GALVANOX MSCP2507

Galvanox 25W Qi2.2 Certified Magnetic Wireless Charger User Manual

Model: MSCP2507

1. Product Overview

The Galvanox 25W Qi2.2 Certified Magnetic Wireless Charger provides efficient and fast wireless charging for compatible devices. Featuring a strong magnetic connection and an aluminum body, it is designed for optimal performance with Samsung Galaxy, Android, and iPhone models that support MagSafe or magnetic charging.

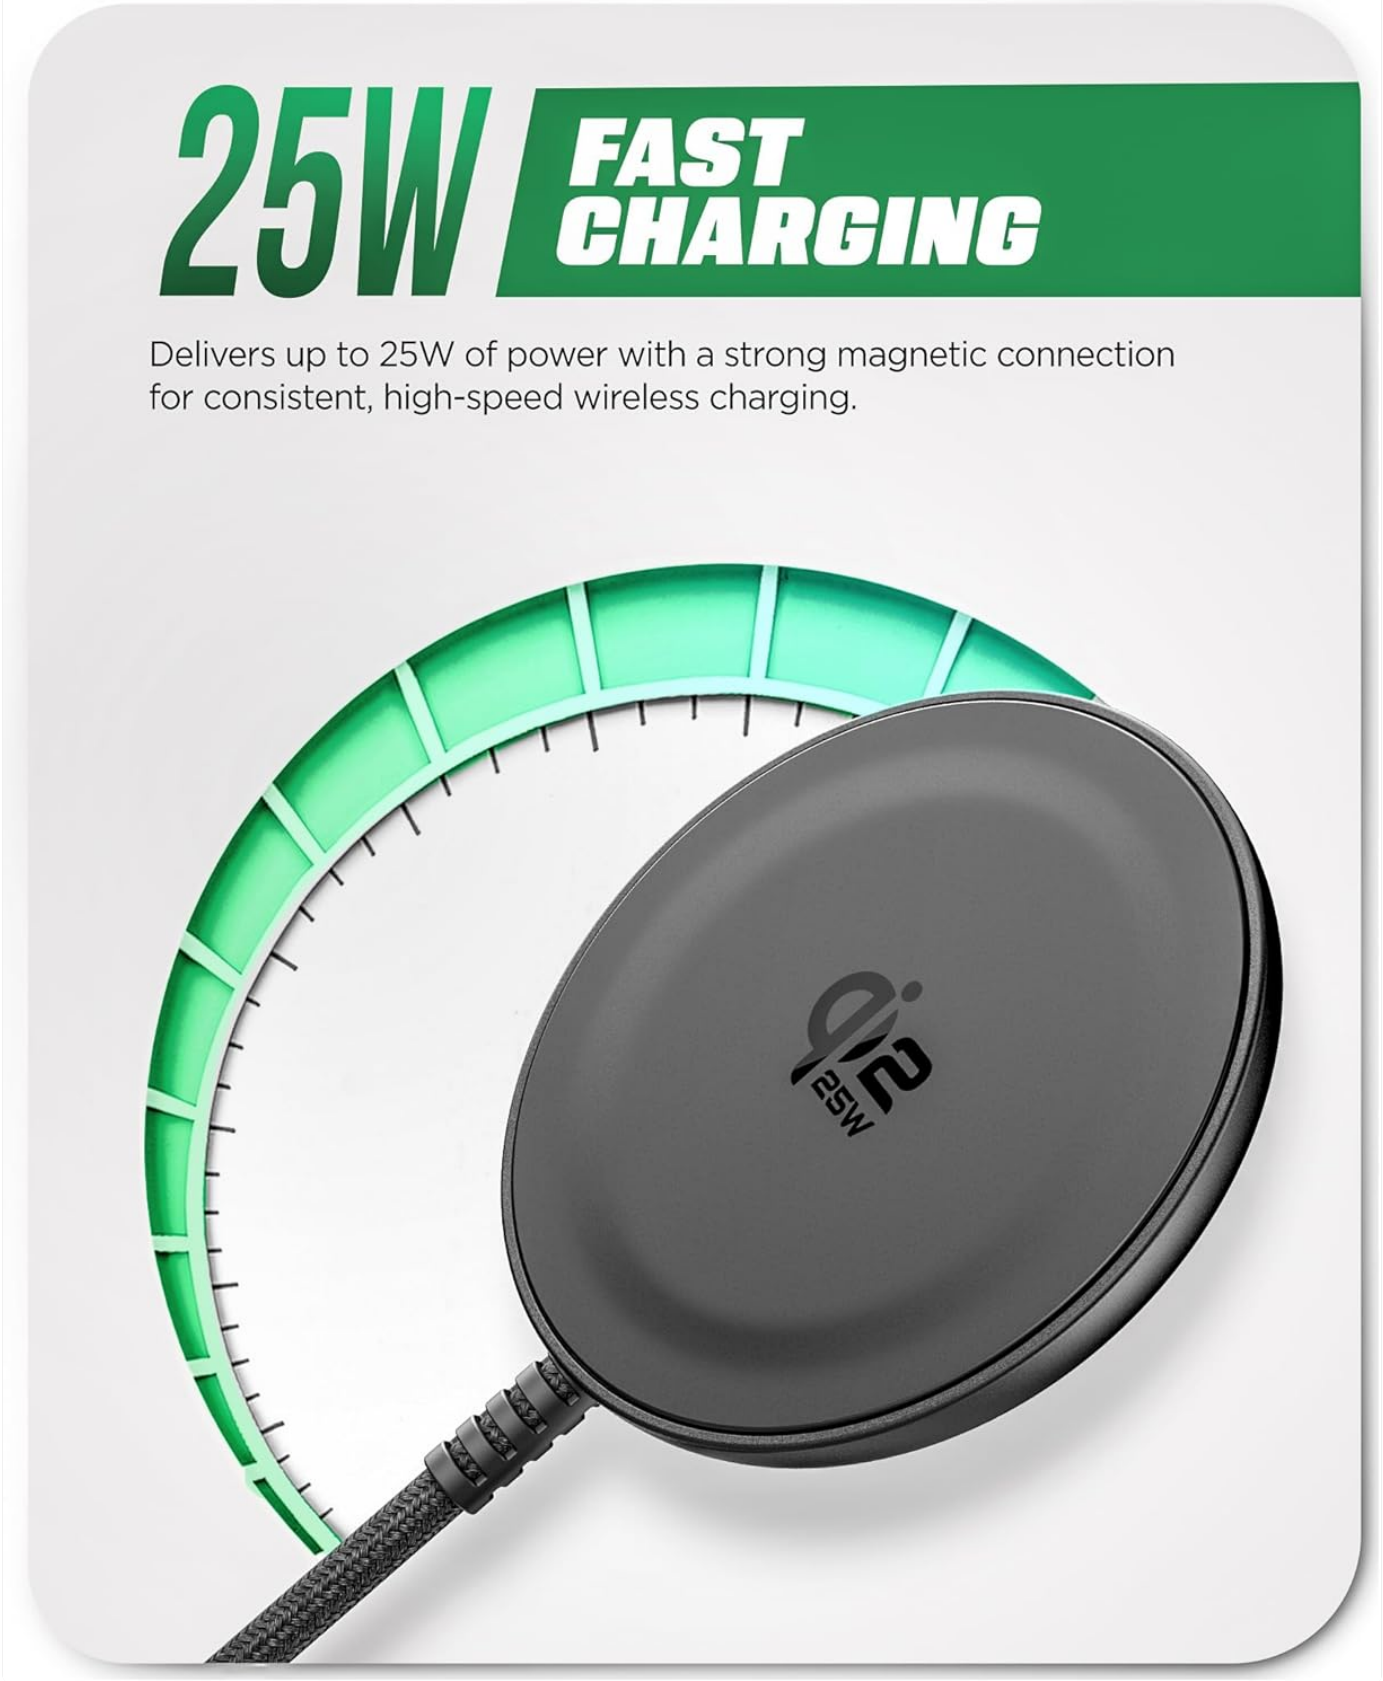

Figure 1: Front view of the Galvanox 25W Qi2.2 Certified Magnetic Wireless Charger, highlighting the Qi2 and 25W logos.

2. What's in the Box

Upon opening the package, ensure all components are present and in good condition.

- 2 x Galvanox 25W Qi2.2 Certified Magnetic Wireless Chargers

Figure 2: Two Galvanox magnetic wireless chargers, showing both front and back views with their integrated USB-C cables.

