## Inexaccessories B0GF7GPCFS

# Inexaccessories 14.5 Inch 2K IPS Touch Screen Car Stereo User Manual

Model: B0GF7GPCFS for Chevrolet Camaro (2010-2015)

Brand: Inexaccessories

## 1. INTRODUCTION

Thank you for choosing the Inexaccessories 14.5 Inch 2K IPS Touch Screen Car Stereo. This advanced car radio is designed to upgrade your Chevrolet Camaro (2010-2015) with modern features including Android 13, an 8-core processor, wireless/wired CarPlay, Android Auto, GPS navigation, WiFi, Bluetooth, and FM radio. This manual provides essential information for installation, operation, maintenance, and troubleshooting to ensure optimal performance and a safe driving experience.

## 2. SAFETY INFORMATION

- Read all instructions carefully before installation and use.
- Professional installation is recommended to prevent damage to the unit or vehicle.
- Do not operate the device in a way that distracts you from driving. Always prioritize road safety.
- Ensure all wiring is correctly connected to avoid short circuits or electrical hazards.
- Keep the unit away from water and excessive heat.

## 3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 14.5 Inch Car Stereo Unit
- Power Cable
- RCA Cable
- USB Cables (multiple)
- Radio Cable
- GPS Antenna
- Reversing Input Cable
- External Speakers (if included)
- AUX IN Cable
- OEM CAM Cable

- Backup Camera
- Microphone

## 5. SETUP AND INSTALLATION

This car stereo is specifically designed for Chevrolet Chevy Camaro models from 2010 to 2015. Ensure your vehicle is compatible before proceeding with installation.

Image: Car Radio for 2010-2015 Chevrolet Camaro - Demonstrates fitment in the specified vehicle models.

### 5.1 Pre-Installation Checklist

1. Disconnect the vehicle's battery to prevent electrical damage.
2. Gather all necessary tools (screwdrivers, wire strippers, electrical tape, etc.).
3. Review your vehicle's specific dashboard disassembly instructions.

### 5.2 Basic Installation Steps (General)

1. Carefully remove the existing car stereo and dashboard trim.
2. Connect the provided power cable, RCA cable, and other necessary wiring harnesses to the new stereo and the vehicle's existing connections.
3. Install the GPS antenna in a location with a clear view of the sky (e.g., on the dashboard).
4. If installing a backup camera, route the camera cable to the rear of the vehicle and connect it to the reversing input.
5. Secure the new car stereo unit into the dashboard opening.

6. Reconnect the vehicle's battery and test all functions before fully reassembling the dashboard.

## 6. OPERATING INSTRUCTIONS

### 6.1 Wireless/Wired CarPlay & Android Auto

This stereo supports both wireless and wired CarPlay and Android Auto. Connect your smartphone to access navigation, music, calls, and voice control features directly on the car stereo screen.

- **Wireless Connection:** Enable Bluetooth and Wi-Fi on your smartphone. Pair your phone with the car stereo via Bluetooth. Follow the on-screen prompts to initiate CarPlay or Android Auto.
- **Wired Connection:** Connect your smartphone to the stereo's USB port using a compatible USB cable. The system should automatically detect and launch CarPlay or Android Auto.

Image: CarPlay and Android Auto - Demonstrates smartphone integration and voice control.

### 6.2 GPS Navigation

The unit supports both online and offline GPS navigation. Pre-installed offline maps are available, and you can download additional maps or use online navigation services like Google Maps via a WiFi connection.

- **Online Navigation:** Connect the stereo to a WiFi hotspot (e.g., from your smartphone) to use real-time traffic data and online map services.
- **Offline Navigation:** Access pre-loaded maps or downloaded maps without an internet connection.

Image: GPS Navigation - Illustrates the navigation interface and supported map applications.

### 6.3 WiFi Connection

Connect the car stereo to a WiFi network to access online features, download apps, stream music, and watch videos.

- Go to Settings > Network & Internet > Wi-Fi.
- Select your desired Wi-Fi network and enter the password if required.
- Once connected, you can use apps like Spotify, YouTube, and Netflix.

Image: WiFi Connection - Shows the stereo connected to WiFi, enabling access to online content.

### 6.4 Bluetooth & Hands-free Calling

Pair your smartphone via Bluetooth for hands-free calling and wireless audio streaming.

- Enable Bluetooth on your phone and the car stereo.
- Search for available devices on the stereo and select your phone.
- Confirm the pairing code on both devices.
- Once paired, you can make/receive calls and play music wirelessly.

Image: Voice Control & Bluetooth 5.2 - Illustrates hands-free calling and voice command capabilities.

### 6.5 Steering Wheel Control

The unit supports integration with your vehicle's existing steering wheel controls for convenient operation of audio and

other functions.

- After installation, navigate to the steering wheel control settings in the stereo's menu.
- Follow the on-screen instructions to map your steering wheel buttons to the desired functions (e.g., volume up/down, track skip, call answer/end).

Image: Steering Wheel Control - Shows how steering wheel buttons can control the stereo.

## 6.6 Backup Camera

The included waterproof night vision backup camera provides clear reversing images, enhancing parking safety.

- When the vehicle is shifted into reverse gear, the stereo will automatically display the backup camera feed.
- The camera features a 170-degree wide view and high definition for improved visibility.

Image: Backup Camera - Depicts the functionality and features of the reversing camera.

## 7. MAINTENANCE

- **Screen Cleaning:** Use a soft, lint-free cloth to clean the touch screen. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for software updates to ensure optimal performance and access to new features. Updates can usually be found in the system settings or on the manufacturer's website.
- **General Care:** Keep the unit free from dust and debris. Ensure proper ventilation around the unit to prevent overheating.

## 8. TROUBLESHOOTING

If you encounter issues, refer to the following common problems and solutions:

| Problem                               | Possible Cause                                                | Solution                                                                                                      |
|---------------------------------------|---------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
| Unit does not power on                | Incorrect wiring, blown fuse, vehicle battery issue           | Check power connections, inspect fuses, verify vehicle battery charge.                                        |
| No sound                              | Speaker wiring issues, volume too low, incorrect audio source | Check speaker connections, adjust volume, select correct audio input.                                         |
| CarPlay/Android Auto not connecting   | Bluetooth/WiFi off, cable issue, software glitch              | Ensure Bluetooth/WiFi is enabled, try a different USB cable, restart the stereo unit.                         |
| Poor microphone quality / audio delay | Microphone placement, software settings, hardware issue       | Ensure microphone is clear and properly positioned. Check audio settings. If issues persist, contact support. |
| Steering wheel controls not working   | Incorrect wiring, unconfigured settings                       | Verify wiring connections for steering wheel control. Reconfigure buttons in the stereo settings.             |
| GPS signal loss or inaccuracy         | GPS antenna placement, environmental interference             | Ensure GPS antenna has a clear view of the sky. Avoid placing near metal objects.                             |

If the problem persists after trying these solutions, please contact customer support.

## 9. SPECIFICATIONS

| Feature               | Specification                      |
|-----------------------|------------------------------------|
| Brand                 | Inexaccessories                    |
| Screen Size           | 14.5 Inches                        |
| Resolution            | 1920 x 1200 (2K QHD)               |
| Operating System      | Android 13                         |
| Processor             | 8-core Qualcomm                    |
| Memory (RAM)          | 8 GB                               |
| Storage (ROM)         | 128 GB                             |
| Connectivity          | USB, WiFi, Bluetooth, GPS          |
| Special Features      | CarPlay, Android Auto, Mirror Link |
