

JIJ B0GFX6WF2H

JIJ AI Translation Earbuds User Manual

Model: B0GFX6WF2H

INTRODUCTION

The JIJ AI Translation Earbuds are advanced, AI-driven headphones designed to facilitate global communication. These earbuds offer real-time translation across 170 languages, intelligent meeting documentation, and enhanced audio clarity through Environmental Noise Cancellation (ENC). This manual provides essential information for setting up, operating, maintaining, and troubleshooting your JIJ AI Translation Earbuds.

For optimal performance, please read this manual thoroughly before using the device.

PACKAGE CONTENTS

- JIJ AI Translation Earbuds (Left and Right)
- Charging Case
- USB Charging Cable
- Ear Cushions (various sizes)
- User Manual (this document)

SETUP

1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case. Place the earbuds into the charging case. Connect the USB charging cable to the charging case and a power source. The indicator lights on the case will show the charging status.

Next-Gen Performance: AI-Driven & Bluetooth 6.0 Ready

2. Installing the JIJ AI App

The JIJ AI Translation Earbuds require the dedicated JIJ AI application for full functionality, including translation modes and AI features. Download the app from your device's app store (iOS App Store or Google Play Store).

- Search for "JIJ AI" in your app store.

- Download and install the application.
- Follow the on-screen instructions to create an account or log in.

3. Pairing with Your Device

1. Ensure earbuds are charged and inside the charging case.
2. Open the charging case lid. The earbuds will automatically enter pairing mode (indicator lights may flash).
3. On your smartphone or tablet, go to Bluetooth settings.
4. Select "JIJ AI Earbuds" from the list of available devices.
5. Once paired, a confirmation message will appear on your device, and the earbud indicator lights will change.
6. Open the JIJ AI app to complete the setup and access all features.

OPERATING INSTRUCTIONS

Basic Controls

The JIJ AI Translation Earbuds feature touch controls for various functions. Specific gestures and their corresponding actions can be customized within the JIJ AI app.

- **Single Tap:** Play/Pause audio, Answer/End call.
- **Double Tap:** Next track, Decline call.
- **Long Press:** Activate voice assistant, Switch translation mode (customizable).

Translation Modes

The JIJ AI app offers multiple translation modes to suit different communication scenarios. Access and switch between these modes directly within the app.

6 Versatile Modes to Fit Your World

From high-stakes boardrooms to casual street chats,
switch modes seamlessly.

