Livpure KoolBliss Neo Desert Cooler 70L: User Instruction Manual

Model: KOOLBLISS-NEO-70L

1. INTRODUCTION

Thank you for choosing the Livpure KoolBliss Neo Desert Cooler 70L. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new air cooler. Please read these instructions carefully before use and retain them for future reference.

2. PRODUCT OVERVIEW & FEATURES

The Livpure KoolBliss Neo Desert Cooler 70L is designed to provide efficient cooling for large spaces, featuring advanced technology and user-friendly design.

- **Powerful Cooling:** Engineered for high-performance cooling, covering up to 471 Sq. Ft. area with a powerful air throw of up to 43 feet.
- **Healthier Air:** Equipped with 3-side antibacterial honeycomb pads to enhance cooling efficiency and deliver cleaner, fresher air, reducing stale odors.
- **Advanced Airflow Control:** Features axial fan technology with a 16-inch 5-blade fan and 3-speed control for custom airflow adjustment.
- **Reliability & Safety:** Includes thermal overload protection to prevent overheating and ensure longer motor life. It is inverter compatible for stable performance during power fluctuations.
- **Easy Mobility:** Fitted with lockable caster wheels for smooth movement and secure placement.

Cool Air That Feels Fresh

- Wide Cooling Area of **471 sq feet**
- Wider Air Throw: **Up to 43 ft**
- Antibacterial **3-Side Honeycomb Pads**

3. UNBOXING & SETUP

Follow these steps to safely unbox and set up your cooler:

1. **Unpack the Cooler:** Carefully remove the cooler from its packaging. Ensure all packing materials are removed.
2. **Check Contents:** Verify that all included components are present: Cooling Pad, Water Tank, and User Manual.
3. **Positioning:** Place the cooler on a flat, stable surface. Ensure there is adequate space around the unit for proper airflow.
4. **Caster Wheels:** The cooler comes with pre-installed caster wheels. Ensure they are securely attached and unlocked for movement, or locked for stable placement.
5. **Initial Cleaning:** Before first use, it is recommended to wipe down the exterior of the cooler with a damp cloth.

4. OPERATING INSTRUCTIONS

Familiarize yourself with the cooler's controls and functions for optimal performance.

4.1 Water Filling

- Ensure the cooler is switched off and unplugged before filling water.
- Locate the water inlet and fill the tank with clean water. The reservoir capacity is 70 Liters.
- Monitor the water level indicator to avoid overfilling.

A Cooler That Feels

as Strong as It Cools

- Large Tank Capacity
- Premium Heavy-Duty Build
- Perfect for living rooms, halls, offices & restaurants

Image 4.1: The 70-liter water tank capacity of the cooler, indicating its large volume for extended cooling.

4.2 Control Panel

The control panel features two rotary knobs for Speed and Function control.

- **Speed Knob:** Adjusts fan speed to Low, Medium, or High.
- **Function Knob:** Controls cooling and swing features. Options include Off, Swing (for horizontal oscillation), and Cool-Swing Cool (for cooling with oscillation).

Shut louvers

Protects internal components

Image 4.2: Close-up of the control panel with speed and function knobs, showing settings for Low, Medium, High, Off, Swing, and Cool-Swing Cool.

4.3 Airflow Adjustment

- **Vertical Louvers:** The cooler features auto vertical louvers that automatically spread air up and down for uniform cooling.
- **Horizontal Louvers:** Manually adjust the horizontal louvers to direct airflow side-to-side as needed.

Shut louvers

Protects internal components

Image 4.3: The cooler's louvers, demonstrating how they can be opened to maximize cooling efficiency.

4.4 Ice Chamber

For enhanced cooling, you can utilize the integrated ice chamber.

- Open the ice chamber lid located on the top of the cooler.
- Place ice cubes into the chamber.
- Close the lid securely. The melting ice will cool the water, providing colder air.

5. MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your cooler.

5.1 Cleaning the Water Tank

- Drain the water tank regularly to prevent algae and bacterial growth.
- Use a mild detergent and soft brush to clean the interior of the tank. Rinse thoroughly with clean water.

5.2 Cleaning Honeycomb Pads

- The 3-side antibacterial honeycomb pads should be cleaned periodically.
- Carefully remove the pads and rinse them under running water to remove dust and mineral deposits.
- Allow the pads to dry completely before reinserting them.

5.3 Exterior Cleaning

- Wipe the exterior surfaces with a soft, damp cloth.
- Do not use abrasive cleaners or solvents, as they may damage the finish.

6. TROUBLESHOOTING

If you encounter any issues with your cooler, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Cooler not turning on	No power supply; Power cord not plugged in; Thermal overload protection activated.	Check power connection; Ensure switch is on; Allow unit to cool down if thermal overload was triggered.
Weak airflow	Fan speed set too low; Obstruction in air vents; Dirty air filter/pads.	Increase fan speed; Clear any obstructions; Clean or replace honeycomb pads.
Insufficient cooling	Low water level; Dry honeycomb pads; High ambient humidity.	Refill water tank; Ensure water pump is working and pads are wet; Use in well-ventilated areas with lower humidity.
Unusual noise	Loose parts; Obstruction in fan; Low water level (pump noise).	Check for loose components; Remove any fan obstructions; Refill water tank.

7. SPECIFICATIONS

Key technical specifications for the Livpure KoolBliss Neo Desert Cooler 70L:

- **Brand:** Livpure
- **Model Name:** Air Cooler (KOOLBLISS-NEO-70L)
- **Material:** Plastic, Polypropylene (PP)
- **Mounting Type:** Freestanding
- **Special Features:** Adjustable Speed, Auto Shut-Off, Built-In Wheel, Oscillating Fan
- **Colour:** White
- **Controls Type:** Knob
- **Reservoir Capacity:** 70 Liters
- **Floor Area Coverage:** 471 Sq. Ft.
- **Item Weight:** 16 Kilograms
- **Wattage:** 175 Watts
- **Number Of Speeds:** 3

- **Voltage:** 220 Volts
- **Item Dimensions (D x W x H):** 48D x 64W x 122.5H Centimeters
