atomberg Aris Starlight Smart

atomberg Aris Starlight 1400mm BLDC Smart Ceiling Fan User Manual

Model: Aris Starlight Smart | Brand: atomberg

INTRODUCTION

This manual provides essential information for the safe and efficient use of your atomberg Aris Starlight 1400mm BLDC Smart Ceiling Fan. Please read these instructions carefully before installation and operation, and retain them for future reference.

SAFETY INFORMATION

- Ensure the power supply is disconnected before installation, cleaning, or maintenance.
- Installation must be performed by a qualified electrician in accordance with local wiring regulations.
- Do not insert any objects into the fan blades while the fan is operating.
- Ensure all connections are secure and properly grounded.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SETUP AND INSTALLATION

The atomberg Aris Starlight fan is designed for straightforward installation. Free installation services are available upon registration of your product on the Atomberg website. It is recommended to utilize professional installation to ensure proper setup and safety.

Included Components

Before beginning installation, verify that all components are present:

- Blade set (1 Unit)
- Remote (1 Unit)
- Motor box (1 Unit)
- Canopy set (1 Unit)
- Downrod (1 Unit)
- Shackle kit (1 Unit)
- Manual Leaflet & Warranty card (1 Unit)

Ceiling Compatibility

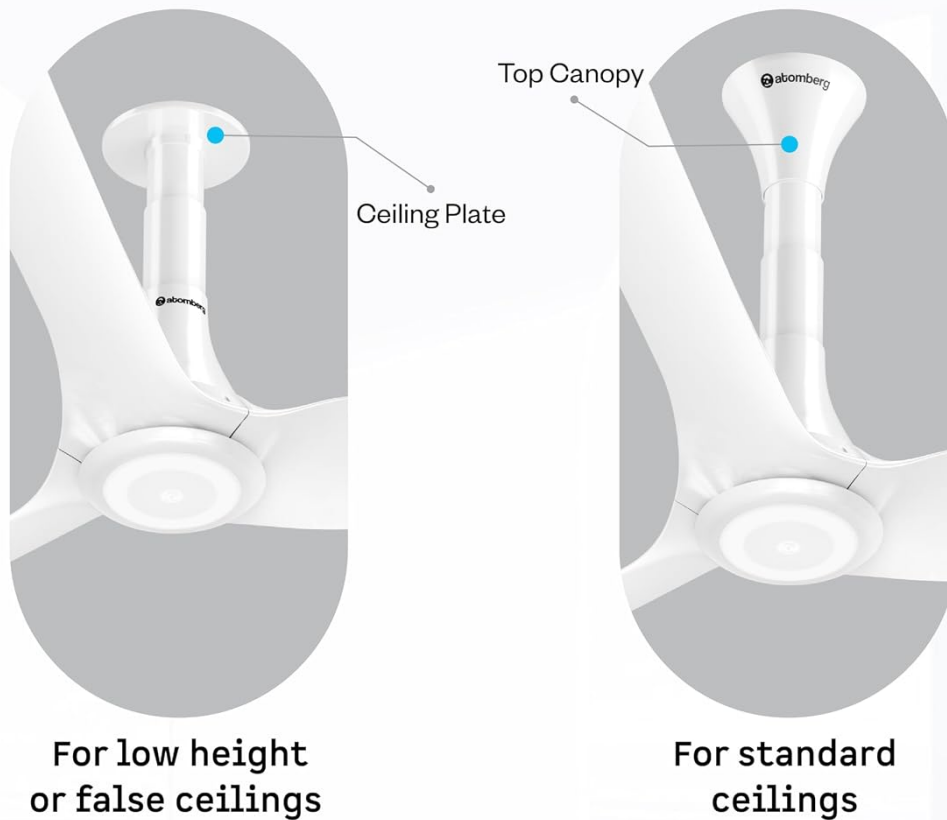

The fan features a telescopic canopy design for versatile installation. It is suitable for both standard ceilings and false ceilings or low ceiling heights, offering an additional ceiling plate for specific requirements.

Figure 1: Ceiling compatibility for low height/false ceilings and standard ceilings.

For low height or false ceilings, a specific ceiling plate is provided. For standard ceilings, a sleek top canopy is used. Ensure the correct components are used for your ceiling type.

Suits every ceiling

OPERATION

Your Aris Starlight Smart Fan offers multiple control options for convenience and personalized comfort.

