DOGIBIXO 7101

DOGIBIXO Queen Platform Bed Frame with Storage, LED Headboard, and Charging Station (Model 7101)

Instruction Manual

1. Introduction and Safety Information

Thank you for choosing the DOGIBIXO Queen Platform Bed Frame. This manual provides essential instructions for assembly, operation, maintenance, and troubleshooting to ensure safe and proper use of your new bed frame.

Important Safety Warnings:

- Exercise caution around sharp edges and metal components during assembly and use.
- Always follow the assembly instructions precisely to prevent instability or collapse of the bed frame.
- Use the integrated electrical components (LED lights, charging station) with care to avoid electrical hazards. Ensure all connections are secure and dry.
- Do not exceed the maximum weight capacity of 1000 lbs.
- Keep small parts and packaging materials away from children to prevent choking hazards.

2. Package Contents

Your DOGIBIXO Queen Platform Bed Frame is delivered in one package. Please verify that all components listed below are present before beginning assembly. No additional tools are required beyond what is provided.

Included Components:

- Headboard with integrated bookcase and charging station
- Bed frame side rails and support beams
- Wooden slats for mattress support
- Two under-bed storage drawers with wheels
- LED light strips (3 total: 1 for headboard, 2 for side rails)
- Assembly hardware (screws, bolts, nuts)
- Assembly tools (e.g., Allen wrench)

3. Assembly Instructions

Follow the step-by-step instructions provided in the included assembly manual. It is highly recommended to have two people for assembly to ensure stability and ease of construction. Assembly typically takes 2-4 hours.

Assembly Tips:

- Clear a spacious area for assembly to organize all parts and prevent damage.
- Identify all parts and hardware before starting. Refer to the parts list in your manual.
- When assembling the headboard's H-shelves, ensure both threaded inserts face downwards for correct orientation.
- Note that the two H-frame uprights supporting the headboard are specific to left and right sides. Incorrect placement will require reassembly.
- A cordless driver with 6mm, 8mm, and 10mm bits can significantly speed up the assembly process.

- Do not fully tighten all fasteners until the entire frame is assembled and aligned. Then, tighten all screws securely.

4. Operating Instructions

4.1 LED Lighting System

Your bed frame features three integrated LED light strips: one for the headboard and two for the side rails. These lights can be controlled via a remote control or a dedicated smartphone application.

- **Power On/Off:** Use the designated button on the remote or in the app to turn the lights on or off.
- **Color Selection:** Choose from over 60,000 colors to customize your bedroom ambiance.
- **Dynamic Modes:** Select from multiple dynamic lighting modes, including flashing effects and subtle glows.
- **Music Interaction:** The lights can interact with music, changing patterns and colors in sync with audio.
- **Timing Function:** Set a timer for the lights to automatically turn off.
- **Microphone Function:** Utilize the microphone function for sound-activated light changes.

4.2 Charging Station

The headboard includes a built-in charging station for your convenience.

- **Ports:** The charging station features 2 standard AC outlets (120V/12A), 1 USB port (5V/2A), and 1 Type-C charging port (5V/3A).
- **Usage:** Connect your electronic devices to the appropriate ports for charging. Ensure devices are compatible with the provided voltage and current.

4.3 Storage Drawers

The bed frame includes two large, dustproof fabric drawers that slide smoothly on wheels for convenient under-bed storage.

- **Access:** Gently pull the drawers out from under the bed frame. The smooth wheels facilitate easy movement.
- **Capacity:** Use the drawers to store out-of-season clothes, bedding, or other sundries.
- **Under-bed Clearance:** An additional 7.8-inch space under the bed allows for storage of suitcases, slippers, or easy passage for a sweeping robot.

5. Maintenance

Regular maintenance will help prolong the life and appearance of your bed frame.

- **Frame Cleaning:** Wipe the metal frame and wooden surfaces with a soft, damp cloth. Avoid harsh chemicals that may damage the finish.
- **Velvet Upholstery Care:** For the velvet headboard, gently vacuum with an upholstery attachment to remove dust. For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, consult a professional upholstery cleaner.
- **Drawer Maintenance:** Keep the fabric drawers clean by wiping with a damp cloth. Ensure the wheels are free of debris for smooth operation.
- **Fastener Check:** Periodically check all screws and bolts to ensure they remain tight. Retighten as necessary to maintain structural integrity.
- **Electrical Components:** Ensure the charging station and LED light connections are clean and dry. Do not attempt

to repair electrical components yourself.

6. Troubleshooting

If you encounter issues with your bed frame, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
LED lights not working or inconsistent.	Loose connection, faulty strip, remote/app issue.	Check all power connections for the LED strips. Ensure the remote has fresh batteries or the app is updated. If issues persist, contact customer service. Note: The headboard LED strip may have a separate power connection.
Charging station ports not functioning.	Power cable disconnected, internal fault.	Verify the main power cable for the charging station is securely plugged into a wall outlet. Test with different devices. If still not working, contact customer service.
Drawers do not slide smoothly or fit properly.	Obstruction, damaged wheels, incorrect assembly.	Check for any objects obstructing the drawer path. Inspect drawer wheels for damage or debris. Ensure the bed frame was assembled correctly, particularly the side rails where the drawers slide.
Bed frame is wobbly or makes noise.	Loose fasteners, uneven floor.	Retighten all screws and bolts on the frame. Ensure the bed is on a level surface; use furniture pads if necessary to stabilize.
Mattress slides on the slats.	Mattress not compatible with slat design, no anti-slip features.	Ensure your mattress is within the recommended 8"-12" thickness. Consider using a non-slip mattress pad between the mattress and the slats.
