Aoxun IS302BK02A-HJ

Aoxun 7.5'x4' Triple Door Metal Outdoor Storage Shed Instruction Manual

Model: IS302BK02A-HJ

Important Safety Information

Always follow the assembly instructions carefully. Use appropriate tools and safety equipment when handling heavy components. Keep children and pets away from the work area during assembly. Do not exceed the weight limit of the shed. Always use caution when entering and exiting the shed to prevent injury from sharp edges or heavy components.

Setup and Assembly

This product is delivered in two boxes. Please ensure all boxes are received before unpacking and assembling the product. Carefully unpack all components and organize them according to the provided parts list. It is recommended to have at least two people for assembly.

Figure 1: Product Dimensions. This diagram illustrates the overall dimensions of the Aoxun 7.5'x4' Triple Door Metal Outdoor Storage Shed, including height, width, and depth measurements.

Follow the step-by-step illustrated guidance provided in the separate assembly manual. All necessary parts and hardware are clearly numbered for quick identification. Ensure the shed is assembled on a stable and level surface.

Video 1: Triple Door Shed Outdoor Storage Shed Overview. This video from Aoxun Direct demonstrates the features and potential uses of the storage shed, including its multi-door design and internal capacity.

Figure 2: Assembled Shed in a Backyard. This image shows the fully assembled Aoxun storage shed situated in a typical backyard environment, highlighting its aesthetic integration.

Operating Instructions

The Aoxun storage shed features a convenient triple-door design, with doors located on the front and side. This allows for easy access to items, especially larger equipment like bicycles, from multiple angles. Each door is equipped with a lockable latch to secure your stored items.