3. Setup Instructions

Follow these steps to set up your Galvanox Magnetic Wireless Charger:

1. **Connect to Power:** Plug the USB Type-C connector of the wireless charger into a compatible power adapter (not included). For optimal 25W fast charging, use a power adapter that supports Power Delivery (PD) or Quick Charge

(QC) with at least 25W output.

2. **Placement:** Place the charger on a flat, stable surface or hold it to your device. The integrated 6-foot cable provides ample reach.
3. **Device Compatibility:** Ensure your device supports Qi wireless charging and has magnetic alignment capabilities (e.g., MagSafe for iPhones, or compatible magnetic cases for Android devices).

Figure 3: A user demonstrating the flexible use of the charger with its 6-foot cable, allowing for comfortable charging access.

4. Operating Instructions

Using your Galvanox Magnetic Wireless Charger is straightforward:

1. **Attach Device:** Align your compatible smartphone with the magnetic charging pad. The magnets will automatically snap the charger into the correct position for optimal charging.
2. **Confirm Charging:** Your device's screen should indicate that it is charging. For fast charging, ensure your device and power adapter support 25W Qi2.2 charging.
3. **Optimal Performance:** For best results, ensure there are no foreign objects between the charger and your device. Thick cases or metal attachments may interfere with charging.

Figure 4: The magnetic wireless charger attached to a Samsung Galaxy S23 Ultra, demonstrating its optimized design for Samsung devices and Qi2 certification.

This charger is designed for rapid power delivery, capable of charging compatible devices from 0% to 50% in under 30 minutes, depending on the device and power adapter used.

