Mastela Sense

Mastela Motion Sensor Automatic Rocking Bassinet with Timer and Music Sense User Manual

Brand: Mastela | Model: Sense

1. INTRODUCTION AND OVERVIEW

The Mastela Motion Sensor Automatic Rocking Bassinet is designed to provide a secure, comfortable, and technologically advanced sleeping environment for your baby from birth up to 15 kg. This manual provides essential information for the safe and proper assembly, operation, and maintenance of your bassinet, ensuring peaceful nights for both baby and parents.

2. SAFETY INFORMATION

WARNING: To prevent serious injury or death, always follow these safety guidelines:

- Never leave your baby unattended in the bassinet.
- Use the foldable side panel with caution to avoid accidents. Ensure it is securely fastened when not in co-sleeper mode.
- Keep the bassinet away from heat sources, such as heaters, fireplaces, or direct sunlight.
- Do not place heavy objects on the sides of the bassinet to prevent tipping.
- Always ensure all locking mechanisms are engaged before placing the baby in the bassinet.
- Regularly inspect the bassinet for loose parts, damaged fabric, or any signs of wear. Discontinue use if any damage is found.

3. SETUP AND ASSEMBLY

The Mastela bassinet requires assembly. Follow the included instructions carefully. Once assembled, ensure all components are securely locked into place.

3.1 Height Adjustment

The bassinet features multiple height adjustments to align with your bed for co-sleeping or to suit various room setups. Locate the height adjustment buttons on the side frames and press them to raise or lower the bassinet to the desired level. Ensure both sides are adjusted evenly and securely locked.

3.2 Wheel Operation and Locking

The bassinet is equipped with 4 wheels for easy mobility. Each wheel has a locking mechanism. To move the bassinet, unlock all wheels. To secure the bassinet in place, press down on the locking levers on all four wheels until they click into position. Always lock the wheels when the bassinet is stationary or when the baby is inside.

4. OPERATING INSTRUCTIONS

4.1 Powering On and Control Panel

Connect the bassinet to a power source using the provided USB cable (power adapter not included). The touch-sensitive control panel will illuminate. You can operate the bassinet using this panel or the included remote control.

4.2 Automatic Rocking and Motion Sensor

The bassinet features an intelligent motion sensor that automatically initiates and stops the rocking function to soothe your baby. It offers 5 automatic rocking speeds. To activate, press the rocking button on the control panel or remote. The bassinet will detect your baby's movement and adjust accordingly.

4.3 Timer Function

Set the automatic shut-off timer for 15, 30, 45, or 60 minutes using the control panel or remote. The bassinet will automatically stop rocking and playing music after the selected duration. An exclusive touch activation mode allows the bassinet to resume rocking and music for 15 minutes upon detecting baby's movement.

4.4 Music and Bluetooth Connectivity

The bassinet includes 12 integrated relaxing melodies. You can also connect your mobile phone via Bluetooth to play personalized music and videos. Use the control panel or remote to select melodies, adjust volume, or pair your device.

4.5 Co-Sleeper Mode

The bassinet features a foldable side panel, allowing it to be placed next to the parents' bed for safe co-sleeping. Ensure the bassinet is securely attached to the bed using the provided straps (if applicable) and that the height is adjusted correctly to prevent gaps.

5. MAINTENANCE

5.1 Cleaning the Mattress

The dense, removable mattress is machine washable for easy cleaning. Follow the care instructions on the mattress label to ensure longevity and hygiene.

5.2 Fabric Care

The bassinet features breathable mesh sides, ensuring constant ventilation and visibility. These fabric components can be spot cleaned with a mild detergent and damp cloth. Allow to air dry completely before reassembly.

6. TROUBLESHOOTING

If you encounter any issues with your Mastela Motion Sensor Automatic Rocking Bassinet, please refer to the following common troubleshooting tips:

- **Bassinet not rocking:** Ensure the power cable is securely connected and the power adapter is functioning. Check if the rocking function is activated on the control panel or remote.
- **Music not playing:** Verify that the volume is not set to minimum. If using Bluetooth, ensure your device is correctly paired and within range.
- **Motion sensor not responding:** Check for any obstructions around the sensor. Ensure the bassinet is on a stable, flat surface.
- **Unstable bassinet:** Confirm that all assembly points are securely fastened and the wheels are locked when stationary.

For further assistance, please contact Mastela customer support.

7. SPECIFICATIONS

Feature	Detail
Color	Light Gray
Brand	Mastela
Size	Large
Product Weight	9 Kilograms

Assembly Required	Yes
Item Depth	90 centimeters
Material	Breathable Mesh
Unit Count	1 unit
Country of Origin	China