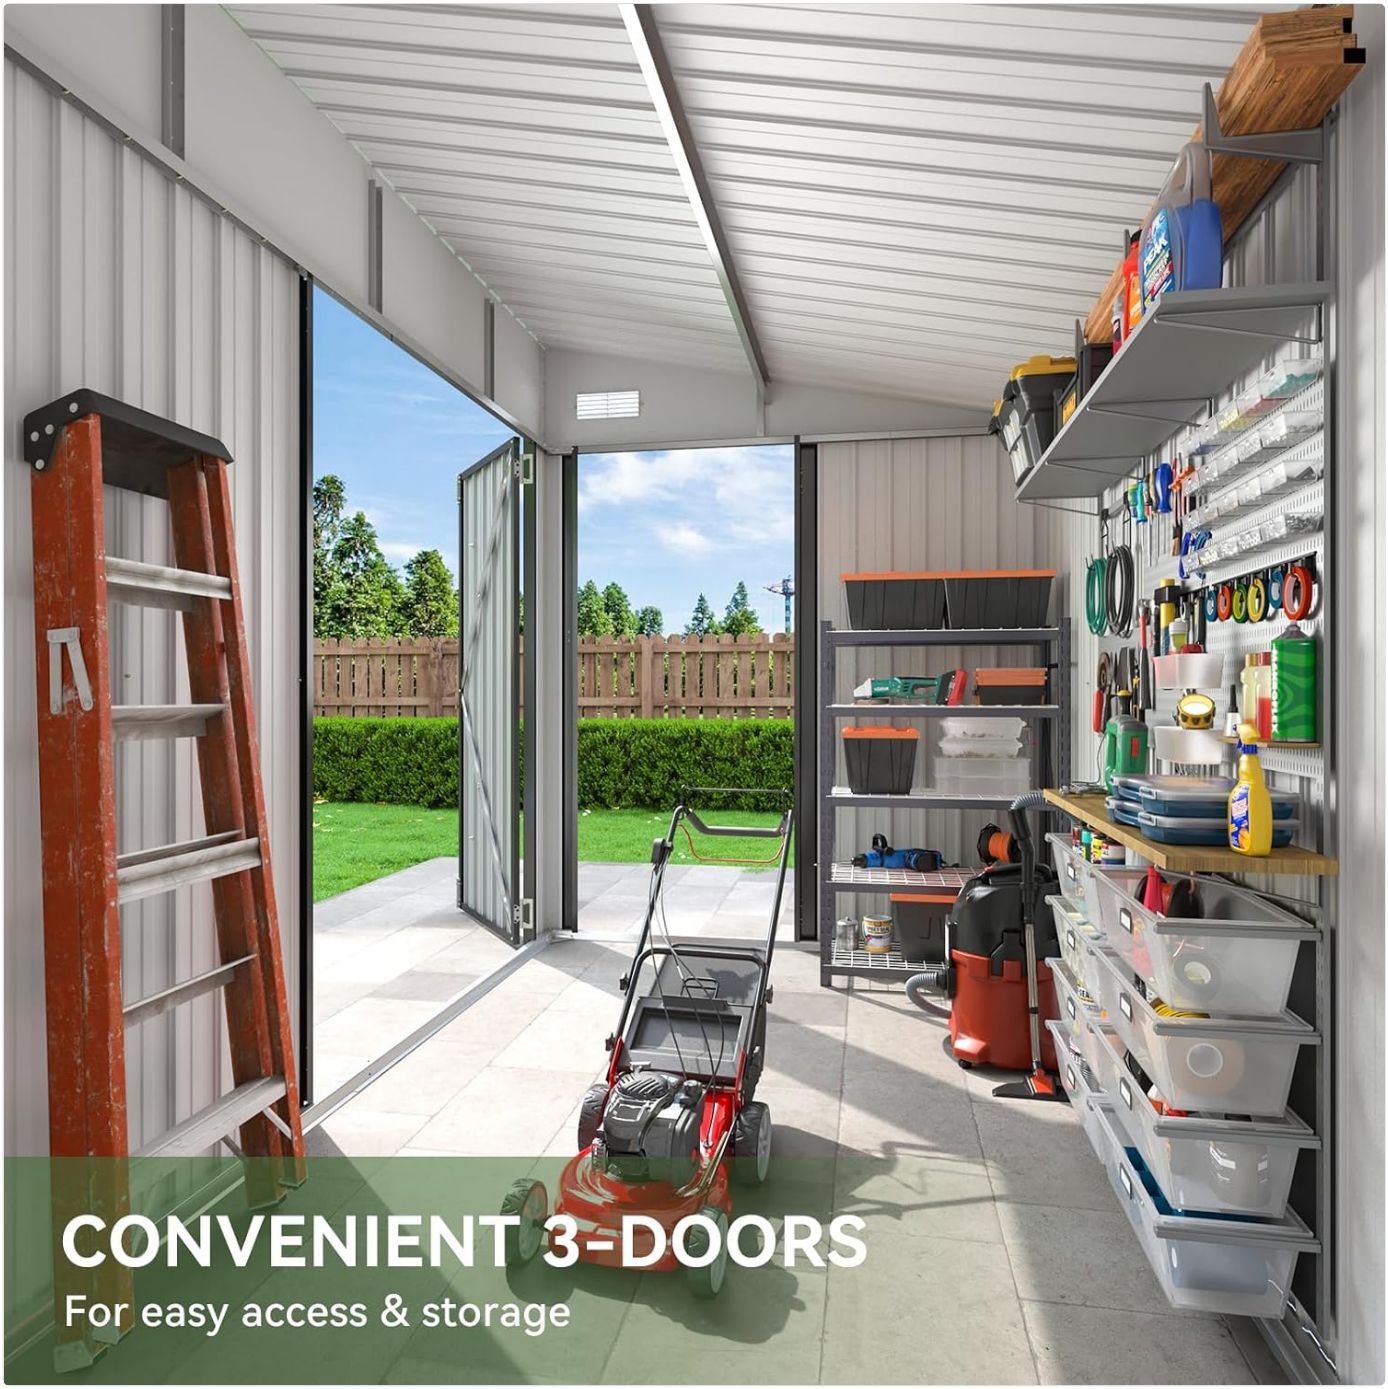

Figure 3: Convenient Triple-Door Access. This image displays the interior of the shed with all three doors open, showcasing the ease of access and the potential for organized storage of various items.

The shed offers ample internal storage capacity, approximately 146 cubic feet, suitable for various outdoor items such as tools, bicycles, lawnmowers, and other garden equipment. The heightened interior design provides sufficient room to stand inside comfortably.

Figure 4: Multi-Use Storage Options. This image illustrates the versatility of the shed, demonstrating its use for bicycle parking, tool storage, as a garbage chamber, or even a pet house.

Maintenance and Care

The shed is constructed from galvanized steel with a color-coated, powder-coated finish, providing effective protection against rust and ensuring prolonged durability in various weather conditions. The sloping roof design facilitates rapid drainage of rainwater, preventing accumulation and potential damage.

Figure 5: Sloping Roof Design for Weather Resistance. This diagram highlights the shed's sloping roof, designed for rapid water drainage, and its resistance to water, wind, snow, and UV radiation.

Integrated air vents improve air circulation between the interior and exterior, helping to prevent moisture buildup and maintain a fresh environment inside the shed. The sturdy construction is designed to withstand up to 6 inches of snow and winds up to 30 mph.

Figure 6: Air Vents and Security Features. This image details the air vent design for improved circulation, along with other features like anti-collision protection, smooth screw protection, security door latches, and door latch bolts.

Figure 7: All-Weather Protection. This visual comparison shows the shed's resilience in both winter conditions (bearing 6 inches of snow) and summer (UV protection), demonstrating its year-round durability.

Regularly inspect the shed for any loose fasteners or signs of wear. Clean the exterior with a mild detergent and water as needed to maintain its appearance and protective coating.

Troubleshooting

- **Difficulty during assembly:** Refer to the detailed assembly instructions and ensure all parts are correctly oriented and aligned. Do not force components together.
- **Water leakage:** Verify that all roof panels are properly installed and sealed. Ensure the shed is on a level surface to allow for proper water runoff from the sloping roof.
- **Door misalignment:** Check that the shed's base is level and that all frame components are securely fastened. Adjust hinges or latches if necessary.
- **Rust formation:** While designed to be rust-resistant, prolonged exposure to harsh conditions or damage to the coating can lead to rust. Address any scratches or chips in the paint promptly with appropriate metal paint.

For any issues not covered here, or if problems persist, please contact Aoxun customer service for assistance.

Specifications

Feature	Detail
Brand	Aoxun
Model Number	IS302BK02A-HJ
Color	Black
Material	Metal (Galvanized Steel)
Product Dimensions (D x W x H)	45.98"D x 87.87"W x 72.83"H
Floor Area	28 Square Feet
Item Weight	150 pounds
Door Style	French Doors (Triple Door)
Water Resistance Level	Waterproof
Assembly Required	Yes

Warranty and Support

For warranty information or customer support, please refer to the documentation included with your purchase or contact Aoxun Direct. You can typically find contact details on the product packaging or the seller's official website.
