LXZNRQU HC001

LXZNRQU HC001 Hair Clipper Blades User Manual

Compatible with KAIRUI HC001 Trimmers

1. INTRODUCTION

Thank you for choosing LXZNRQU replacement blades for your KAIRUI HC001 hair clipper. These blades are designed to enhance cutting efficiency and provide a precise, comfortable trimming experience. Featuring ceramic and titanium coating, they are built for durability and smooth operation.

2. SETUP AND INSTALLATION

To ensure optimal performance and safety, follow these steps for installing the replacement blades:

1. **Power Off:** Ensure your KAIRUI HC001 hair clipper is turned off and unplugged from any power source before beginning installation.
2. **Remove Old Blades:** Carefully detach the existing blades from your hair clipper. Refer to your original KAIRUI HC001 manual for specific instructions on blade removal, as mechanisms may vary. Typically, this involves pressing a release button or sliding the old blade unit off.
3. **Clean Clipper Head:** Clean any hair or debris from the clipper head area before installing the new blades. Use a small brush if necessary.
4. **Install New Blades:** Align the new LXZNRQU HC001 replacement blade unit with the clipper head. Gently push or slide the blade into place until it clicks securely. Ensure it is firmly seated and does not wobble.
5. **Test Functionality:** Once installed, turn on the clipper briefly to ensure the blades move smoothly and correctly. Turn off the clipper immediately after testing.

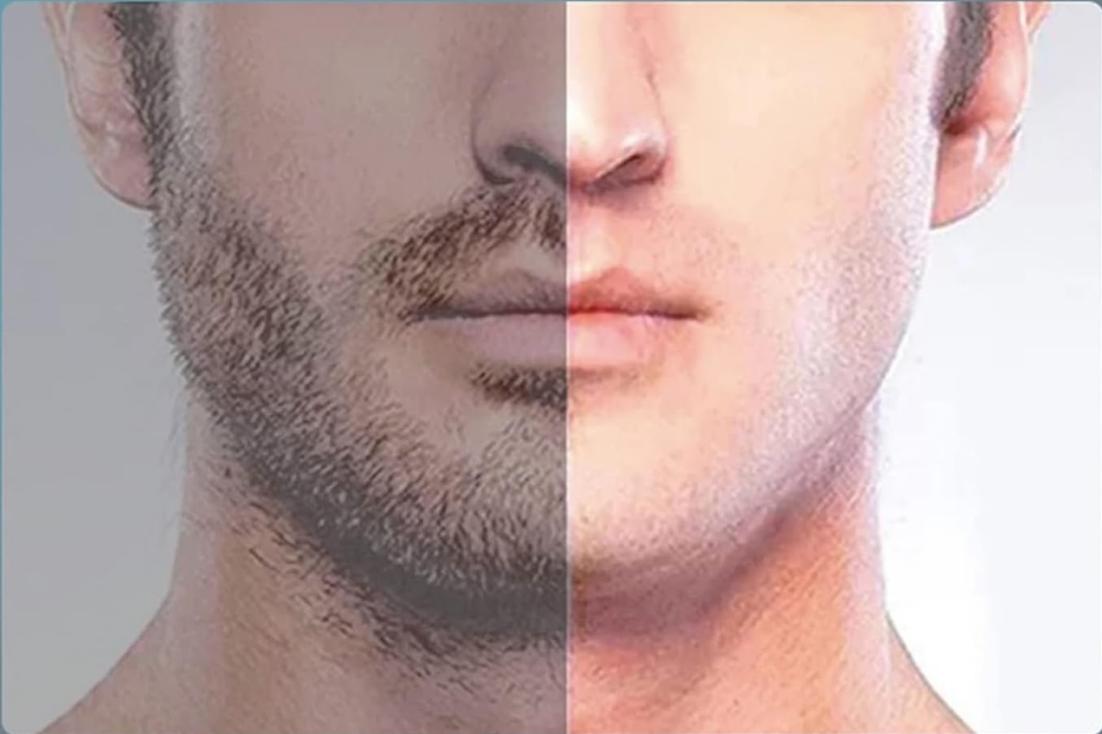

3. OPERATING INSTRUCTIONS

These replacement blades are designed for use with the KAIRUI HC001 hair clipper. For detailed operating instructions of the clipper itself, please refer to your KAIRUI HC001 user manual.

- **Flexible Angle Adjustment:** The blades are designed to adapt to facial contours, effectively capturing hair and beard in various directions for an even trim.
- **Wet and Dry Use:** These blades support both wet and dry shaving scenarios. They can be used with shaving foam for a wet shave or directly for a dry shave.
- **Precision Trimming:** The ceramic and titanium coated blades offer precise cutting, reducing the need for multiple passes and minimizing skin irritation.

SH50 Replacement Head Blades

Shave Your Beard Faster and Cleaner

Before Shaving **VS** After Shaving

Image 2: Before and After Shaving Comparison. This image illustrates the effectiveness of the blades by showing a visual comparison of a person's face before and after shaving, highlighting a clean and smooth result.

4. MAINTENANCE AND CLEANING

Proper maintenance ensures the longevity and performance of your blades.

- **Rinsing:** The blades are waterproof and can be rinsed directly under running tap water. This helps remove hair residue and maintains hygiene.
- **Regular Cleaning:** After each use, rinse the blades thoroughly to prevent hair buildup, which can cause

tangling and blockages.

- **Drying:** After rinsing, allow the blades to air dry completely before reattaching them to the clipper or storing.
- **Lubrication (Optional):** While not explicitly required for these blades, applying a small amount of clipper oil to the cutting edges periodically can further enhance smooth operation and blade life. Refer to your KAIRUI HC001 manual for lubrication recommendations.

5. TROUBLESHOOTING

If you encounter issues with your replacement blades, consider the following:

- **Poor Cutting Performance:**
 - Ensure the blades are clean and free of hair buildup.
 - Verify the blades are correctly installed and securely seated on the clipper.
 - Check if the clipper itself is fully charged or powered.
- **Blade Noise or Vibration:**
 - Confirm the blades are properly aligned and installed.
 - Clean any debris that might be causing obstruction.
- **Skin Irritation:**
 - Ensure the blades are clean.
 - Use proper shaving technique, applying gentle pressure.
 - Consider using the blades for wet shaving with foam for sensitive skin.

If problems persist, consult the original KAIRUI HC001 clipper manual or contact customer support.

6. SPECIFICATIONS

Brand	LXZNRQU
Model Compatibility	KAIRUI HC001
Blade Material	Ceramic + Titanium
Number of Pieces	1
Item Type	Razor Blade
Product Weight	50 g

7. WARRANTY AND SUPPORT

For information regarding warranty coverage for this replacement blade, please refer to the purchase documentation or contact the seller directly. As a replacement part, its warranty may be subject to the terms of the original product or specific seller policies.

For technical support or further inquiries, please contact LXZNRQU customer service through the platform where the product was purchased.
