## 5. OPERATING INSTRUCTIONS

### 5.1 Transforming the Bed (Cabinet to Bed)

1. **Step 1:** Ensure the area in front of the cabinet is clear of obstructions.
2. **Step 2:** Open the bottom storage drawer. This drawer is part of the bed's base.
3. **Step 3:** Grasp the handle on the front panel of the bed frame. Using both hands, gently pull the bed frame outwards and downwards. The premium smooth rails will guide the bed out.
4. **Step 4:** Continue to unfold the bed board until it is fully extended and flat. Ensure the support legs are properly deployed and locked into place for stability.
5. **Step 5:** Place your foldable mattress (not included) onto the bed frame.

To transform the bed back into a cabinet, reverse these steps. Remove the mattress, fold the bed board upwards, and gently push the bed frame back into the cabinet until it locks securely. Close the bottom drawer.