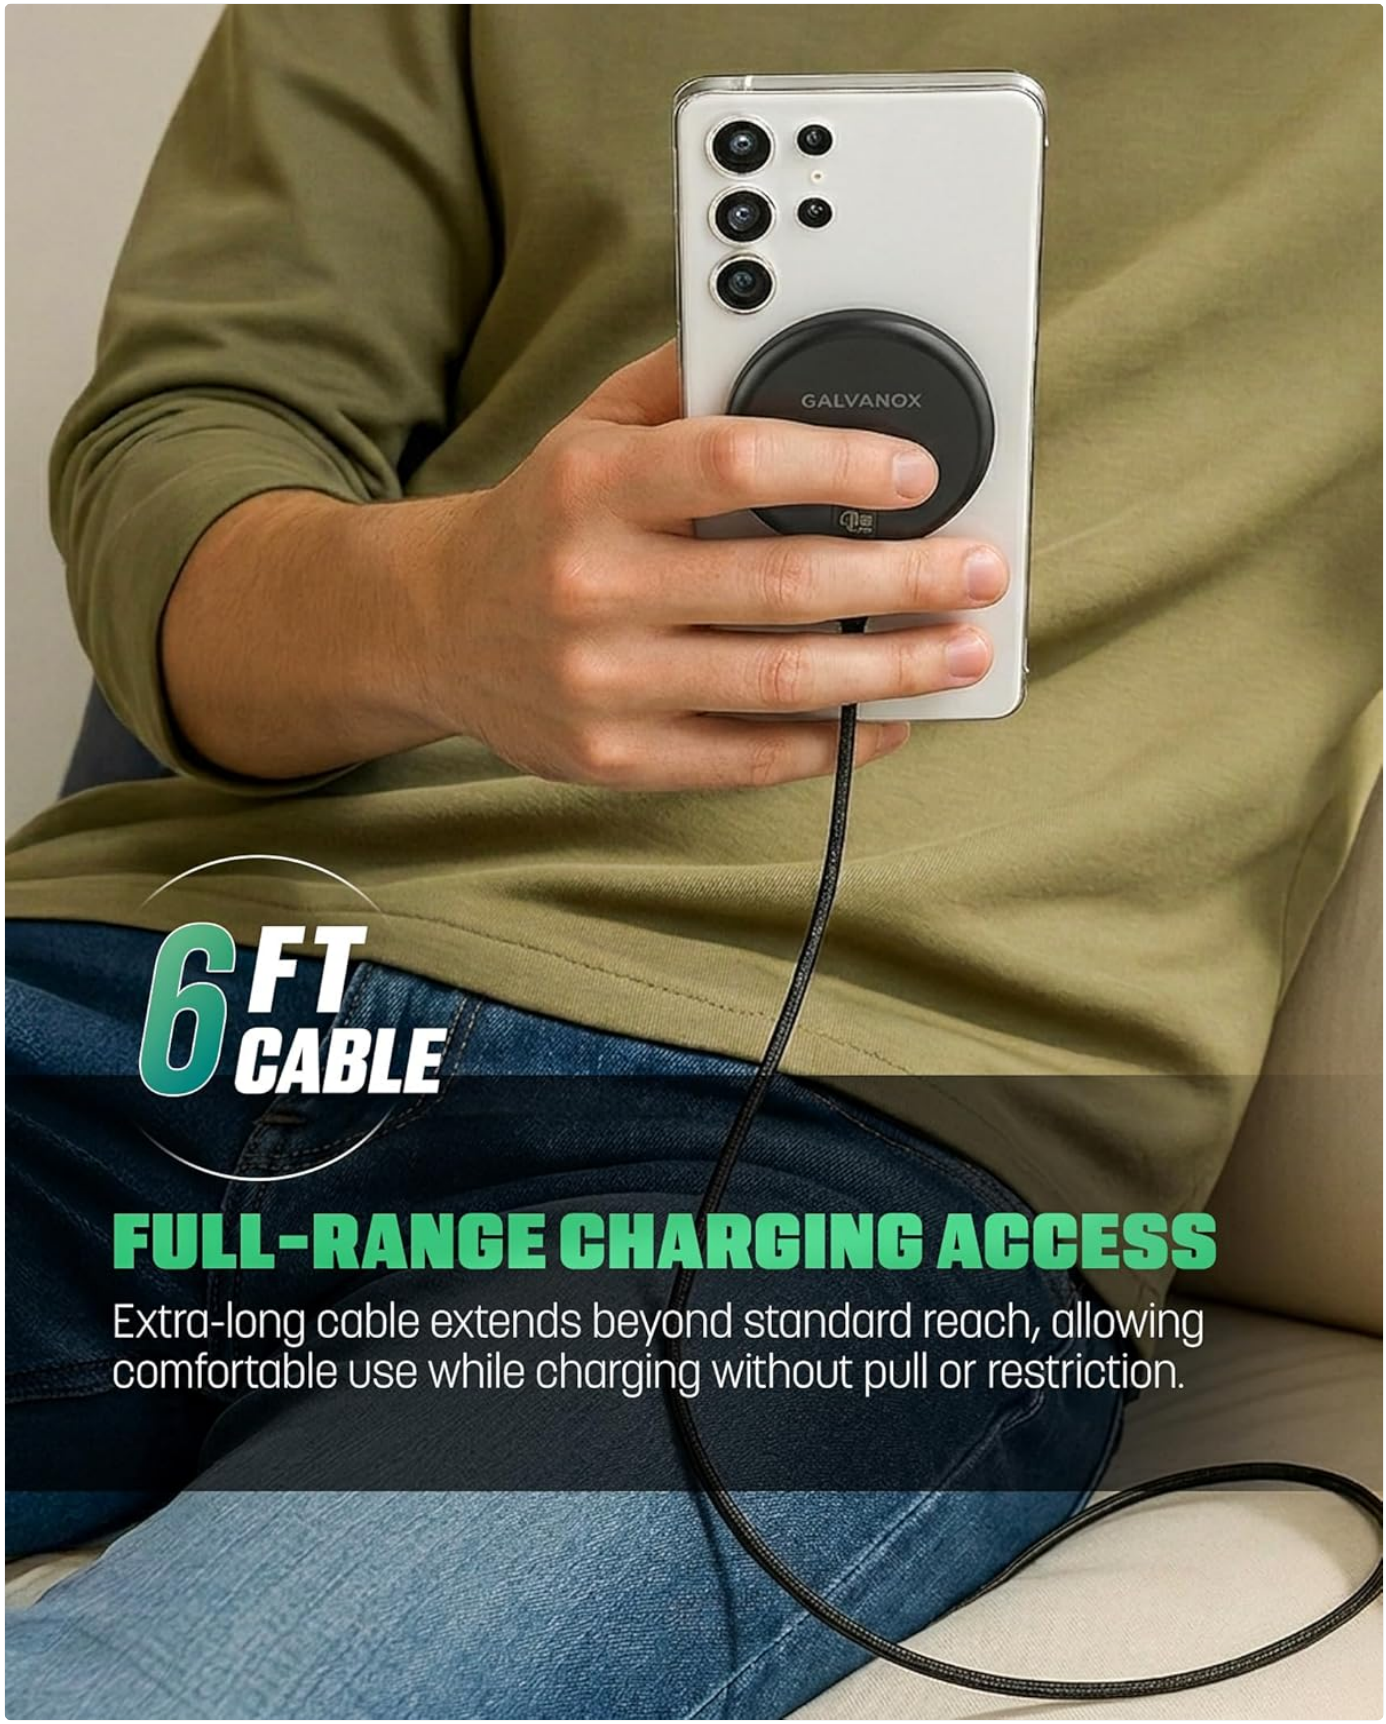

Figure 5: A comparison chart illustrating the faster charging speed of the Galvanox 25W wireless charger compared to 15W and 10W wireless chargers, showing 0-50% charge in under 30 minutes.

The charger minimizes heat generation through precise coil alignment, which reduces resistive loss and prevents heat buildup during sustained charging.

Figure 6: An illustration depicting how exact coil alignment in the charger minimizes heat generation by reducing resistive loss during power transfer.

5. Maintenance

To ensure the longevity and optimal performance of your wireless charger, follow these maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry cloth to wipe the surface.

Avoid using harsh chemicals or abrasive materials.

- **Storage:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** The charger features a reinforced nylon braided cable designed for durability (over 15,000 bend cycles). Avoid sharp bends or excessive pulling on the cable to prevent damage.

Figure 7: The reinforced nylon braided cable of the charger, coiled, highlighting its durability and stress-relief junctions designed to withstand over 15,000 bend cycles.

6. Troubleshooting

If you encounter issues with your Galvanox Wireless Charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging.	◦ Improper alignment. ◦ Incompatible device/case. ◦ Power adapter issue. ◦ Foreign objects present.	◦ Realign the device on the charger. ◦ Ensure your device supports Qi wireless charging and magnetic attachment. Remove thick cases or metal attachments. ◦ Verify the power adapter is working and provides sufficient power (e.g., 25W PD/QC). ◦ Remove any objects between the charger and device.
Slow charging.	◦ Low power adapter output. ◦ Device not optimized for 25W. ◦ Background apps consuming power.	◦ Use a 25W (or higher) Power Delivery (PD) or Quick Charge (QC) compatible adapter. ◦ Ensure your device supports 25W wireless charging. ◦ Close unnecessary background applications on your device.
