SETUP

1. Initial Charging

Before first use, fully charge your smartwatch. Connect the USB magnetic charging cable to a power source and attach the magnetic end to the charging points on the back of the watch. The watch will power on automatically and display the charging status.

Your browser does not support the video tag.

2. App Installation

To unlock the full potential of your SOUYIE H67, download the companion app. Scan the QR code provided in the user manual or on the watch screen during setup, or search for "FitCloudPro" in your smartphone's app store (compatible with iOS 9.0+ and Android 4.4+).

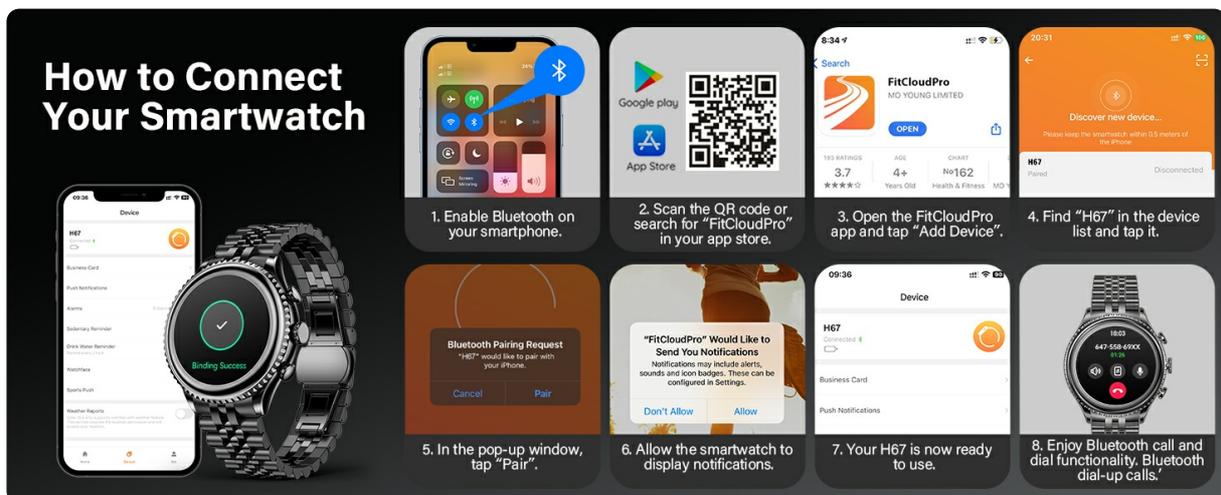

Image: Instructions on how to connect the smartwatch to the FitCloudPro app for Bluetooth calling and other features.

3. Device Pairing

Open the FitCloudPro app and follow the on-screen instructions to add your device. Ensure Bluetooth is enabled on your smartphone. Select the SOUYIE H67 (often identified by its model name or a unique ID like "H67") from the list of available devices. Confirm the pairing request on both your phone and watch.

4. Adjusting the Metal Strap

If your watch comes with a metal strap, use the included metal strap adjustment tool to remove or add links for a comfortable fit. Refer to the tool's instructions for proper use.

OPERATING INSTRUCTIONS

1. Navigation

The SOUYIE H67 features a 1.32" HD AMOLED touchscreen, a rotating knurled bezel, and an encoder knob for intuitive navigation:

- **Touchscreen:** Swipe left/right, up/down to navigate menus and access features. Tap to select.
- **Rotating Bezel:** Rotate the knurled bezel to quickly switch watch faces, scroll through menus, or adjust settings.
- **Encoder Knob:** Use the rotary encoder knob for seamless menu navigation and scrolling, offering ultra-smooth operation.

2. Watch Face Customization

Personalize your watch face:

- **On-Watch:** Long-press the current watch face and swipe left/right to browse preloaded options.
- **FitCloudPro App:** Access over 200 customizable watch faces or upload your own photos (family, pets) to create unique designs.
- **Always-On Display (AOD):** Choose between digital and analog AOD options to check the time without waking the screen.

Image: A variety of watch faces available for customization through the FitCloudPro app.

3. Bluetooth Calling & Notifications

Stay connected directly from your wrist:

- **Making Calls:** Use the dial pad or contacts synced from your phone to initiate calls.
- **Answering Calls:** Accept incoming calls directly on your watch using the built-in microphone and high-fidelity speaker.
- **Notifications:** Receive real-time alerts for SMS, Facebook, WhatsApp, Twitter, Instagram, Messenger, and more. Manage notification settings via the FitCloudPro app.

4. Voice Assistant

Access your AI voice assistant for hands-free control. Use voice commands for navigation, weather updates, calls, and setting alarms.

