KU XIU X55 Turbo

KU XIU X55 Turbo Qi2.2 25W Magnetic Wireless Charger

Model: X55 Turbo

INTRODUCTION

The KU XIU X55 Turbo is a foldable 3-in-1 magnetic wireless charging station designed to simultaneously charge your compatible iPhone, Apple Watch, and AirPods. It features Qi2.2 technology for fast wireless charging, a compact design for portability, and magnetic alignment for secure device placement. This manual provides instructions for setting up, operating, and maintaining your charging station.

PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x KU XIU X55 Turbo 3-in-1 Charging Station
- 1 x 45W USB-C PD Adapter
- 1 x 3.28ft (1m) USB-C Cable
- 1 x Storage Bag
- 1 x User Manual (this document)

Package Includes

Ready to Use Out of the Box: Includes X55 Turbo 3-in-1 Charging Station, 45W USB-C PD Adapter, 3.28ft/1M USB-C Cable, Storage Bag, User Manual.

SETUP INSTRUCTIONS

- 1. Unpack the Charger:** Carefully remove the KU XIU X55 Turbo charging station and all accessories from its packaging.
- 2. Unfold the Charging Station:** The charging station is designed to be foldable. Gently unfold it to its upright position, ensuring all charging surfaces are accessible. The phone charging pad can be adjusted to various angles for optimal viewing.
- 3. Connect the Power Adapter:** Insert the provided USB-C cable into the USB-C port on the charging

station. Connect the other end of the USB-C cable to the included 45W USB-C PD adapter.

4. **Plug into Power:** Plug the 45W USB-C PD adapter into a wall outlet. The charging station is now ready for use.

OPERATING INSTRUCTIONS

Charging Your iPhone (or compatible smartphone)

- Place your iPhone (or other compatible magnetic wireless charging smartphone) onto the upright magnetic charging pad.

- Ensure the phone aligns magnetically with the charging coil. A charging indicator will typically appear on your device's screen.
- For optimal charging, it is recommended to use the phone without a case, or with a magnetic/MagSafe compatible case.

Charging Your Apple Watch

- Place your Apple Watch onto the dedicated Apple Watch charging puck.
- Ensure the back of the watch makes full contact with the charging surface. The watch display will indicate charging status.

Charging Your AirPods (or compatible wireless earbuds)

- Place your AirPods charging case (or other compatible wireless charging earbud case) onto the flat charging pad at the base of the station.
- Ensure the case is centered on the charging pad. The indicator light on your AirPods case will show charging status.

MAINTENANCE

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry, lint-free cloth to wipe the surfaces of the charging station. Do not use abrasive cleaners, solvents, or aerosol sprays.
- **Storage:** When not in use, especially during travel, fold the charging station into its compact form and store it in the provided storage bag to protect it from dust and scratches.
- **Handling:** Avoid dropping the device or exposing it to extreme temperatures or humidity. Do not attempt to disassemble or repair the unit yourself.

TROUBLESHOOTING

- **Device Not Charging:**

- Ensure the charging station is properly connected to the 45W power adapter and plugged into a working wall outlet.
- Verify that your device is correctly aligned on the charging pad. Magnetic alignment is crucial for iPhones.
- Remove any thick or non-MagSafe compatible cases from your phone.
- Check if your device is compatible with wireless charging.
- Try restarting your device.

- **Slow Charging:**

- Ensure you are using the included 45W power adapter and USB-C cable. Using a lower wattage adapter may result in slower charging speeds.
- Confirm your device supports the higher charging speeds (e.g., Qi2.2 25W for iPhone 17/16 series). Older devices or non-compatible cases may limit charging speed.
- Avoid placing metal objects or foreign materials between your device and the charging pad.

- **Magnetic Alignment Issues:**

- Ensure your iPhone has MagSafe technology or is using a MagSafe compatible case.
- Clean the magnetic surface of both the charger and your device/case to ensure no obstructions.

SPECIFICATIONS

Brand	KU XIU
Model Number	X55 Turbo
Connector Type	USB Type C
Input Voltage	9 Volts
Wattage (Adapter)	45 Watts
Output Current	3 Amps
Output Voltage	3 Volts
Phone Charging Output	Up to 25W (Qi2.2)
