AngelSense B0GF837RJT

AngelSense Safety Monitor GPS Tracker User Manual

Model: B0GF837RJT

1. INTRODUCTION

The AngelSense Safety Monitor is an advanced GPS tracking device designed to enhance the safety and independence of individuals with special needs, including those with autism, dementia, and other cognitive challenges. This device offers continuous real-time location monitoring, proactive safety alerts, and two-way voice communication features to provide peace of mind for caregivers.

Key features include:

- **1-Year Service Included:** This bundle provides a full 12-month AngelSense service plan, ensuring continuous access to all safety and monitoring features without additional monthly payments during the first year.
- **Advanced Real-Time GPS Tracking:** Monitor your loved one's location with continuous live GPS mapping, detailed daily routes, and location history via the AngelSense app (iOS, Android, PC).
- **Proactive Safety Alerts & Smart Notifications:** Receive alerts for unexpected departures, unfamiliar locations, late arrivals, and other potential safety issues. AI-powered monitoring helps detect and respond to concerns.
- **Voice Communication & Emergency Features:** Utilize the built-in auto-answer speakerphone, SOS button, Runner Mode, and First Responder Alerts for quick communication and emergency response.
- **Designed for Comfort & Daily Wear:** The small, durable GPS device comes with sensory-friendly wearing options and non-removable accessories, secured with a special magnetic key for caregivers.

2. SETUP GUIDE

2.1. What's in the Box

Upon unboxing your AngelSense Safety Monitor, you should find the following components:

- AngelSense GPS Device + SIM Card
- Sensory Sensitive Wearing Sleeve
- 3 Non-Removable Fasteners to lock the sleeve
- Magnetic Key for removing the fasteners
- USB Cable
- User Manual (this document)

2.2. Initial Charging

1. Connect the provided USB cable to the AngelSense device and a power source (e.g., wall adapter, computer USB port).
2. Allow the device to charge fully before first use. The LED indicator on the device will show charging status.

2.3. App Download and Activation

1. Download the AngelSense app from the Apple App Store (for iOS devices) or Google Play Store (for Android devices). The app is also accessible via PC.
2. Follow the on-screen instructions within the app to create an account and activate your AngelSense

device. You will need the device ID, typically found on the packaging or the device itself.

3. Ensure your device has an active service plan. This specific bundle includes 1 year of service.

3. OPERATING INSTRUCTIONS

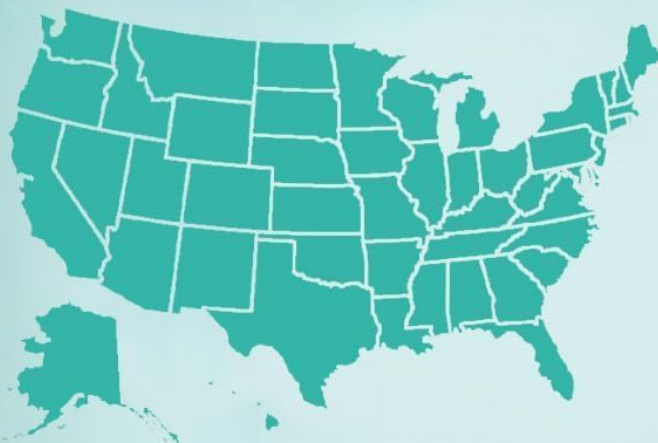

3.1. Real-Time GPS Tracking

The AngelSense device provides continuous, real-time location updates. Access these features through the AngelSense app:

- **Live GPS Mapping:** View your loved one's current location on a map.
- **Daily Routes & Location History:** Review past routes and locations, including transit speeds and stops.
- **Geofencing:** Set up custom safe zones (e.g., home, school, therapy) to receive alerts when the device enters or exits these areas.

Real-Time Tracking Anytime, Anywhere

NATIONWIDE
4G LTE COVERAGE

Stay connected to your loved one everywhere
with **GPS, Wi-Fi, Bluetooth, and Cellular.**

3.2. Proactive Safety Alerts & Smart Notifications

The AI-powered system learns routines and sends alerts for unusual activity:

- **Arrival & Departure Alerts:** Get notified when your loved one arrives at or departs from designated safe zones.
- **Unfamiliar & Unexpected Places Alerts:** Receive immediate notifications if the device is detected in an unknown or unexpected location.
- **Late Arrival/Departure Alerts:** Be informed of any deviations from scheduled routines.
- **Pickup, Drop-off & Transit Movement Alerts:** Monitor transportation activities, including unexpected stops or delays.

3.3. Voice Communication & Emergency Features

- **Two-Way Speakerphone:** Call the device from your authorized phone number, and it will auto-answer, allowing you to speak with your loved one or anyone nearby.
- **SOS Button:** The user can press the SOS button on the device to initiate an immediate call to designated caregivers.
- **Runner Mode:** Activate this feature in the app for faster, more frequent location updates during an emergency.
- **First Responder Alerts:** Share live location data with emergency services or other designated contacts during critical situations.

4. MAINTENANCE

4.1. Charging

Charge the AngelSense device daily using the provided USB cable. A full charge ensures optimal performance and continuous tracking throughout the day.

4.2. Cleaning

Wipe the device and wearing sleeve with a soft, damp cloth as needed. Avoid using harsh chemicals or abrasive materials that could damage the device.

4.3. Software Updates

Ensure your AngelSense app is always updated to the latest version to benefit from new features, improvements, and security enhancements. Device firmware updates are typically managed automatically

through the app.

5. TROUBLESHOOTING

If you encounter any issues with your AngelSense device, please refer to the following common solutions:

- **No Location Updates:** Check if the device is fully charged. Ensure it has a clear line of sight to the sky for GPS signal. Verify that the device is powered on.
- **App Not Responding:** Close and restart the AngelSense app. Ensure your smartphone or PC has a stable internet connection. Check for app updates.
- **Device Not Charging:** Ensure the USB cable is securely connected to both the device and the power source. Try a different USB port or power adapter.
- **Voice Communication Issues:** Check the device's signal strength in the app. Ensure your phone number is authorized for two-way communication in the app settings.
- **False Alerts:** Review and adjust your safe zone settings and alert preferences within the AngelSense app.

If the problem persists, please contact AngelSense Customer Care for further assistance.
