## 5. OPERATING INSTRUCTIONS

### 5.1 Converting Between Sofa, Recliner, and Bed

The MELLCOM sofa bed offers three primary configurations: sofa, recliner, and bed. The conversion mechanism is designed for ease of use.

1. **Sofa to Recliner:** To convert from sofa to recliner, gently pull the front section of the seat forward. The hidden support legs will extend, and the backrest can then be adjusted to a reclined position.
2. **Recliner to Bed:** From the recliner position, continue to pull the front section of the seat forward until it fully extends and lies flat, forming a bed surface. Ensure the support legs are fully locked into place.
3. **Bed to Sofa:** To revert to a sofa, lift the extended bed section and push it back towards the main sofa frame. The support legs will retract. Then, adjust the backrest to the upright sofa position.

## 6. MAINTENANCE

### 6.1 Cleaning the Faux Leather Upholstery

The sofa bed is upholstered in premium faux leather, which is designed to be soft, durable, and easy to clean.

- For general cleaning, wipe the surface with a soft, damp cloth.
- For spills, blot immediately with a clean, dry cloth. Do not rub.
- For stubborn stains, use a mild soap solution on a soft cloth, then wipe clean with a damp cloth and dry thoroughly.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the faux leather.
- Do not machine wash or dry clean the upholstery.

### 6.2 Frame and Mechanism Care

- Periodically check all bolts and screws and re-tighten them to ensure stability.
- Keep the pull-out mechanism free of debris. If the mechanism becomes stiff, a silicone-based

lubricant can be applied sparingly to moving parts.

## 7. TROUBLESHOOTING

- **Difficulty Converting:** Ensure no objects are obstructing the mechanism. Check that all parts are aligned correctly. If the mechanism feels stiff, ensure it is clean and consider applying a lubricant.
- **USB Ports Not Working:** Verify that the power cord is securely plugged into both the sofa bed and a functioning wall outlet. Check if the outlet is receiving power.
- **Sofa Feels Unstable:** Re-check all assembly bolts and screws to ensure they are fully tightened. Ensure the sofa is on a level surface.
- **Backrest Not Adjusting:** Ensure the backrest is not obstructed. Apply gentle pressure forward before reclining to release the locking mechanism.