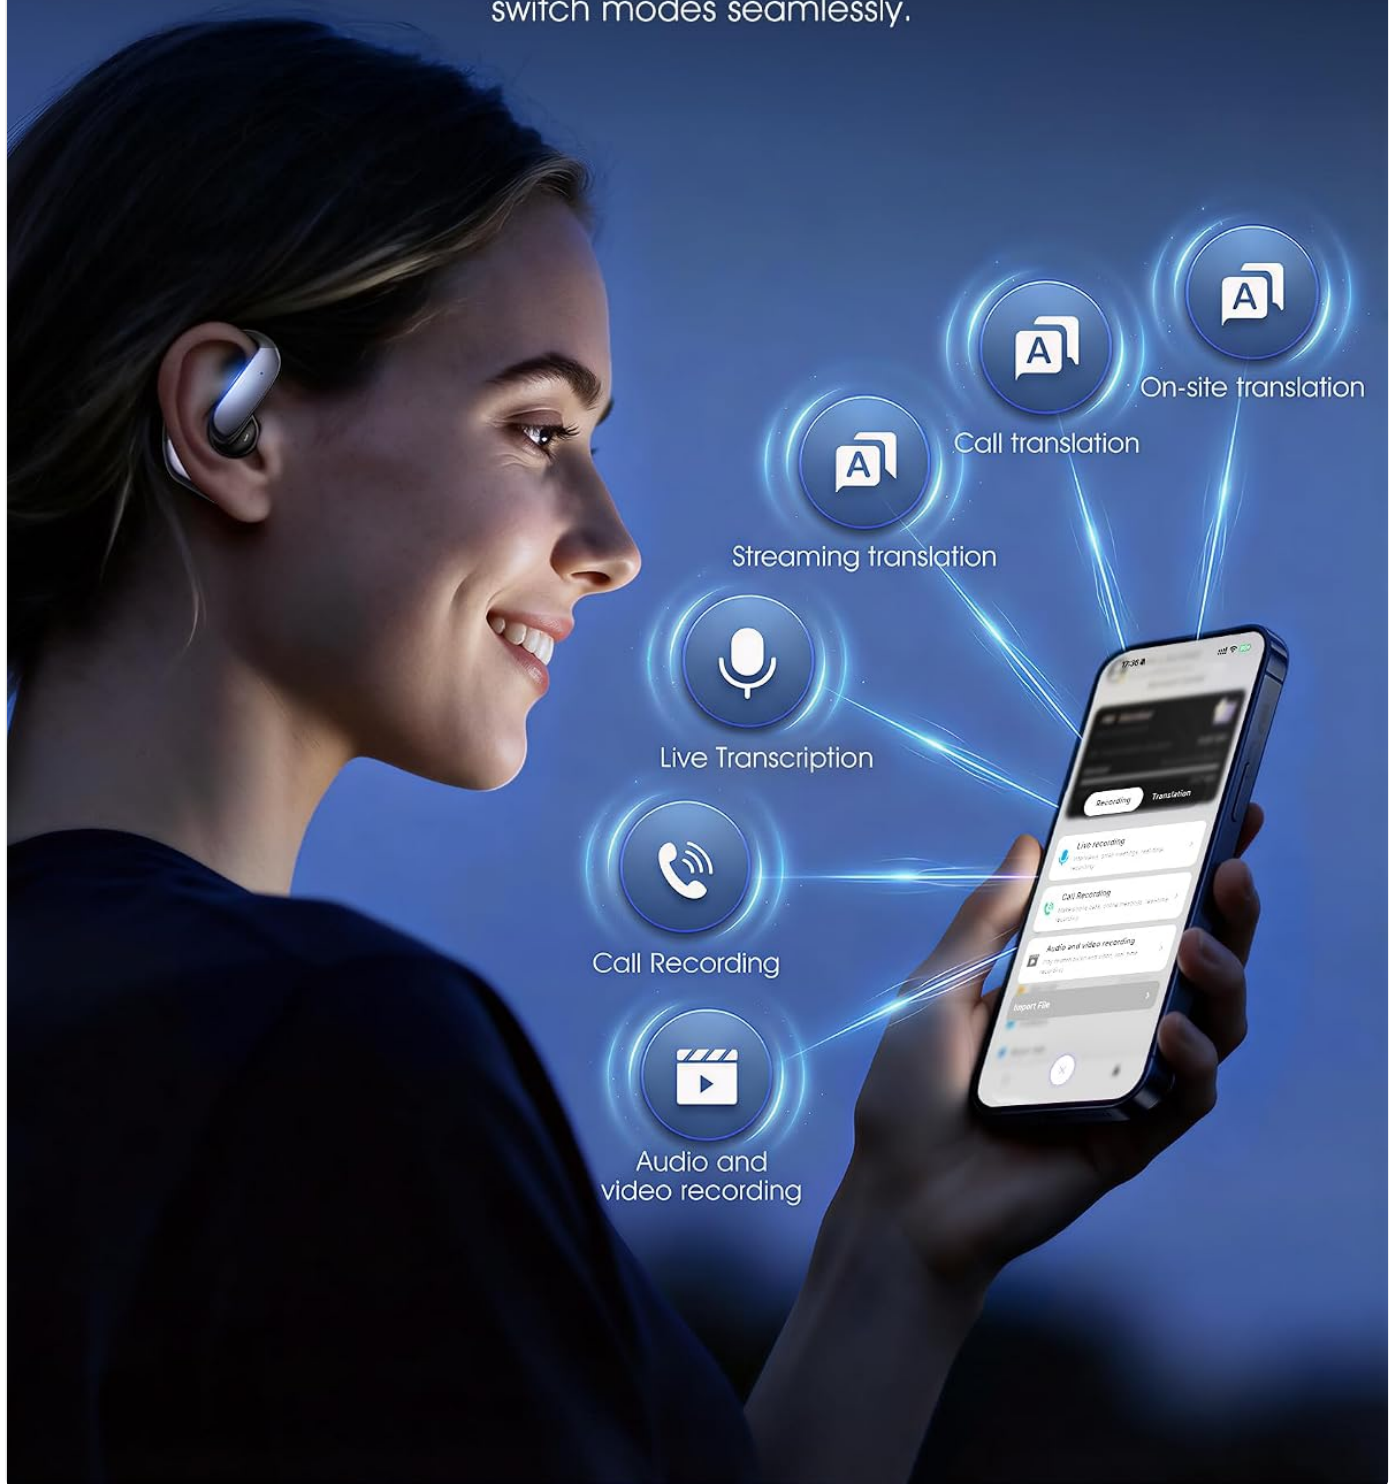

Image: A user interacting with the JIJ AI app, displaying six versatile modes for translation and communication. These modes include On-site translation, Call translation, Streaming translation, Live Transcription, Call Recording, and Audio/Video recording.

