VASAGLE ULTS316BC01S

VASAGLE Custos Collection Dresser with LED Lights and Power Strip

Model: ULTS316BC01S

Brand: VASAGLE

INTRODUCTION

Thank you for choosing the VASAGLE Custos Collection Dresser. This modern dresser is designed to provide ample storage with six drawers, two open shelves, integrated LED lighting, and a convenient power strip. Please read this manual thoroughly before assembly and use to ensure proper installation and safe operation of your new furniture.

IMPORTANT SAFETY WARNINGS

- **Anti-Tip Kit:** For your safety, it is crucial to secure the dresser to the wall using the included anti-tip kits. Failure to do so may result in serious injury or death from furniture tip-over.
- **Weight Capacity:** Do not place overweight items in the drawers or on the top surface. The maximum weight recommendation for the top surface is 165 lbs (75 kg). Each drawer has a maximum weight capacity of 22 lbs (10 kg).
- **Drawer Stops:** This dresser features 2-position drawer stops to reduce pull-out risks. Ensure these are correctly installed during assembly.
- **Stability:** Always place the dresser on a flat, stable surface.
- **Children:** Keep children away from the assembly area. Do not allow children to climb on or play with the dresser.

SETUP AND ASSEMBLY

Follow the step-by-step instructions provided in the included instruction booklet. It is recommended to assemble the dresser with two people to ensure stability and ease of construction. A screwdriver is included in the accessory kit for your convenience.

Key Assembly Points:

- **Drawer Slides:** Ensure drawer slides are installed correctly on both the dresser frame and the drawer sides for smooth operation.
- **Anti-Tip Installation:** Securely attach the anti-tip brackets to the back of the dresser and to a wall stud

using the provided hardware. This step is critical for safety.

- **Drawer Stops:** Install the 2-position safety stops on each drawer to prevent accidental full removal and enhance safety.

OPERATING INSTRUCTIONS

LED Lighting System

The dresser features integrated LED lights in the open shelves, offering customizable ambient lighting. The LED system can be controlled via a mobile application.

- **Color Options:** Choose from over 29 colors to match your mood or decor.
- **Dimmable:** Adjust the brightness of the lights.
- **Sound Sync:** Utilize Mic Sync or Music Sync features to make the lights react to sound or music.
- **Timer:** Set schedules for the lights to turn on or off automatically.
- **Dynamic Modes:** Explore various pre-set dynamic lighting effects.

To control the LED lights, download the dedicated mobile application (details in the included instruction booklet) and connect it to the dresser's LED system.

MAINTENANCE

- **Cleaning:** Wipe the dresser surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Fasteners:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary.
- **LED Lights:** If LED lights malfunction, check the power connection and the mobile app settings. Do not attempt to repair the LED strip yourself.
- **Power Strip:** Ensure the power strip is kept dry and free from dust. Do not overload the outlets.

TROUBLESHOOTING

- **Issue: LED lights are not turning on.**
Solution: Check if the power cord for the LED lights is securely plugged into an active outlet. Verify that the light switch is on. Ensure your mobile device is properly connected to the LED system via the app.
- **Issue: Drawers are difficult to open or close.**
Solution: Check if the drawer slides are properly aligned and free of obstructions. Ensure all screws securing the slides are tightened. Verify that the drawer contents do not exceed the weight limit.
- **Issue: Dresser feels unstable.**
Solution: Confirm that the dresser is placed on a level surface. Re-check all assembly screws to ensure they are fully tightened. Verify that the anti-tip kit is correctly installed and securely anchored to the wall.
- **Issue: Power strip is not providing power.**
Solution: Check the main power connection to the wall outlet. Ensure the power strip itself is switched on (if applicable). Test with a different device to rule out device-specific issues.
