INTRODUCTION

Thank you for choosing the Bettdow Wireless Bluetooth Earbuds, Model J182. These earbuds are designed to provide a superior audio experience with advanced features such as Bluetooth 5.3 connectivity, active noise cancellation, and IPX6 water resistance. This manual will guide you through the setup, operation, and maintenance of your new earbuds to ensure optimal performance and longevity.

SETUP

1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case. The charging case has a 500 mAh battery capacity, and each earbud has a 110 mAh capacity, providing up to 60 hours of total playback time with multiple recharges from the case.

- Connect the provided Type-C charging cable to the charging port on the case and to a USB power source.
- The LED indicators on the case will show the charging status.
- Place the earbuds into the charging case. They will begin charging automatically.

2. Bluetooth Pairing

The Bettdow J182 earbuds feature Bluetooth 5.3 for a stable and fast connection up to 20 meters.

1. Ensure the earbuds are charged.
2. Open the lid of the charging case. The earbuds will automatically enter pairing mode.

3. On your device (smartphone, tablet, etc.), go to the Bluetooth settings.
4. Search for "Bettdow J182" (or similar name) in the list of available devices and select it to connect.
5. Once paired, the earbuds will automatically connect to your last paired device when you open the charging case.

OPERATING INSTRUCTIONS

1. Wearing the Earbuds

The earbuds are designed for a stable and secure fit, especially during physical activity. They feature a semi-open ear hook design for comfort.

- Gently insert each earbud into your ear canal.
- Adjust the ear hook to fit securely around your ear.
- Ensure a comfortable fit to optimize sound quality and noise cancellation.

Figure 3: Stable and Secure Fit. The image demonstrates the ergonomic design for comfort and stability during movement, along with the IPX6 water and sweat resistance.

2. Basic Controls

The earbuds feature intuitive button controls for various functions:

Function	Action
Play/Pause Music	Single tap on either earbud.
Next Track	Double tap on the right earbud.
Previous Track	Double tap on the left earbud.
Volume Up	Triple tap on the right earbud.
Volume Down	Triple tap on the left earbud.
Answer/End Call	Single tap on either earbud during an incoming call.
Reject Call	Press and hold either earbud for 2 seconds during an incoming call.
Activate Voice Assistant	Press and hold either earbud for 3 seconds.
Toggle Active Noise Cancellation (ANC)	Press and hold the left earbud for 2 seconds (cycle through ANC On/Off/Transparency Mode).

3. Sound Quality and Noise Cancellation

The Bettdow J182 earbuds feature oversized 13.4mm dynamic drivers and Sound4 acoustic processing technology to deliver clear, powerful audio with rich bass and crisp highs. Hybrid active noise cancellation (ANC) effectively reduces ambient noise, allowing for an immersive listening experience.

Figure 4: Immersive Stereo Sound. This image details the advanced driver technology for superior audio performance.

Figure 5: Active Noise Cancellation in action. The graphic demonstrates the reduction of external noise for a clearer listening experience.

4. Water Resistance (IPX6)

The earbuds are IPX6 waterproof, meaning they are resistant to high-pressure water jets from any direction. This makes them suitable for workouts, running, and outdoor activities where they may be exposed to sweat or light rain. **Note:** They are not designed for swimming or submersion in water.

Figure 6: Earbuds in use during exercise. The image shows the earbuds' durability and fit for active users.

5. Privacy and Awareness

The earbuds feature directional sound transmission to reduce sound leakage, enhancing privacy. Additionally, the transparency mode (accessible via ANC toggle) allows you to hear your surroundings while listening to audio, ensuring awareness in various environments.

Figure 7: Privacy and Environmental Awareness. This image highlights features that minimize sound leakage and allow users to stay aware of their surroundings.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Bettdow earbuds.

- **Cleaning:** Regularly wipe the earbuds and charging case with a soft, dry, lint-free cloth. Do not use abrasive cleaners, alcohol, or chemical solvents.
- **Storage:** When not in use, store the earbuds in their charging case to protect them from dust and damage.
- **Water Exposure:** Although IPX6 water-resistant, avoid prolonged exposure to water. If they get wet, dry them thoroughly before placing them back in the charging case or using them.
- **Temperature:** Avoid exposing the earbuds to extreme temperatures (hot or cold) or high humidity.

TROUBLESHOOTING

If you encounter issues with your Bettdow earbuds, try the following solutions:

Problem	Solution
Earbuds not pairing/connecting.	◦ Ensure both earbuds are charged. ◦ Place earbuds back in the case, close the lid, then open it again to re-enter pairing mode. ◦ Turn off and on your device's Bluetooth. ◦ Forget "Bettdow J182" from your device's Bluetooth list and try pairing again. ◦ Ensure earbuds are within 10 meters of your device.

Problem	Solution
Only one earbud is working.	- Place both earbuds back into the charging case and close the lid for 5 seconds. - Open the lid and take both earbuds out simultaneously. They should automatically reconnect to each other. - If the issue persists, try resetting the earbuds (refer to the full user manual for specific reset instructions, if available).
Low volume or poor sound quality.	- Adjust the volume on both your device and the earbuds. - Ensure the earbuds are clean and free of debris. - Check for a secure and comfortable fit in your ears. - Try different audio sources to rule out source issues.
Charging issues.	- Ensure the charging cable is securely connected to both the case and the power source. - Try a different Type-C charging cable and power adapter. - Clean the charging contacts on both the earbuds and inside the case with a dry cotton swab.
