YKYI Electric Grill Brush (Model LZ-8057) Instruction Manual

Model: LZ-8057

Brand: YKYI

INTRODUCTION

Thank you for choosing the YKYI Electric Grill Brush. This cordless BBQ cleaner is designed to make post-grilling cleanup effortless and efficient. Featuring a high-torque motor with adjustable speeds, a 180° rotating head, and heat-resistant construction, it provides a thorough cleaning solution for various grill types. Please read this manual carefully before use to ensure safe and optimal performance.

WHAT'S IN THE BOX

Your YKYI Electric Grill Brush package includes the following items:

- 1 x Electric Grill Brush Unit
- 1 x Wire Brush Head (Heavy-duty stainless steel)
- 1 x Polishing Brush Head (Scouring pad)
- 1 x USB Charging Cable
- 1 x Pair of Gloves

IPX7 Deep Waterproofing

PRODUCT FEATURES

- **Effortless Cleaning:** High-torque motor with 3 adjustable speeds (300/350/400 RPM) to quickly remove burnt-on grease and food residue.
- **Adjustable Head:** The brush head features a 7-gear locking mechanism, allowing it to adjust up to 180° for reaching tight corners and deep gaps on various grill shapes.
- **Heat-Resistant Design:** Housing withstands temperatures up to 392°F (200°C), enabling effective cleaning while the grill is still warm.
- **Cordless Endurance:** Equipped with a 2600mAh high-capacity battery, providing up to 120 minutes of continuous cleaning on a single charge. Features 5 LED power indicators and convenient USB charging.
- **IPX7 Waterproof:** The entire unit is IPX7 waterproof, allowing for safe rinsing under tap water for easy maintenance.
- **Dual Replaceable Heads:** Includes a heavy-duty stainless steel wire brush for metal grates and a scouring pad for delicate porcelain or non-stick surfaces.
- **Versatile Use:** Safe for all grill types, including ceramic, gas, charcoal, cast iron, and stainless steel.

SETUP

1. Charging the Device

Before first use, fully charge the electric grill brush. Connect the provided USB charging cable to the charging port

on the handle and to a suitable USB power source. The 5 LED power indicators will show the charging status. A full charge provides up to 120 minutes of continuous use.

2. Assembling the Brush Head

Select the appropriate brush head for your cleaning task (wire brush for heavy residue, polishing pad for grease/delicate surfaces). Match the socket and connector on the brush head to the main unit and firmly attach it until it clicks into place. It is recommended to wear the provided gloves to protect your hands during assembly and use.

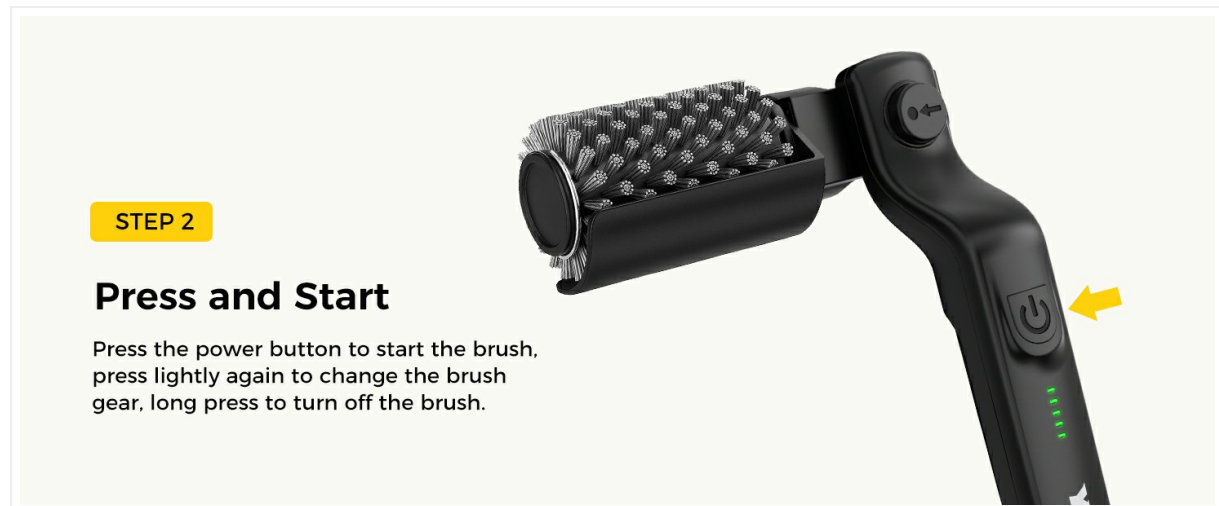

Image: Step-by-step guide for assembling the brush head onto the YKYI Electric Grill Brush unit.

OPERATING INSTRUCTIONS

1. Power On and Speed Control

Press the power button on the handle to turn on the brush. Press lightly again to cycle through the three adjustable speed settings (300, 350, 400 RPM). Long press the power button to turn off the brush.

2. Adjusting the Brush Head Angle

To adjust the angle of the brush head, press the angle adjustment button located near the brush head. This allows you to rotate the head up to 180° to effectively clean various contours and hard-to-reach areas of your grill grates.

3. Cleaning Your Grill

For best results, clean your grill while it is still warm. The heat-resistant housing allows for safe operation up to 392°F (200°C). Guide the rotating brush head over the grill grates, applying gentle pressure. The high-torque motor will do the work of dissolving burnt-on grease and residue.

- Use the wire brush head for tough, baked-on food residue on metal grates.
- Switch to the polishing brush head (scouring pad) for grease removal and polishing on delicate surfaces like porcelain or non-stick griddles.

STEP 3

Grease Stain Removal

After using a wire brush head to remove grill residue you can use a felt cloth brush head to remove grease.

Image: The YKYI Electric Grill Brush effectively cleaning different grill surfaces such as flat tops, cast iron, stainless steel, and charcoal grills.

MAINTENANCE

1. Cleaning the Unit

The YKYI Electric Grill Brush is IPX7 waterproof. After use, you can safely rinse the entire unit under running tap water to remove any accumulated debris or grease. Ensure the charging port cover is securely closed before rinsing.

2. Cleaning Brush Heads

The brush heads are detachable and can be cleaned separately. For thorough cleaning, you can place them in a dishwasher. Allow them to air dry completely before reattaching or storing.

3. Storage

After cleaning and drying, store the grill brush in a cool, dry place. The unit features a hook on the bottom for convenient hanging, making it easy to access next to your grill.

2600 Milliampere Super Large Battery Capacity

The indicator light shows the battery level.
Battery Work Time: 90mins to 120mins

TROUBLESHOOTING

- **Brush not turning on:** Ensure the device is fully charged. Check the USB charging port for any debris.

- **Reduced cleaning performance:** The brush head may be worn out or clogged. Replace the brush head if necessary. Ensure the correct brush head is used for the surface being cleaned.
- **Brush head not rotating smoothly:** Check for any obstructions or debris caught in the brush head mechanism. Ensure the brush head is securely attached.
- **Battery not holding charge:** Ensure the charging cable is properly connected and the power source is functional. If issues persist, contact customer support.

SPECIFICATIONS

Brand	YKYI
Model Number	LZ-8057