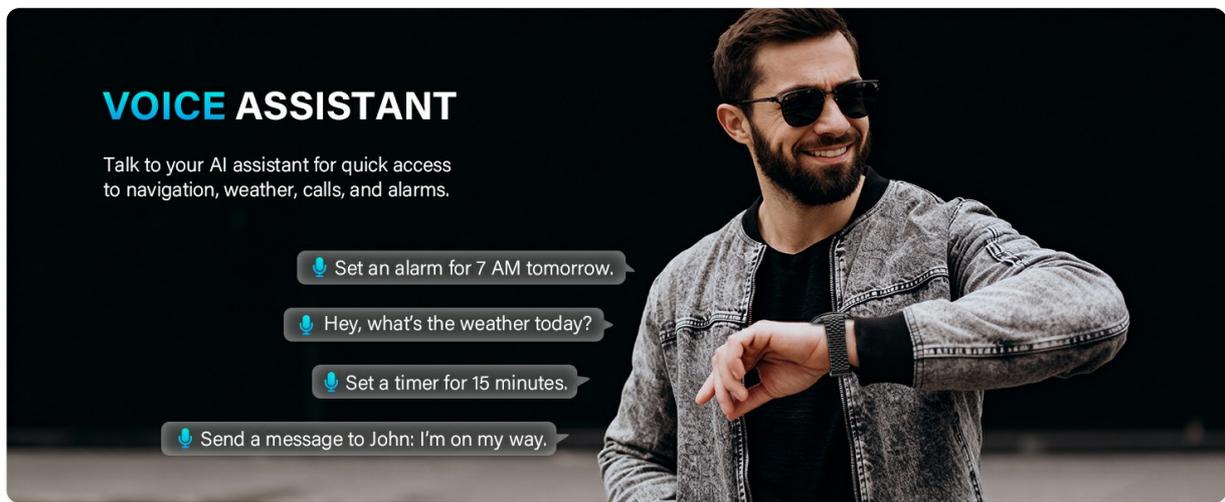

Image: Examples of voice commands for the AI assistant on the smartwatch, such as setting alarms or asking for weather.

5. Music Control

Control music playback on your smartphone directly from your watch. Play, pause, skip tracks, and adjust volume without needing to take out your phone.

6. Flashlight

Activate the flashlight feature to illuminate dark spaces. The screen converts to white to provide a bright light source.

HEALTH MONITORING

The SOUYIE H67 is equipped with precise sensors for comprehensive health tracking:

- **Heart Rate:** Monitors your heart rate 24/7.
- **Blood Pressure:** Tracks your blood pressure levels.
- **Blood Oxygen (SpO2):** Measures your blood oxygen saturation.
- **Sleep Tracking:** Monitors deep, light, and awake sleep stages, generating sleep quality scores.
- **Health Reminders:** Set reminders to move or drink water to maintain your well-being.

Note: This device is not a medical device. Data is for reference only and should not be used for medical diagnosis.

SPORTS MODES

The SOUYIE H67 offers over 100 sports modes to track your physical activities:

- Includes modes for cycling, running, basketball, football, climbing, yoga, and more.
- Track real-time data such as heart rate, distance, speed, and calories burned to optimize your performance.
- **Water Resistance:** With IP68 dust and sweat resistance, the watch can handle handwashing and rainy workouts. It is not suitable for swimming or sauna use.

BATTERY LIFE & CHARGING

The SOUYIE H67 is designed for extended use:

- **Battery Capacity:** 300mAh high-capacity battery.
- **Usage Duration:** 7–10 days of regular use.
- **Standby Time:** Up to 30 days.
- **Charging:** Magnetic fast charging, fully powers up in just 2 hours.

MAINTENANCE

To ensure the longevity and optimal performance of your SOUYIE H67 Smart Watch, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the watch screen and strap with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth and dry thoroughly.
- **Avoid Chemicals:** Do not use harsh chemicals, cleaning solvents, or strong detergents, as they may damage the watch's finish or internal components.
- **Water Exposure:** While IP68 rated for dust and sweat resistance, avoid prolonged submersion in water, hot water, or exposure to steam (e.g., in saunas or hot showers).
- **Temperature:** Store and operate the watch within recommended temperature ranges. Extreme temperatures can affect battery life and functionality.
- **Impact:** Avoid dropping the watch or subjecting it to strong impacts, which can damage the screen or internal circuitry.

TROUBLESHOOTING

If you encounter issues with your SOUYIE H67 Smart Watch, try the following solutions:

- **Watch Not Turning On:** Ensure the watch is fully charged. Connect it to the magnetic charger and wait a few minutes.
- **Pairing Issues:** Make sure Bluetooth is enabled on your smartphone and the watch is within range. Restart both your phone and watch, then try pairing again through the FitCloudPro app.
- **Notifications Not Received:** Check notification permissions for the FitCloudPro app in your phone's settings. Ensure the app is running in the background and not being restricted by battery optimization settings.
- **Inaccurate Health Data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors on the back of the watch. Remember, data is for reference only.
- **Short Battery Life:** Reduce screen brightness, disable unnecessary notifications, or limit continuous heart rate monitoring. Ensure the watch is fully charged each time.
- **App Freezing/Crashing:** Close and restart the FitCloudPro app. Ensure your app and watch firmware are updated to the latest versions.

For further assistance, refer to the "Warranty & Support" section.
