### 4. SETUP AND INSTALLATION

1. **Clean Your Device:** Before installing the case, ensure your iPhone 16 is clean and free of dust or debris. Use a soft, lint-free cloth to wipe down the screen and back of the phone.
2. **Install Screen Protector (Optional):** If you plan to use a screen protector, apply it to your iPhone 16's screen according to its specific instructions before installing the case.
3. **Insert Phone:** Gently align your iPhone 16 with the case, starting with one side (e.g., the volume button side). Press the phone firmly but carefully into the case until all edges are securely seated. Ensure all buttons and ports align correctly with the case cutouts.
4. **Check Fit:** Verify that the case fits snugly around your iPhone 16 and that there are no gaps or loose areas.

### 5. OPERATION

- **Button Access:** The case features precise cutouts and responsive button covers, allowing full access to all ports, buttons, sensors, and cameras without obstruction.
- **MagSafe Compatibility:** The integrated magnets ensure strong attachment to MagSafe chargers and accessories. Simply align your MagSafe accessory with the back of the case; it will snap into place.
- **Wireless Charging:** The case supports wireless charging without needing to be removed. Place your iPhone 16 (with case) on a compatible wireless charger.

## 6. MAINTENANCE AND CARE

- **Cleaning:** To clean your case, remove it from your iPhone 16. Wipe the case with a soft, damp cloth. For stubborn smudges, a mild soap solution can be used, followed by rinsing and thorough drying. Avoid harsh chemicals or abrasive materials.
- **Avoid Extreme Conditions:** Do not expose the case to extreme temperatures, direct sunlight for prolonged periods, or corrosive liquids, as this may damage the material.
- **Regular Inspection:** Periodically inspect the case for any signs of wear or damage. If the case is significantly damaged, consider replacing it to ensure optimal protection for your device.

## Smooth Touch Translucent Back

## 7. TROUBLESHOOTING

- **MagSafe Accessories Not Attaching Firmly:**  
Ensure the MagSafe accessory is clean and free of obstructions. Verify that the case is correctly installed on your iPhone 16. If the issue persists, try removing and reattaching the case.
- **Buttons Not Responsive:**  
Check if the iPhone 16 is properly seated within the case. Remove the case and re-install it, ensuring all edges are aligned.
- **Fingerprints/Smudges on Case:**  
The matte translucent back is designed to resist fingerprints. If smudges appear, clean the case as described in the Maintenance section.
- **Reduced Wireless Charging Speed:**  
Ensure you are using a MagSafe-compatible charger. The case is designed for optimal wireless charging with MagSafe. Non-MagSafe wireless chargers may have varying performance.
