Anweller B5BF

Anweller B5BF Smart Key Lock Box Instruction Manual

Model: B5BF

1. PRODUCT OVERVIEW

The Anweller B5BF Smart Key Lock Box offers a secure and convenient solution for storing keys and access cards. It features multiple unlocking methods, including fingerprint, passcode, RFID card, mobile app, and Apple Watch, ensuring flexible access control. Designed for durability, this lock box is suitable for various environments, both indoors and outdoors.

2. WHAT'S IN THE BOX

Upon unboxing your Anweller B5BF Smart Key Lock Box, you will find the following components:

- 1 x B5BF Key Lock Box
- 1 x Adjustable Shackle
- 2 x Shackle Silicone Plugs
- 4 x Wall-Mounted Screws
- 4 x Screw Anchors
- 1 x User Manual

Works in Any Environment

IP65 Waterproof, Anti-Rust, Anti-Corrosion

3. SETUP AND INSTALLATION

3.1 Battery Installation

The lock box requires 3 AAA alkaline batteries (not included due to logistics restrictions). To install:

1. Open the lock box.
2. Locate the battery compartment on the inside of the door.
3. Unscrew the battery compartment cover.
4. Insert 3 AAA alkaline batteries, ensuring correct polarity.
5. Securely replace the battery compartment cover.

The lock box features a low power reminder to indicate when batteries need replacement. In case of complete battery depletion, an emergency power bank can be used via the Type-C port for temporary access.

3.2 Mounting Methods

The Anweller B5BF Smart Key Lock Box offers versatile mounting options to suit your needs:

- **Wall Mounted:** Securely attach the lock box to a wall using the provided screws and anchors.
- **Door Hanging:** Utilize the adjustable shackle to hang the lock box directly on a doorknob.
- **Fence Hanging:** The adjustable shackle also allows for hanging the lock box on fences or gates.

4. OPERATING INSTRUCTIONS

4.1 Unlocking Methods

The Anweller B5BF Smart Key Lock Box offers 5 convenient ways to unlock:

1. **Fingerprint:** Utilize the advanced biometric fingerprint reader for quick access (unlocks within 0.2 seconds).
2. **Passcode:** Enter a personalized numerical code on the keypad.
3. **RFID Card:** Tap an authorized RFID card against the lock box.
4. **Mobile App:** Unlock remotely via the dedicated mobile application (Bluetooth connection required).
5. **Apple Watch:** For added convenience, unlock using your Apple Watch through the mobile app.

5 Ways to Unlock

 Keyless | Convenient | Reliable

4.2 App Usage

The mobile application allows for comprehensive management of your lock box, including:

- Adding and managing fingerprints (up to 100).
- Generating temporary or permanent passcodes (up to 20).
- Managing RFID cards.
- Viewing access history records.
- Monitoring battery status.

5. FEATURES

- **Advanced Fingerprint Reader:** Equipped with self-learning AI biometric technology, it provides ultra-fast unlocking within 0.2 seconds and supports up to 100 unique fingerprints.
- **Durable and High-Security:** Constructed from superior strength zinc alloy for crack resistance and durability, featuring a hardened stainless steel shackle for superior cut resistance and an improved tight closure design to prevent prying.
- **High-Capacity:** The improved internal space offers a 120% increase in capacity compared to most lock boxes, accommodating multiple mechanical keys, car keys, and cards.
- **All-Weather Performance:** Rated IP65 for waterproof and dustproof protection, it is also antirust and anti-corrosion, proven to operate reliably in extreme environmental conditions from -4°F to 122°F.
- **Long Battery Life:** Features low power consumption technology, providing over 180 days of standby time. Includes a low power reminder and emergency power option via a power bank.

Large Capacity - Increase 120%
