle the monitor with care. Avoid dropping it or applying excessive force to the screens or hinges.

- **Cable Management:** Keep cables organized and free from kinks or sharp bends to prevent damage.

TROUBLESHOOTING

If you encounter issues with your Trio 3 monitor, refer to the following common solutions:

Problem	Possible Solution
No Display / Black Screen	- Ensure the USB-C cable is securely connected to both the monitor and your laptop. - Verify your laptop's USB-C port supports DisplayPort Alternate Mode. - Check your laptop's display settings to ensure the external monitor is detected and enabled. - Try a different USB-C port on your laptop, if available. - Restart your laptop.
Flickering Screen	- Ensure the cable is not damaged and is securely connected. - Reduce the display resolution or refresh rate in your laptop's display settings. - Ensure your laptop's graphics drivers are up to date.
Monitor Not Receiving Power	- Confirm the USB-C cable is connected to a power-delivery enabled port on your laptop or an external power source if needed. - If using pass-through charging, ensure the power adapter is connected to the monitor's second USB-C port.
Incorrect Display Orientation	Adjust the display orientation in your operating system's display settings (e.g., Windows Display Settings or macOS System Settings > Displays).

If these solutions do not resolve the issue, please contact customer support for further assistance.
