

## Kviflon 8234

# Kviflon 127cm Smart Ceiling Fan with Light User Manual

Model: 8234

## 1. IMPORTANT SAFETY INSTRUCTIONS

---

Please read all instructions carefully before installing and operating this ceiling fan. Retain this manual for future reference.

- **Electrical Safety:** Always disconnect power at the main circuit breaker before installation, cleaning, or maintenance. Ensure all wiring connections comply with local electrical codes.
- **Mounting:** The fan must be mounted to a ceiling joist or a securely anchored support structure capable of supporting the fan's weight (minimum 15 kg).
- **Blade Clearance:** Ensure there is at least 2.3 meters (7.5 feet) clearance from the floor to the fan blades and at least 75 cm (30 inches) from the wall to the blade tips.
- **Professional Installation:** If you are unsure about wiring or installation, consult a qualified electrician.
- **Use Only Supplied Parts:** Do not use parts from other manufacturers.
- **Avoid Obstructions:** Do not place objects in the path of the fan blades.

## 2. PACKAGE CONTENTS

---

Verify that all components are present and undamaged before beginning installation.

- Ceiling Fan Motor Housing
- Fan Blades (5 pieces)
- LED Light Kit
- Remote Control
- Complete Installation Kit (Mounting bracket, downrod, screws, wire nuts, etc.)
- User Manual

### 3. PRODUCT OVERVIEW

The Kviflon 127cm Smart Ceiling Fan with Light combines modern design with advanced functionality to provide optimal comfort and illumination for your living space.

## Multifunctional Ceiling Fan

Enjoy a smart life

- Reversible DC Motor
- 3000K-6000K / Temperature
- 10%-100% Adjustable brightness
- 6 Speeds Adjustable
- 2H Timer Setting
- Super Quiet
- Two Colors Available

Figure 3.1: Kviflon 127cm Smart Ceiling Fan with Light and Remote Control. Features include a reversible DC motor, adjustable light temperature and brightness, 6 fan speeds, a 2-hour timer, and quiet operation.

## QUIET MOTOR FOR A PEACEFUL BEDTIME

Silent

- Timer Off:  
2H
- Reversible Motor:  
6-Speed Settings

Figure 3.2: The fan operates quietly, ensuring a peaceful environment, especially during sleep. Noise levels are significantly lower than typical household sounds.

Figure 3.3: The fan features an energy-efficient DC motor, consuming less power than traditional AC motors, leading to up to 80% energy savings.

### Key Features:

- **Intelligent Dimmable LED Lighting:** Integrated LED light with adjustable brightness (10-100%) and three color temperatures (3000K warm, 4000K neutral, 6000K cool). Features a memory function to retain preferred settings.
- **Energy-Efficient Reversible DC Motor:** Ultra-quiet and durable DC motor with 6 adjustable speeds. Reversible mode for summer cooling (downward airflow) and winter heat distribution (upward airflow), reducing energy costs.
- **Powerful Air Circulation:** Designed for rooms 15 to 25 m<sup>2</sup> (160 to 270 sq ft), providing strong and consistent airflow.
- **Smart Control Options:** Operate the fan and light via the included remote control or a dedicated smartphone application.
- **Durable Construction:** Features 5 black ABS blades, engineered for maximum airflow and greater stability compared to traditional wooden blades.

## 4. INSTALLATION GUIDE

---

Follow these steps carefully to ensure proper and safe installation of your ceiling fan.

### 4.1 Pre-Installation Checklist:

1. Turn off power at the circuit breaker.
2. Ensure the mounting location can support the fan's weight and provides adequate blade clearance.
3. Gather necessary tools: screwdriver, wire strippers, ladder, drill (if needed).

### 4.2 Mounting Options and Dimensions:

Figure 4.1: Product dimensions and available mounting options (Downrod and Angled). The fan has a diameter of 127cm (50 inches) and a height of 26cm (17.7 inches with standard downrod).

The fan supports both standard downrod mounting and angled ceiling installation. Select the appropriate downrod length (4-inch or 8-inch included) based on your ceiling height.

### 4.3 Step-by-Step Installation:

1. **Secure Mounting Bracket:** Attach the mounting bracket to the ceiling junction box, ensuring it is firmly secured to a structural beam.
2. **Hang Fan Motor:** Carefully lift the fan motor assembly and hang it onto the mounting bracket hook. This allows for hands-free wiring.
3. **Wiring Connections:** Connect the electrical wires according to the wiring diagram provided in the full installation manual. Typically, this involves connecting live, neutral, and ground wires.
4. **Attach Downrod and Canopy:** Secure the downrod to the motor housing and then slide the canopy up to cover the wiring connections and mounting bracket.
5. **Install Fan Blades:** Attach each of the five fan blades to the motor housing using the provided screws. Ensure they are securely fastened.
6. **Install Light Kit:** Connect the light kit wiring and attach the LED light assembly to the bottom of the fan

motor housing.