- **On-site Translation:** For face-to-face conversations. One person wears an earbud, the other speaks into the phone, or both wear earbuds for simultaneous interpretation.
- **Call Translation:** Translates phone calls in real-time.
- **Streaming Translation:** Translates audio from streaming content.
- **Live Transcription:** Converts spoken words into text in real-time.

- **Call Recording:** Records phone conversations.
- **Audio and Video Recording:** Records audio and video with integrated translation/transcription.

Natural, Eye-to-Eye Conversation

Break the barrier. Just share an earbud for real-time, bi-directional translation —no more awkward phone passing.

Image: Two individuals engaging in a conversation, each wearing a JIJ AI Translation Earbud, demonstrating natural, eye-to-eye simultaneous interpretation without the need to pass a phone.

AI Productivity Features

The JIJ AI app integrates various intelligent tools to enhance productivity and communication.

More Than Just Translation: Your AI Productivity Hub

15 Intelligent tools to streamline your global
communication and workflow.

Image: The JJI AI Translation Earbuds alongside a smartphone screen showcasing 15 integrated AI productivity tools. These tools include features like Split-Screen Sharing, Real-Time Interpretation, AI Meeting Minutes, Photo & Menu Scan, Offline Travel Pack, Global Video Call Sync, AI Voice Memo, Group Chat Translator, and Dialect Recognition, designed to streamline communication and workflow.

- **AI Meeting Minutes:** Automatically transcribes and summarizes meetings, identifying speakers.
- **Photo & Menu Scan:** Translates text from images.
- **Offline Travel Pack:** Provides translation capabilities without an internet connection (requires prior download).
- **Global Video Call Sync:** Integrates translation into video calls.

- **AI Voice Memo:** Records and transcribes voice notes.
- **Group Chat Translator:** Facilitates translated communication in group chats.
- **Dialect Recognition:** Recognizes and translates various dialects within supported languages.
- **Real-Time Interpretation:** Provides instant, bidirectional translation.
- **Split-Screen Sharing:** Allows two users to view translated text simultaneously on a single device.

Context-Aware AI Models

The earbuds utilize 48 specialized AI models to understand cultural nuances and context, providing more accurate and relevant translations across various scenarios.

48 Tailored AI Models for Multiple Scenario

Image: A visual representation of four key scenarios where JJJ AI's 48 tailored AI models provide specialized support: Business Intelligence for transcribing and summarizing meetings, Global Exploration for guidance in foreign lands, Learning Accelerator for mastering languages and lectures, and Negotiation for confident deal-making.

- **Business Intelligence:** Optimized for business meetings, presentations, and corporate communications.
- **Global Exploration:** Tailored for travel, tourism, and general conversations in foreign environments.
- **Learning Accelerator:** Designed for language learning, academic lectures, and educational content.
- **Negotiation:** Provides tactical feedback and insights during high-stakes discussions.

MAINTENANCE

Cleaning

- Gently wipe the earbuds and charging case with a soft, dry, lint-free cloth.
- Do not use abrasive cleaners, alcohol, or chemical solvents.
- Clean the ear tips regularly with a damp cloth and allow them to dry completely before reattaching.
- Ensure charging contacts on both earbuds and case are clean and free of debris.

Storage

- Store the earbuds in their charging case when not in use to protect them and keep them charged.
- Avoid storing in extreme temperatures (hot or cold) or high humidity.

Battery Care

- Charge the earbuds regularly, even if not used frequently, to maintain battery health.
- Avoid completely draining the battery for extended periods.

TROUBLESHOOTING

Earbuds Not Pairing

- Ensure earbuds are charged.
- Make sure Bluetooth is enabled on your device.
- Place earbuds back in the case, close the lid, wait a few seconds, then open to re-enter pairing mode.
- Forget "JIJ AI Earbuds" from your device's Bluetooth list and try pairing again.
- Restart your device.

Translation Inaccurate or Delayed

- Check your internet connection; a stable connection is crucial for real-time translation.
- Ensure the correct source and target languages are selected in the JIJ AI app.
- Speak clearly and at a moderate pace. Avoid speaking over others.
- Minimize background noise, as Environmental Noise Cancellation (ENC) works best within its design limits.
- Update the JIJ AI app to the latest version.

No Sound or Poor Audio Quality

- Check the volume levels on both your device and within the JIJ AI app.
- Ensure earbuds are properly seated in your ears.
- Clean the earbud speakers and ear tips.
- Try re-pairing the earbuds with your device.

App Not Responding

- Close the JIJ AI app completely and reopen it.
- Restart your smartphone or tablet.
- Check for app updates in your device's app store.
