SOLIDEE 42-inch Bathroom Vanity Cabinet with Removable Laundry Hamper and Black Ceramic Sink

Model: BA20701

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your SOLIDEE 42-inch Bathroom Vanity Cabinet. Please read all instructions carefully before beginning assembly and retain this manual for future reference. This vanity cabinet is designed for bathroom use and includes a removable laundry hamper and a black ceramic sink.

SETUP AND ASSEMBLY

The SOLIDEE Bathroom Vanity Cabinet requires self-assembly. It is shipped in two separate packages, which may arrive at different times. Please ensure you have received both packages and all components before starting assembly.

Package Contents:

- **Package 1:** Main cabinet, all necessary hardware, and the installation manual.
- **Package 2:** Vessel sink, faucet, pop-up drain, hot/cold lines, and additional hardware.

Assembly Instructions:

1. **Unpack and Inspect:** Carefully unpack all components from both boxes. Verify that all parts are present and undamaged

against the provided parts list in the installation manual.

2. **Prepare Workspace:** Clear a spacious, clean, and level area for assembly.
3. **Assemble Cabinet Frame:** Follow the step-by-step instructions in the included installation manual to assemble the MDF wood cabinet frame. Ensure all connections are secure.
4. **Install Hardware:** Attach the zinc alloy handles and 304 stainless steel hinges to the cabinet doors and drawers as per the manual.
5. **Install Sink and Faucet:** Place the black ceramic vessel sink onto the cabinet top. Install the faucet, pop-up drain, and connect the hot/cold lines according to the plumbing instructions. It is recommended to have a qualified plumber perform plumbing connections if you are not experienced.
6. **Integrate Laundry Hamper:** Insert the foldable laundry basket into its designated tilt-out compartment.
7. **Final Placement:** Position the assembled vanity cabinet in its desired location. The rust-proof alloy leg pads provide stability and durability.

OPERATING INSTRUCTIONS

Removable Laundry Hamper:

The vanity features a tilt-out cabinet designed to house a foldable laundry basket. This hidden compartment helps to conceal dirty clothes and minimize odors, contributing to a fresher bathroom environment. The basket includes a handle for easy removal and transport.

Upgraded storage design provides more storage space

Soft Close Doors:

The cabinet doors are equipped with soft-close hinges. This feature ensures that the doors close gently and quietly, preventing slamming and reducing wear and tear over time. To operate, simply push the door gently, and it will close smoothly on its own.

MAINTENANCE AND CARE

Cabinet Care (MDF Wood):

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner specifically designed for wood finishes.
- **Avoid Moisture:** Promptly wipe up any spills to prevent water damage to the MDF wood. Avoid excessive moisture or prolonged exposure to humidity.
- **Chemicals:** Do not use harsh chemicals, abrasive cleaners, or scouring pads, as these can damage the finish.

Sink Care (Black Ceramic):

- **Cleaning:** Clean the ceramic sink with a soft cloth or sponge and a non-abrasive bathroom cleaner. Rinse thoroughly with water after cleaning.
- **Stains:** For tough stains, a paste of baking soda and water can be used, followed by a thorough rinse.
- **Avoid Damage:** Do not use abrasive powders, steel wool, or harsh chemical cleaners (e.g., bleach, acid-based cleaners) as they can scratch or discolor the ceramic surface.

Faucet and Drain Care:

- **Cleaning:** Wipe the faucet and drain with a soft, damp cloth. Use a mild soap solution if necessary, then rinse and dry immediately to prevent water spots.

- **Avoid Abrasives:** Do not use abrasive cleaners, polishes, or waxes on the faucet finish.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Parts missing or damaged upon arrival	Shipping damage or packaging error.	Contact customer support immediately with your order details and a description of the issue.
Difficulty during assembly	Incorrect step sequence, misaligned parts, or unclear instructions.	Review the installation manual carefully. Ensure parts are oriented correctly. Do not force components. If issues persist, contact support.
Water leaks from sink or faucet connections	Loose plumbing connections, improper sealing, or damaged components.	Check all plumbing connections for tightness. Ensure plumber's tape or sealant was applied correctly. If necessary, consult a qualified plumber.
Cabinet doors do not close smoothly or are misaligned	Hinges not properly adjusted or installed.	Refer to the installation manual for hinge adjustment instructions. Most soft-close hinges allow for minor adjustments to door alignment.