Remote Control

The fan comes with a universal Smart IR Remote. Use the remote to:

- Adjust fan speed (6 available speeds).
- Activate Boost Mode for maximum airflow.
- Set a Timer for automatic shut-off.
- Engage Sleep Mode for reduced speed and quiet operation during rest.
- Control the LED Underlight (on/off, color modes, intensity).

Smart Control (IoT)

For enhanced control, the fan supports IoT integration via the Atomberg Home mobile app, Google Home, and Alexa.

- **Atomberg Home App:** Download the app to control the fan from your smartphone. This includes adjusting speed, setting modes, and managing the LED underlight.
- **Voice Control:** Integrate with Google Home or Alexa for hands-free operation using voice commands.

Control your comfort with the Atomberg Home App

Figure 4: Atomberg Home App interface for fan control.

LED Underlight

The integrated LED underlight offers three color modes (Cool, Warm, and Daylight) and adjustable intensity levels. It consumes 6W of power and can be controlled via the remote or the Atomberg Home App.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Disconnect power before cleaning. Use a soft, damp cloth to wipe the blades and motor housing. Avoid abrasive cleaners or solvents that may damage the finish. The sleek ABS blades are designed for easy cleaning.
- **Blade Inspection:** Periodically check that all blade screws are tight. Loose blades can cause wobbling and noise.
- **Dust Accumulation:** The fan is designed to resist significant dust accumulation, but occasional cleaning is recommended to maintain air delivery efficiency.

TROUBLESHOOTING

Refer to the following common issues and solutions before contacting customer support.

Problem	Possible Cause	Solution
Fan does not turn on.	No power supply; remote battery low; incorrect wiring.	Check circuit breaker; replace remote batteries; verify wiring connections (consult a professional).
Fan wobbles or makes excessive noise.	Loose mounting screws; unbalanced blades; improper installation.	Ensure all mounting hardware is secure; check blade balance; re-evaluate installation (professional assistance recommended).
Remote control not responding.	Remote battery low; obstruction between remote and receiver; remote not paired.	Replace remote batteries; ensure clear line of sight; refer to pairing instructions in the full manual.
LED Underlight is dim or not working.	Incorrect setting; power issue.	Adjust intensity via remote or app; check power supply to the fan. Note that the underlight is designed for ambient lighting and not primary illumination.
Fan speed inconsistent during voltage fluctuations.	Voltage outside operating range.	The fan is designed for consistent speed between 165V-285V. If fluctuations are outside this range, a voltage stabilizer may be required.

If the issue persists after attempting these solutions, please contact Atomberg customer support.

SPECIFICATIONS

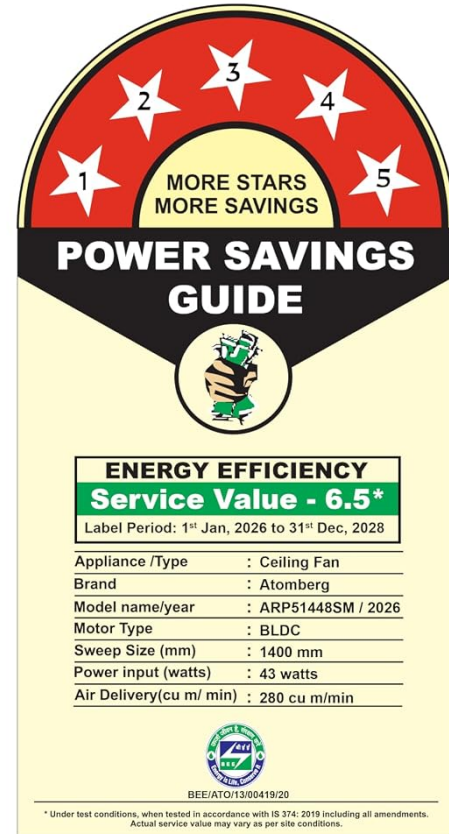

Feature	Detail
Brand	atomberg
Model Name	Aris Starlight Smart
Electric Fan Design	Ceiling Fan
Colour	Marble White
Blade Length	1400 Millimetres
Number of Blades	3
Motor Type	Brushless DC (BLDC)
Wattage	43 Watts (at top speed)
Voltage	220 Volts
Speed	245 RPM
Air Flow Capacity	280 Cubic Meters Per Minute (CMM)

Feature	Detail
Noise Level	52 Decibels (dB)
Number of Speeds	6
Controller Type	App Control, Remote Control, Voice Control
Special Features	Silent Fan, Best-in-Class Air Delivery, Smart Fan, LED Underlight, Energy Efficient BLDC Motor with Remote
LED Underlight Power	6 Watts