7. **Restore Power:** Once all components are securely installed and connections are checked, restore power at the circuit breaker.

## 5. OPERATING INSTRUCTIONS

---

Your Kviflon Smart Ceiling Fan can be controlled using the included remote control or a smartphone application.

### 5.1 Remote Control Operation:

The remote control allows for convenient adjustment of all fan and light functions.

- **ON/OFF:** Power the fan and light on or off.
- **Fan Speed:** Select from 6 fan speeds (1-2 for comfortable wind, 3-4 for natural wind, 5-6 for cooling wind).
- **Light ON/OFF:** Turn the LED light on or off independently.
- **Light Brightness:** Adjust light brightness from 10% to 100%.
- **Color Temperature:** Cycle through 3000K (warm white), 4000K (neutral white), and 6000K (cool white). The fan remembers your last setting.
- **Timer:** Set a 2-hour timer for automatic shutdown.
- **Reversible Mode (F/R):** Switch between summer (downward airflow) and winter (upward airflow) modes.

# Natural Ceiling Fan with Stylish Design

Exquisite Craftsmanship, Strict Construction Management

Figure 5.1: Fan speed settings provide comfortable, natural, and cooling wind options.

## REVERSIBLE DC MOTOR

Figure 5.2: The reversible DC motor allows for summer cooling (downward airflow) and winter heat distribution (upward airflow).

## Température de couleur sélectionnable

Figure 5.3: Select from 3000K (warm), 4500K (neutral), or 6000K (cool) light temperatures, dimmable from 10% to 100%.

### 5.2 Smartphone App Control:

Control your fan from your smartphone by downloading the dedicated application.

Figure 5.4: The smartphone app allows for comprehensive control, including fan speed, light settings, and timer functions. Scan the QR code or visit <https://www.jasonghost.com/fanlamppro/> to download the app.

1. **Download App:** Scan the QR code in Figure 5.4 or visit the provided link to download the 'Fan Lamp Pro' application.
2. **Add Device:** Open the app, click 'Add Device', and select 'Luminous Fan'.

3. **Pairing:** Within 5 seconds of turning on the fan, click the '+' button in the app to define the fan's name, then click the pairing button 1 to 2 times.
4. **Language Settings:** If needed, click the menu in the upper left corner of the app to change the language.

## 6. MAINTENANCE

---

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Dust the fan blades and motor housing regularly with a soft, damp cloth. Do not use abrasive cleaners or solvents. Ensure power is off before cleaning.
- **Blade Inspection:** Periodically check that all blade screws are tight. Loose blades can cause wobbling and noise.
- **Light Source:** The integrated LED light source is designed for long life. If replacement is ever needed, contact Kviflon customer support.

## 7. TROUBLESHOOTING

---

If you encounter issues with your fan, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Fan does not start	No power supply; Loose wiring; Remote control battery dead.	Check circuit breaker; Verify wiring connections; Replace remote control batteries.
Light does not work	Loose wiring; LED module fault.	Check light kit wiring; Contact customer support for LED module replacement.
Fan wobbles	Loose blade screws; Unbalanced blades; Loose mounting bracket.	Tighten all blade screws; Ensure blades are balanced (balancing kit may be needed); Secure mounting bracket.
Remote control not responding	Battery dead; Remote not paired; Obstruction between remote and receiver.	Replace batteries; Re-pair remote control (refer to full manual); Ensure clear line of sight.
Excessive noise	Loose screws; Motor issue; Blades hitting an obstruction.	Check all screws; Ensure no obstructions; If motor noise persists, contact customer support.

If the problem persists after attempting these solutions, please contact Kviflon customer support.

## 8. SPECIFICATIONS

---

Detailed technical specifications for the Kviflon 127cm Smart Ceiling Fan with Light, Model 8234.

Feature	Detail
Brand	Kviflon
Model Number	8234
Color	Black
Material	Metal
Style	Modern
Product Dimensions (L x W x H)	127L x 127W x 26H centimeters
Specific Uses	Home, Living Room
Indoor/Outdoor Use	Indoor
Power Source	Corded Electric
Control Method	Application, Remote Control
Bulb Type	LED
Number of Bulbs	3 (integrated LED modules)
Light Color	Warm White (3000K), Neutral White (4000K), Cool White (6000K)
Switch Type	Remote Control
Energy Label	F
Mounting Type	Ceiling Mount
Components Included	Complete Installation Kit, Remote Control
Country of Origin	China