Charger or device gets hot.	◦ Normal during fast charging. ◦ Misalignment or foreign objects. ◦ Environmental factors.	◦ Slight warmth is normal. If excessively hot, discontinue use. ◦ Ensure proper alignment and no foreign objects. ◦ Charge in a well-ventilated area, away from direct sunlight.

7. Specifications

Feature	Detail
Model Number	MSCP2507
Brand	GALVANOX
Wireless Charging Standard	Qi2.2 Certified
Wattage	25 Watts
Input Voltage	240 Volts (AC)
Output Voltage	5 Volts
Amperage (Output Current)	2.78 Amperes
Connector Type	USB Type-C
Cable Length	6 feet (approx. 1.8 meters)
Special Features	Wireless Charging, Fast Charging, MagSafe Compatible, Magnetic Alignment
Compatible Devices	Samsung Galaxy S24, S24 Plus, S24 Ultra, S25, S25 Plus, S25 Ultra, other Qi-enabled Android phones, iPhone models with MagSafe or magnetic cases.
Color	Black

Feature	Detail
Dimensions (Package)	28 x 16 x 1.7 cm
Weight (Package)	150 g
Manufacturer	Shenzhen Yifeng Intelligent Technology Co., Ltd.
GTIN (UPC)	840497083229

8. Warranty and Support

For warranty information and customer support, please refer to the documentation included with your purchase or visit the official GALVANOX website. Specific warranty terms may vary by region and retailer.
If you experience any issues not covered in the troubleshooting section, please contact GALVANOX customer service for assistance.

Answered questions about this manual

Can you show me a picture of the Galvanox MSCP2507 charger connected at both ends to confirm if I have the correct device to connect it to?

The Galvanox MSCP2507 is a magnetic wireless charger that uses a USB Type-C connector to plug into a power source. While we cannot display a live interactive photo in this response, the manual describes...
