Shop-Vac 5430326

Shop-Vac HEPA Filter Replacement for Mattress Vacuum Cleaner 5430326

Instruction Manual

INTRODUCTION

This manual provides essential information for the proper installation, operation, and maintenance of your Shop-Vac HEPA Filter Replacement, designed for use with the Shop-Vac Mattress Vacuum Cleaner, model 5430326. Adhering to these instructions will help ensure the filter's optimal performance and extend its lifespan.

PRODUCT OVERVIEW

The Shop-Vac HEPA Filter Replacement is engineered with premium rubber edging and dense cotton filter media to provide HEPA-level filtration. It offers excellent sealing to minimize leakage and maintain stable suction power in your compatible Shop-Vac Mattress Vacuum Cleaner.

SETUP AND INSTALLATION

Before installing the new filter, ensure your Shop-Vac Mattress Vacuum Cleaner is turned off and unplugged from the power source. This filter is specifically designed for model 5430326. Verify your vacuum model for proper fit.

1. **Remove the Dust Bin:** Locate and detach the dust bin from your Shop-Vac Mattress Vacuum Cleaner according to your vacuum's specific instructions.
2. **Access the Old Filter:** Carefully remove the existing filter from the dust bin. Dispose of the old filter responsibly.
3. **Insert New Filter:** Place the new Shop-Vac HEPA Filter Replacement into the designated filter compartment within the dust bin. Ensure the rubber edging creates a tight seal to prevent air leakage.
4. **Reattach Dust Bin:** Securely reattach the dust bin to the vacuum cleaner. Ensure it clicks into place firmly.

REPLACEMENT COTTON FILTER

Only compatible with Shop-Vac Mattress Vacuum Cleaner, model 5430326

OPERATING PRINCIPLES

Once installed, the HEPA filter works by capturing a wide range of airborne particles as air passes through it during vacuum operation. Its multi-layer cotton filtration and rubber-sealed design ensure efficient particle retention and consistent suction.

- **Superior Filtration:** The dense cotton filter media provides HEPA-level filtration, effectively capturing fine dust, pet dander, fabric particles, debris, and embedded hair.
- **Enhanced Sealing:** The premium rubber edging ensures a secure fit, preventing unfiltered air from bypassing the filter and maintaining stable suction power.
- **Deep Fabric Cleaning:** This filter is ideal for routine cleaning of mattresses, sofas, and upholstery surfaces, contributing to a cleaner home environment.

EFFICIENTLY CAPTURES MORE THAN JUST DUST

MAINTENANCE

Regular cleaning and timely replacement of the filter are crucial for maintaining the performance of your vacuum cleaner. This filter is washable and reusable.

Cleaning Instructions:

1. **Remove Filter:** Turn off and unplug the vacuum. Remove the dust bin and then carefully detach the filter.
2. **Rinse with Water:** Rinse the filter under running tap water until the water runs clear. Gently remove any trapped debris.
3. **Air Dry Completely:** Allow the filter to air dry completely for at least 24 hours before reinstallation. Do not use a dryer or direct heat, as this can damage the filter material. Ensure it is absolutely dry to prevent mold growth and maintain filtration efficiency.
4. **Reinstall:** Once completely dry, reinstall the filter into the dust bin and reattach the dust bin to the vacuum.

WASHABLE & REUSABLE

 **Note :** Ensure completely dry before reuse

Image: The HEPA filter being rinsed under running water, demonstrating the washable feature. Ensure it is completely dry before reuse.

Replacement Frequency:

For optimal vacuum performance and air quality, it is recommended to replace the filter every 3-4 months. This frequency may vary depending on usage and cleaning conditions.

TROUBLESHOOTING

If you experience issues with your vacuum cleaner after installing the new filter, consider the following:

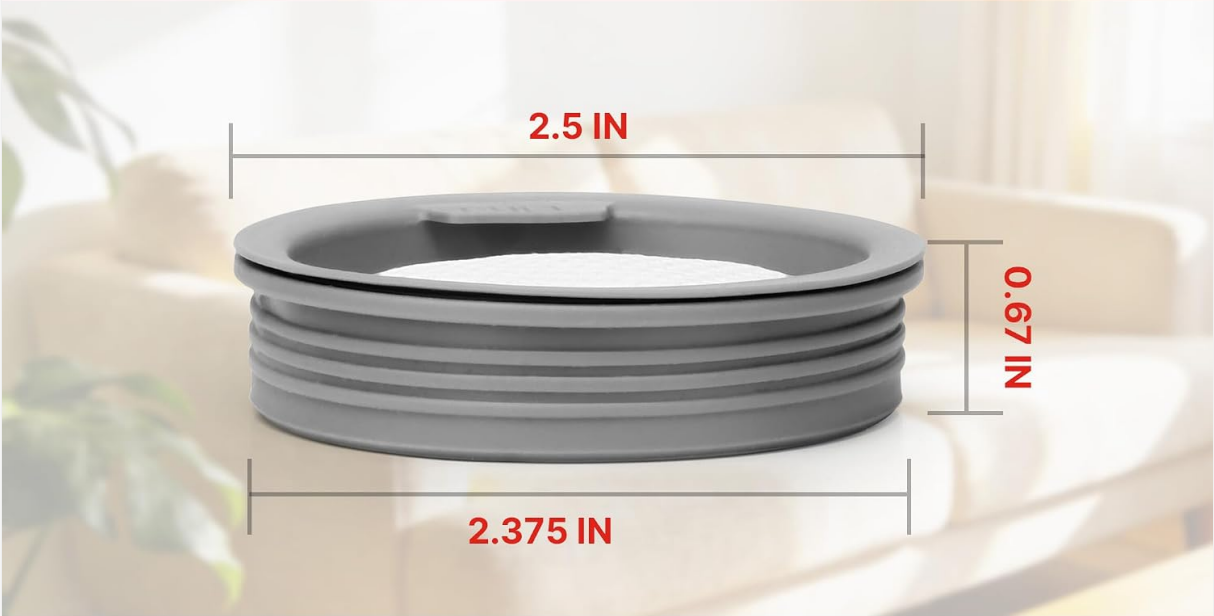

- **Reduced Suction:** Ensure the filter is installed correctly and seated firmly, creating a tight seal. Check if the filter is clogged and requires cleaning.
- **Improper Fit:** Double-check that the filter model number (5430560) matches the compatible vacuum cleaner model (5430326).
- **Unusual Noises:** Verify that the filter is not obstructing any moving parts within the vacuum's dust bin assembly.

SPECIFICATIONS

Key specifications for the Shop-Vac HEPA Filter Replacement:

Feature	Detail
Brand	Shop-Vac
Model Number	5430560
Compatible Devices	Shop-Vac Mattress Vacuum Cleaner (Model 5430326)
Material	Cotton
Reusability	Reusable (Washable)
Product Dimensions (L x W x H)	2.5" x 2.5" x 0.67"
Unit Count	1.0 Count
GTIN / UPC	026282545343
